BY SELDEN J. COFFIN.

INTRODUCTORY.

This book has been prepared at the suggestion and repeated request of many alumni of Lafayette College, who desired some permanent record of the friends of their college days for occasional consultation.

It has been no part of the plan to make it a volume of eulogy, knowing that the simple record of facts could not fail to be far more acceptable to those whose names are herein contained, than any efforts at praise, however considerately bestowed or judiciously distributed. For this style of writing the compiler of this work has no affection.

Feeling confident that the men of Lafayette are content that their actions shall speak for them, this book aims only at gathering those items of personal history that belong to the public, and which all readers can peruse with satisfaction, grateful that so many careers of industrious and useful effort can here be brought together.

The compilation of this work has been wholly a labor of love on my part, undertaken, continued and completed without thought of other reward than that of ministering, in some slight degree, to the gratification of those who may have occasion to peruse the volume. When I was appointed secretary of the Alumni Association, twenty years ago, in the ardor of youthful enthusiasm, I began a scrap-book to contain printed items pertaining to the careers of those who had been students in Alma Mater. This, with its succeeding volumes—for the effort proved to be in a fruitful direction—has been the nucleus of the present publication. Numerous circulars and letters of inquiry, sent out during the past year, brought back replies, by means of which it became

practicable to put the material so gathered into the form in which it is here presented; and it is hoped that it will prove a convenient hand-book for reference.

Of course the presentation of so large a number of sketches, however closely condensed, gives limited room for the record of essential and interesting facts; so that I have had to exclude a good deal that would be acceptable, had it been deemed advisable to extend the size of the volume. For this reason all mention of ancestry, marriage and family connection has been omitted, except where this had relation to those who held official position in the College.

In the absence of any general catalogue the greatest task that confronted me was the proper classification of the early students and the preparation of a perfect roll. In the earlier period of the history of the College, catalogues containing the names of students, and their respective classes, were issued only occasionally; all the other records to which I have had access were of little aid in this matter, and but for the use of the Minutes of the Literary Societies, and their lists of membership, this most necessary branch of the work would have been extremely imperfect. Had it not been for this difficulty, I should have decidedly preferred some mode of arrangement that would not have divided into two separate portions those who were classmates. The statements on pages 303–5, and 329–30*, show how nearly the roll has been perfected; four names appear to be still wanting from the total of 2400 who have been matriculated.

The deceased are designated by prefixing a star (*) to their names. In allusions to the church and the denominations of ministers, Presbyterian is to be understood where no other denomination is mentioned. In like manner Pennsylvania is to be understood where no State is named. In the sketches of the graduates,

*By correcting the omission noted at the foot of page 330, the entire number of matriculates is 2400; and by inserting the name of Rev. Thomas Wilson, page 329, the number unknown, on page 305, is reduced to four.

pages 9–123, the date of their entering college is given only when they are known to have joined their class at some other time than the beginning of the course; in the case of the Former Students, however, it has been the intention to state both the dates of entrance and departure.

For many items of personal interest, the reader is indebted to the columns of the *Lafayette College Journal*, a monthly periodical issued by the undergraduates, and conducted by them for some years past with creditable taste and energy.

All readers will unite in hearty appreciation of the great value and interest of the HISTORICAL SKETCHES of the College, appended to this volume, prepared by Professor Owen in 1876, at the request of the United States Bureau of Education, and solicited for publication by a formal vote of the Alumni Association.

I shall be glad to receive corrections and additions, knowing that in a work of this kind no amount of care will prevent the existence of numerous imperfections.

I cannot close without expressing my hearty sense of great obligation to the many kind friends who have so cheerfully aided me, in many ways, in preparing this contribution to the interests of Alma Mater.

S. J. C.

Lafayette College, May 30th, 1879.

CORRECTIONS.

To the revisions in the Appendix, page 323, the following corrections are to be added:

PAGE 18. *HENRY EDGAR KEENE, A.M., lawyer; was the great grandson of John Lukens, the Surveyor General of Pennsylvania from 1761 to 1789. He was born at Towanda, in 1818. After graduation he studied law in the office of Judge Reed at Carlisle; received the degree of LL.B., from Dickinson College, and practiced in Carlisle from 1846 to 1849, when he removed to Philadelphia, where, on motion of Hon. Garrick Mallery, he was admitted to practice in the Supreme Court of Pennsylvania. Here he was engaged until his death, June 24, 1875. He was a lawyer of high tone and integrity.

PAGE 332. Add to the notice of REV. DR. EBENEZER T. BAIRD.—Born near Pittsburg, Pa., Sept. 17, 1821. He became a member of the Maryland bar in 1844, but never practiced except in the ecclesiastical courts. He was Principal of the Vigo Institute, at Terre Haute, 1848–9; President of Washington College, Tennessee, 1850–2; 1856–'66, pastor in Mississippi; 1866–'77, Secretary of Publication, and also 1866–'74, Secretary of Education of the Presbyterian Church, South. He received the degree of A.M. from Marshall College, Pa., in 1847, and D.D. from Washington College, Tennessee, in 1856. He has been a member of the General Assembly five sessions.

Sketches of the Alumni.

CLASS OF 1836.

The following persons composed the first class that was graduated from Lafayette College, September 21, 1836:

George W. Kidd, A. M., *Houston, Texas.*—Born at Port Deposit, Md.; entered Sophomore year; engaged in mercantile pursuits in St. Louis and the Western States; since 1875, Secretary of the Houston Board of Trade and Cotton Exchange. Office of *Daily Telegraph.*

David Moore, A. M., *Hanover, Jefferson Co., Indiana.*—Born near Oxford, May 23, 1814; entered college October, 1832, and was for about one year, during the course, engaged in teaching; graduated with Latin Salutatory; Adjunct Professor of Ancient languages, and Principal of the Preparatory Department in Lafayette, from October, '36, to January, '39; from 1839–46, was Deputy Superintendent of Common Schools of Pennsylvania, at Harrisburg; studied law in Harrisburg, and was there admitted to the Bar, August 22, 1844; from 1846 to 1877, taught, at Salem, Mississippi, eight years; Clear Spring, Indiana, twelve years; Hopewell, Indiana, five years; Williamsburg, Indiana, four years; he now resides on a farm near Hanover College.

*Rev. James Beverlin Ramsey, D.D.—Born in Cecil Co., Maryland, May 20, 1814; Valedictorian; entered Princeton Theological Seminary in 1836, and remained four years. The eminent linguist, Dr. J. Addison Alexander, said that when Dr. Ramsey left the Seminary he was qualified to teach any class in the institution; ordained and installed pastor of the Presbyterian church at West Farms, New York, 1841; in 1846 he be-

came missionary to the Choctaw Indians, and took charge of the Spencer Academy, remaining over three years; then was preaching and teaching until '54, when he was installed pastor of New Monmouth church, Va.; from '58 to '70 he was pastor of First Presbyterian church, Lynchburg, Virginia, where he died July 23, 1871; author of Questions on Bible Doctrine, Richmond, Va., 1867, pp. 210, and The Spiritual Kingdom, Richmond, Va., 1873, pp. 518, an elaborate posthumous work, which contains his full memoir.

Nathaniel Barratt Smithers, LL.D., *Dover, Delaware.*—Lawyer; born at Dover, October 8, 1818; entered Sophomore, second term; graduated with English Salutatory; studied at the Carlisle Law School, 1837–40; admitted to the Bar at Carlisle, 1840, and at Dover, Delaware, April, 1841, where he has practiced since; Clerk of the House of Representatives, Delaware, 1845–7; Secretary of State of Delaware, 1863; member of Congress, 1863–5; Delegate to Whig National Convention of 1848, and to Republican National Conventions of 1860–4–8; member of Republican National Committee, 1860–8; President of First National Bank of Dover; LL. D. from Lafayette on Founder's Day, 1878; author of Translations of Latin Hymns of the Middle Ages, 2 vols., 8vo., 1877; President of the Alumni Association since 1878.

CLASS OF 1837.

Rev. Samuel Dickey, A.M., *Oxford.*—Born in Chester county, 1818; entered Preparatory Department in September, '32; graduated at Princeton Theological Seminary, '40; pastor of Union church, Lancaster; taught at Oxford; Trustee of Lincoln University; now President of Octorara National Bank.

Rev. Andrew Tully, A.M., *Portland.*—Born at Redden, Roxburgshire, Scotland, May 30, 1812; in Preparatory Department and College, '32–7; Valedictorian; graduated at Princeton Theological Seminary, '40; ordained October 21, '40; pastor at Lower Mount Bethel, thirteen years; Harmony, N. J., eight years; stated supply at Morrisville, five years; Beemerville, N. J., eight years; and since '73 at Portland. His son, A. C. Tully, was in the class of '65.

Rev. James Washington Wood, A.M., *Allentown.*—Born in Florida, Orange Co., New York, October 25, 1813; prepared for college at Middletown and Goshen; entered in December, 1833; Latin Salutatorian; graduated at Union Theological Seminary, '40; licensed by Hudson Presbytery, September 11, '39; ordained and installed at Deckertown, Sussex Co., New Jersey, December 11, '39, where he remained until '45; pastor at Chester, Orange Co., N. Y., '45 to '62; travelling and seeking health '62-4; pastor at Allentown since '65; has preached the gospel between the limits of Bismark, Dakotah, and Aboo Seir, in Nubia; two of his sons entered Lafayette; author of a chronological chart; Alumni Orator 1843 and 1859; orator before the Literary Societies in '65, on Ancient Civilization on the Nile.

CLASS OF 1838.

*Rev. David Coulter, D.D.—Born in Sussex Co., Delaware, November 8, 1808; entered Preparatory Department in April, '33; Valedictorian; graduated at Princeton Theological Seminary, '41; licensed to preach April 28, '41, and spent his whole ministerial life in Missouri, chiefly at Round Prairie, Rocheport, Columbia, and Liberty; died at Liberty, Missouri, August, 22,'78. "Greatly esteemed in every community in which he lived."

Benjamin F. Stem, A.M., Ph. D., *Easton.*—From Lehigh township; born 1815; Latin Salutatorian; admitted to Bar at Easton, November 16, '41, but never practiced; Principal of Academies at Stewartsville, N. J., Belvidere, Reading, Fredericksburg, Va., four years, and since '70 in Easton; clerk in U. S. Treasury Department, '63–'70; editor Easton *Free Press* four years; received degree of Doctor of Philosophy from Lafayette in '74. His two sons entered Lafayette.

CLASS OF 1839.

*Benjamin F. Baskin, A.M.—Lawyer; from Selinsgrove; entered Freshman, second term; died early, at Mercer, Pa.

Rev. John H. Brakeley, A.M., Ph. D., *Bordentown, N. J.*—Born in Harmony, Warren Co., New Jersey, November 3, 1816; entered Preparatory Department, '33; taught in Maryland three years; Professor of Languages and Natural Science

in Wesleyan Female College, Wilmington, Delaware, '42–7; licensed by Methodist Conference in '42; Principal Pennington Institute, '42–5; founded the Bordentown Female College, '51; resigned the Presidency of it in '75; President of the National Local Preachers' Association, '61; received Doctor of Philosophy from Lafayette in '71; Entomologist; President of the New Jersey Cranberry and Fruit Growers' Associations; Alumni Orator in '46.

*James Armstrong Dunlap, A.M.—Lawyer; born in Cumberland Co., 1815; prepared for college at Hanover, Indiana; admitted to the Bar at Easton, November 16, '41; was District Attorney; also Collector on Delaware Division of Pennsylvania Canal; and editor of Easton *Sentinel;* died in Easton October 10, '51.

Rev. James Ferguson Kennedy, D.D., *Chambersburg.*—Graduated at Princeton Theological Seminary, '43; ordained at Berwick, December 12, '48; preached at Fayetteville, '51–4; pastor at Dickinson, '55–9; taught at Chambersburg, '59–'64; and taught from '69; he received the degree of Doctor of Divinity from Lafayette in 1872; Professor of Greek in Wilson College since July 5, '70. His son, Daniel M. Kennedy, graduated in '73.

Rev. James N. Lewis, A. M., *Milton, Florida.*—Born at Wyalusing, Bradford Co., Pennsylvania; preached at Wytheville, Virginia, for many years, 1854 to 1863, and of recent years at Milton; author of various tracts published by the Presbyterian Committee, at Richmond, Va.

*James Clyde McKissick, A.M.—Born in Lancaster Co., December 21, 1817; in railroad business at Columbia, where he died January 20, '53.

William Augustus Porter, LL. D., *Philadelphia.*—Lawyer; son of Gov. David R. Porter; he was born in Huntingdon Co., May 24, 1821; entered Sophomore class in 1836; Latin Salutatorian; admitted to the Bar in Easton, April 23, '42, to the Bar in Philadelphia, April 26, '42; District Attorney of Philadelphia, Sheriff, '43, and City Solicitor, '56; Judge of Supreme Court of Pennsylvania, '58; a Judge of the Court of Alabama Claims at Washington, '74–5–6; LL. D. from Jefferson, '71. [Author of

Address before the Literary Societies at Lafayette, 1842, pp. 36; Essay on the Law pertaining to the Sheriff's Office, 1845; Address before the Law Academy of Philadelphia, on Morality of the Law, 1849; Life of Chief Justice Gibson, 1855, pp. 150; contributor to American Law Magazine and Law Journal.—*Allibone's Dictionary of Authors.*]

Rev. John Smalley, A. M., *Waverly, Iowa.*—From Bound Brook, New Jersey; born 1813; full Preparatory and College Course, 1832–9; Valedictorian; studied at Princeton Theological Seminary two years; ordained as an evangelist November 12, '44; preached and taught at Muncy, Pennsylvania, '43; Butler, '55; preached at Waverly, Iowa, '58–66; he resides at Waverly, honorably retired from the active duties of the ministry.

Edward F. Stewart, A.M., *Easton.*—Born in Easton, October 16, 1819; entered Sophomore; studied law in the office of Hon. James M. Porter, and was admitted to the Bar in '42; entered Princeton Theological Seminary, and was licensed by Presbytery of Newton in '45; gave up professional life on account of failure of health, and engaged in wholesale mercantile business; was connected with the Custom House in New York; edited the Somerset *Unionist* for several years; and is now connected with the First National Bank; he was the Alumni Orator in '54; has been a member of the Easton School Board more than twenty years, and for some time its President; also a member of the American Philological Society; in '54 he was the candidate for Congress against Judge Packer, in the Eleventh Pennsylvania District, receiving the votes of the united opposition to the Kansas-Nebraska bill.

CLASS OF 1840.

Samuel W. Barber, A. M., *St. Louis, Mo.*—He and William E. Barber (see following sketch) were sons of John Barber, of Columbia, where he was born, in 1824; entered Sophomore class; in mercantile business, in Philadelphia, 1840–8; in Baltimore, 1848–57; then resided for a few years at Davenport, Iowa, and since in St. Louis, where he is cashier and manager of the Collier estate; he was elected a ruling elder in the Presbyterian church while in Baltimore, and holds the same office in the Walnut street church (Rev. Dr. J. H. Brookes), in St. Louis.

William E. Barber, A.M., *West Chester.*—Lawyer; born at Columbia, April 21, 1822; entered Sophomore class; graduated with the English salutatory and an oration on Genius; studied law at Gettysburg, under U. S. Senator James Cooper, and was admitted to the bar at Adams and Lancaster counties in 1844, and Chester county, January, '46; in 1843 he was one of the three master orators, and in 1847 the Alumni orator; on account of impaired health he left the bar in '48 and engaged in mercantile business until '57; when, at Davenport, he re-commenced practice, and in '59 returned to West Chester; he has filled various offices in the church and community, and was Assessor of Internal Revenue for the Seventh Pennsylvania District from '68 until the office was abolished by the Act of 1873; his essay on Political Organization received the first prize of $500, offered by the Union League of Philadelphia, in 1868.

Col. William Dorris, A.M., *Huntingdon.*—Lawyer; born at Huntingdon, September 10, 1822; entered Sophomore; studied law and was admitted to the Bar at Huntingdon in August, '43, where he has since remained in constant practice; Counsel to the Pennsylvania Railroad; Colonel of the Third Regiment of Pennsylvania Militia in '62; Trustee of Lafayette since '65. His two sons were in the classes of '74 and '78.

Rev. Charles Elliott, D.D., *Chicago, Illinois.*—Born at Roxburgshire, Scotland; entered as a Preparatory student in '34; studied Theology at Princeton, '40-1; Teacher and Professor in Western University of Pennsylvania at Pittsburgh; Professor of Greek Literature and Logic at Miami University, '49-63; and since '63 Professor in Theological Seminary of the Northwest at Chicago; received degree of D. D. from Ohio University at Athens; author of a Treatise on the Sabbath; Part of the Minor Prophets, translated from Kleinert, in Lange; and a Treatise on Inspiration, published by Clarke & Co., Edinburg, 1878; Alumni Orator in '55—"Liberty, a Moral Development;" Orator before the Literary Societies in '70.

Rev. William Henry Green. D.D., *Princeton, N. J.*—Born at Groveville, N. J., January 27, 1825; entered Freshman, second term; tutor in Lafayette '41-42, and adjunct professor of Mathematics '43-4; master orator in '43; graduated at Prince-

ton Theological Seminary; ordained by Presbytery of New Brunswick, May 24, '48; assistant instructor in Hebrew in Princeton Theological Seminary, '46-9; pastor of Central Presbyterian church in Philadelphia, '49–51; since '51 he has been Professor of Oriental and Old Testament Literature in Princeton Seminary. Author of Hebrew Grammar; Chrestomathy; the Pentateuch Vindicated; and Argument of the Book of Job Unfolded. Received D. D. from College of New Jersey in '57 and LL. D from Rutgers in '73; Alumni Orator in 1853, and delivered an oration on "The Value of Physical Science in the Work of Education," upon the laying of the corner-stone of Jenks Hall, July 25, 1865.

*Joseph Junkin, A.M.—Son of President Junkin; pursued full course; tutor in Lafayette, 1844-6; teacher at Edgehill School, Princeton; died of consumption at Marianna, Florida, April 3, '49, aged 25.

*Rev. John Marshall Lowrie, D.D.—Born in Pittsburg; studied at Princeton Theological Seminary nearly three years; licensed April 27, 1842; ordained at Blairstown, N. J., October 18, '43, where he preached two years; then at Wellsville, Ohio, '46; Lancaster, Ohio, '50; and Fort Wayne, Ind., where he died, September 26, '67, aged 50; he was the author of "Esther and Her Times," and of several other religious works; he received D. D. at Miami University in 1858.

Samuel McCarragher, A.M., *Wilkes-Barre.*—Lawyer; born at Princeton, N. J., November 10, 1818; admitted to the bar at Wilkes-Barre, November 7, '42; district attorney '44-7; clerk of courts of Luzerne county '49–'52.

*Nathaniel Reeves Newkirk, A.M., M.D.—Born in Pittsgrove, N. J., July 22, 1817; graduated at Medical Department of University of Pennsylvania in 1843; practiced medicine at Pittsgrove '44–'51; after '51 at Greenwich, and in his closing years at Bridgeton, where he died, November 10, 1866.

Rev. Thomas Conrad Porter, D.D., *Easton.*—Born at Alexandria, Pa., January 22, 1822; graduated at Princeton Theological Seminary, '43; master orator in '43; missionary of the Presbyterian Board in Georgia, '46; ordained pastor of the Second

German Reformed Church, Reading, November 14, '48. Professor of Natural Sciences in Marshall College, and in Franklin and Marshall College, 1849-66, and Professor of Botany and Zoology in Lafayette since 1866; and pastor of the Third Street Reformed Church since September, 1877; his son, John Porter, graduated in '76. He was one of the committee to frame the Order of Worship now used in the Reformed Church in the U. S.; he received the degree of D.D. from Rutgers in '65; first President of the Linnean Society of Lancaster county; gatherer of an extensive herbarium, now owned by Lafayette College; a corresponding member of the American Philosophical Society, and of the Academy of Natural Sciences, Philadelphia. He is the author of Hermann and Dorothea, from the German of Goethe, 1854, 168 pp. 16mo; Life and Times of Ulric Zwingli, from the German of J. J. Hottinger, 1856, 12mo; and of several lyric poems in Schaff's Christ in Song; contributor to Herzog's Encyclopedia, 1856, *et seq.*, and to the Mercersburg Quarterly Review; translator of Schaff's Life of St. Augustine, New York and London, 1854, 12mo. 150 pp.; author of "Flora, of Colorado," U. S. Government Press, 1874, 8vo. pp. 180, and other papers in Hayden's Survey; seventeen species of the flowering plants of the U. S., and a number of varieties, have been described and named by him; several have been named for him, among them, *Desmatodon Porteri*, James, discovered on the rocks of College Hill, and figured in Sullivant's Second Supplement.

Augustus G. Richey, A.M., *Trenton, N. J.*—Lawyer; born at Asbury, N. J., March 17, 1819; entered Preparatory Department in 1834; studied law with Col. James N. Reading, of Flemington, and was there admitted to the bar in February, '44, and three years later was licensed as a counsellor, and located at Asbury; practiced at Asbury, 1844–56, and since at Trenton; State Senator, '64-6; director of several banking, gas and railroad companies; for some years President of New Jersey State Temperance Society; Trustee of Lafayette since 1876. [For full sketch see Biographical Annals of New Jersey.]

CLASS OF 1841.

Rev. Philander Camp, A.M., *Fall Brook.*—From Camptown, Bradford county; studied Theology three years, and graduated at Union Theological Seminary, Virginia, 1846, and licensed by

Presbytery of West Hanover, Va.; preached at Canton, Pa., '54–6; taught at McAlisterville, '57–8; preached at Horicon, Wis., '59–'61; Myersburg, '61; Andover and Gainesville, N. Y.; Fall Brook, since '73.

Rev. Thomas Elcock, A.M., *Van Wert, Ohio.*—From York county, Pa.; graduated at Princeton Theological Seminary, 1844; received as a candidate, October, '41; licensed, April, '43; dismissed to Presbytery of Sidney, Ohio, March, '45; now pastor of Van Wert.

*Rev. John Farquhar, A.M.—Born in Aberdeen, Scotland, September 20, 1821; his father came to America in 1833, and located in Easton, that he might here educate his son, and by his hands was hewn the first stone laid in the foundation of what is now known as South College; the son studied law one year, and then entered Princeton Theological Seminary, and there graduated in '46; ordained and installed pastor of the Presbyterian church, Lower Chanceford, York county, Pa., October, '46, where he preached until his death, September 18, 1866; he was Moderator of the Synod of Philadelphia; two of his sons entered Lafayette.

*Rev. Peter Badeau Heroy, A.M.—Of Huguenot origin; born at Mahopac Falls, Putnam county, N. Y., July 16, 1815; entered Sophomore; graduated at Princeton Theological Seminary, '45; preached at Delhi, N. Y., '45–'50; Highland Falls, Orange county, N. Y., '50–'56; Bridgeton, N. J., July, '56 to May, '57; pastor at Bedford, N.Y., from May, '57 until his death, October 16, '78, aged 62; in 1872 he had the pleasure of dedicating his new church, costing $50,000, Rev. Dr. Austin Craig, class of '46, assisting. [See Heroy's History of the Bedford Church, 1874.]

*James McKeen, A.M.—Lawyer; born in Ballymena, Ireland. His father, the late Thomas McKeen, early removed to South Easton. After graduating he studied law with the Hon. James M. Porter, and was admitted to the bar at Easton, April 16, 1844; he held the office of Prothonotary of Carbon county at Mauch Chunk, where, on the outbreak of hostilities with Mexico, he joined Major Klotz's company, became Lieutenant and Regimental Quartermaster; was taken sick at the siege of Pueblo, in 1847, and died after a brief illness.

*James Snodgrass, A.M.—Born in East Hanover township, Dauphin county, Pa.; valedictorian; lawyer; admitted to bar of Northampton county, August 25, 1843, and to Lehigh county; located at Harrisburg; died at Great Bend, Ind., in 1854; his younger brother, Robert Snodgrass, Esq., of Harrisburg, graduated in '57.

CLASS OF 1842.

*George Washington Baskin, A.M., M.D.—From Selinsgrove; graduated at Jefferson Medical College, '46; died early at Mercer, Pa.

*Rev. Ninian Bannatyne, A.M.—Born in Isle of Bute, Scotland; entered Sophomore; tutor, 1843; graduated at Princeton Theological Seminary, '45; associate pastor of F street church, Washington, D. C., where he died in 1849; a mural tablet, at the right of the pulpit of the church commemorates the esteem in which he was held by the congregation.

Athanasius John Collyrus.—A native of Greece; a roommate of Mr. Bannatyne; some years after graduating he returned to the land of his birth, and is reported to be engaged in teaching.

Rev. Darwin Cook, A.M., *Merryall, Bradford Co.*—Born in Pennsylvania; graduated at Princeton Theological Seminary, '45; licensed to preach, April 17, '44; ordained, February, '46, at Conyngham; preached six years in the Luzerne coal region, then removed to Troy; to Rome, December, '50; to Merryall, April, 1858; has held 10,000 religious services; prepared thirty-seven young men for college; thirteen of whom have entered the ministry; one being his son, Rev. M. L. Cook, class of 1873.

*Henry Edgar Keene, A.M.—Lawyer; from Philadelphia, where he practiced until his death, in June, 1875.

*Rev. James Green Moore, A.M.—Born near Johnsonsburg, N. J., November 30, 1813; several years in preparatory department and four in college; studied theology at Princeton Theological Seminary; licensed by Presbytery of Newton, and ordained by Luzerne Presbytery, 1845; and installed Pastor of church at Beaver Meadow, Pa.; preached at Montague, N. J., until '48; taught at Blairstown, N. J., and Croton Falls, N. Y.; in '53 he

moved west to regain his health, but died at his residence, near Philadelphia, Marion county, Mo., May 28, '58.

*Robert Newton, A.M., M.D.—From Philadelphia; entered Sophomore; tutor, 1843–4; graduated at Medical Department of University of Pa., '45; surgeon in U. S. army in Mexican war, and on his return died of yellow fever in New Orleans in 1848. He was a brother of John Newton, D.D., the eminent Presbyterian missionary in India. Fearlessness was a marked trait in his character. Near the close of the war with Mexico he was detailed to accompany a storming party; when the assault and rush began, he threw aside his surgical case, and was soon at the head of the column, and among the first over the battlements. General Scott, in his dispatches, made special mention of Surgeon Newton's daring.

*Alexander McDonald Sterrett.—Born at Columbia Furnace, Shenandoah county, Va., May 10, 1821; prepared at Woodstock Academy, Va.; in Model School and College, 1837–'43; soon after his admission to the bar, ill health compelled him to relinquish law; he was the Whig candidate for Congress, and edited a newspaper at Parkersburg, West Virginia, until his death, of consumption, January 31, 1858.

Rev. Joseph Stevens, A.M., *Jersey Shore.*—Born in Philadelphia, October 26, 1817; was tutor one year, and then at Princeton Theological Seminary two years, where he graduated; licensed to preach in 1845; ordained as an Evangelist by Presbytery of Mississippi in 1847; Professor of Mathematics in Oakland College, Miss., 1845–'51; since '51, pastor at Jersey Shore; he has published nine pamphlet sermons and discussions; his son is in the class of 1882.

Charles K. Wagner, A.M., M.D., *New York City.*—From Easton; entered Junior; graduated at Medical Department of University of Pennsylvania, '48; for many years past a merchant at 76 Murray street, N. Y.

CLASS OF 1843.

*Edgar Janvier, A.M., M.D.—Son of the Rev. Dr. George W. Janvier, of Pittsgrove, N. J.; graduated at Medical Department of University of Pennsylvania, '47; practiced at Port Rich-

mond, Philadelphia, where he died December 26, 1877; the names of three of his brothers occur as students in the following pages.

Rev. Cornelius Rutser Lane, A.M., Ph.D., *Chambersburg.*—Born in New Jersey; Salutatorian; graduated at Princeton Theological Seminary, '46; licensed April 28, '47; dismissed to Presbytery of Luzerne, April, '48; ordained Evangelist, November 30, '48; preached at Tunkhannock, '48; Warren, '52; pastor at Tunkhannock,'53- '70; Superintendent of Schools in Wyoming county; Professor in Wilson College, '70--'77; received the degree of Doctor of Philosophy from Lafayette.

*Charles Merrill.—Lawyer; born at New Berlin, Pa., March 17, 1824; admitted to the bar, December, '45; was deputy attorney of Snyder county; private 51st Pa. Infantry; died at New Berlin, from disease contracted in the war, December 25, 1865; "a lawyer of rare ability and power."

Rev. Thomas Thomas, A.M., *Stevensville, Bradford Co.*—Born in Cardiganshire, South Wales, June 14, 1812; studied two years at Princeton Theological Seminary; licensed in '45; ordained as an Evangelist, September 1, '47; preached at Neath, '45 to '50; at Orwell, Friendsville and Rome, '50 to '63; since '63, at Rushville and Stevensville; his son took an honor at Lafayette in '75; and a daughter is a missionary in Japan.

*Mahlon Yardley, A.M.—Lawyer; born at Yardleyville, Bucks county, Pa., February 24, 1824; studied law with Hon. Henry D. Maxwell, and admitted to the bar of Easton, November 21, '45; admitted to the bar at Doylestown, February 2, '46; member of Pennsylvania Senate, '58--'61; Lieutenant 104th Pa. Infantry, '61--2; Captain and Provost Marshal U. S. Volunteers; Judge Advocate in court-martial in Washington, '61--2; Internal Revenue Collector for Fifth District of Pennsylvania, '69--'73; died at his home, in Doylestown, June 23, '73.

CLASS OF 1844.

Charles Brodhead, A.M., *Bethlehem.*—Lawyer; born in Conyngham, Luzerne county; studied law with Senator Richard Brodhead, and for one year at the Law Institute of David Hoffman, Philadelphia; admitted to bar of Northampton county, No-

vember 17, '46; founder of the town of South Bethlehem; President of Lehigh and Lackawanna railroad; member State Constitutional Convention of '73; Trustee of Lehigh University, and founder of the "Brodhead Prize." [Biographical Encyclopedia of Pennsylvania.]

James Thompson Chapman.—From Mechanicsburg; he taught in the South, being reported as a resident of New Orleans.

*Isaiah N. Dilts, A.M., *Somerville, N. J.*—Lawyer; born at Schooley's Mountain, N. J., August 3, 1824; prepared for college at Morristown; entered Sophomore class; studied law at Morristown, in the office of Senator Jacob W. Miller and Chief Justice Whelpley; admitted to the bar in '47; in '50, licensed as counsellor; practiced at Morristown from '47 to '53, and since '53 at Somerville, where he died in May, 1878; he was Supreme Court Commissioner, U. S. Commissioner, contributor of numerous articles to magazines, a delegate to the Cincinnati Republican Convention of '76, and brother-in-law of the Hon. Wm. L. Dayton; his son was in the class of '76. [Biographical Annals of New Jersey.]

Benjamin Franklin Fackenthall, A.M., *Easton.*—Lawyer; born in Durham, Bucks county, November, 1825; Valedictorian; admitted to Northampton county bar November 21, '46; for some years was Superintendent of the Lillie Safe Works; practiced since '50 in the courts of Bucks and Northampton counties, and in the Supreme Court. The names of three of his sons occur in the following pages.

David K. McDonough, M.D., *New York City.*—From New Orleans, La.; physician in New York, 213 Sullivan street.

Rev. Winfield Scott Parsons, A.M., *Wilkes-Barre.*—Born in Massachusetts; his youth was spent in Lambertville, N. J.; entered Sophomore second term; graduated at Princeton Theological Seminary, '47; ordained Evangelist by Presbytery of Buffalo City, '51; preached in Ward church, Lockport, N.Y., '50; taught at Trenton, N. J., '52; Saugerties, N. Y., '54; Pottstown, Pa., '55; Wilkes-Barre, '56; Clifton Springs, N. Y., '58; Wilkes-Barre, Pa., '61--'71; Real Estate and Insurance Agent at Wilkes-Barre since '71; Alderman and Notary Public since '72.

*James S. Reese, A.M.—Lawyer; born in Easton, Pa.; admitted to Northampton county bar November 17, '46; and afterward to Lehigh county bar; practiced at Allentown, where he died, in October, 1858.

*William Rush, A.M.—Lawyer; born in Mendham township, Morris county, N. J., March 10, '24; entered Sophomore; studied law under Henry A. Ford, Esq., of Morristown, N. J., and was admitted to the bar, but never practiced; farmer until his death, March 29, '66, at Bernard township, N. J.

*Clermont Engles Thaw, A.M.—Lawyer; from Philadelphia; died near Altamont, Va., about 1850.

CLASS OF 1845.

*Thomas B. Alexander, A.M.—From Chester county, Pa.; Valedictorian; editor of "Florida Whig;" died at Mariana, Fla., 1847.

*Rev. James Wilson Carrell, A.M.—From Bucks county, Pa.; Latin Salutatorian; entered Princeton Theological Seminary, and graduated in '48; preached at Rosemont, N. J., '48; ordained at Freeport, Ill., '50, where he died in April, 1855; aged 36. The names of his brothers, Revs. Benjamin and John J. Carrell, occur in the following pages.

Rev. George C. Heckman, D.D., *Hanover, Ind.*—Born in Easton, January 26, 1825; graduated at Princeton Theological Seminary, '48; licensed to preach, August, '47; ordained, February, '49; pastor at Port Byron, N. Y., September, '48 to December, '56; Portage, Wis., '57--'60; Janesville, Wis., '60--61; Third Presbyterian church, Indianapolis, '61--7; State Street church, Albany, '67 to October, '70; since '70, President of Hanover College; he was the acting chaplain of the 19th Regiment U. S. Infantry, in garrison at Indianapolis; has been Moderator of seven meetings of Presbytery, and thrice of Synod, and seven times Commissioner to General Assembly; he received the degree of D.D. from Hanover, '68.

*Rev. William B. Hews.—From Newark, N. J.; pursued full course of four years; became a member of the Newark Conference of the Methodist Episcopal Church; was for a time stationed

as chaplain of the Lunatic Asylum at Trenton, and died about 1850.

Rev. James Edwin Miller, A.M., *Abingdon, Va.*—Teacher and pastor; from Morris county, N. J.; graduated at Princeton Theological Seminary, '48; licensed, August 21, '47; ordained as an Evangelist, April 24, '50; dismissed to Presbytery of Steuben, August 6, '50; received from Presbytery of Genesee River, May 30, '54; and in June following installed at Stroudsburg, where he continued until '60; stated supply of Plumsteadville, Pa.; preached in Minnesota, '70–'77; pastor at Abingdon since December, '77.

Austin Denison Shoemaker, A.M., M.D.—From Kingston. After graduating he studied law in Easton, 1845–7; studied medicine at Yale, '47–9; went to the Pacific, and has not been heard from since 1850; supposed to be deceased.

William M. Stephens, A.M., M.D., *Cerro Gordo, Ill.*—Born at Stephensburg, N. J.; entered Freshman; studied law in Union Law School, Easton, '45–8, and was admitted to the bar in '48; studied medicine in New York and Cincinnati in '51 and '52; received degree of M.D. at Eclectic Medical College, Cincinnati; was acting Assistant Surgeon in the U. S. volunteer service, '63–5, and in charge of hospital at Vicksburg; since '65 has been in practice at Cerro Gordo.

Rev. George Dillon Stewart, D.D., *Fort Madison, Iowa.*—Born at Jenkintown, Pa., 1825; entered Sophomore class; studied at Princeton Theological Seminary, '47–9; ordained, April, '50; preached at Conquest, N. Y., '49–'51; at Bath, N. Y., '51–9; West Point, Iowa, '59–'64; Burlington, Iowa, '64-'70; Omaha, '70–7; since '77, pastor at Fort Madison, Iowa; he received the degree of D.D. at Hanover College, Indiana, in 1872.

Robert Joseph Wright, A.M., *Bustleton.*—Born in Philadelphia; entered college as a sub-Freshman in October, '38; left in '40; engaged in manufacturing; re-entered in August, '42, and graduated in '45; until '51 was a merchant and manufacturer; in '52 he studied at Princeton Theological Seminary, and since that time has been constantly devoted to the study of Theology and Social Science; is a lay preacher and a member of the New

Jersey Conference of the Christian Church; author of "Principia, or the Basis of Social Science," and numerous other smaller publications on that subject; has been professor of Ethics, Metaphysics and Church History, in the Christian Biblical Institute, at Stanfordville, Dutchess county, N. Y., of which Rev. Dr. Austin Craig, of '46, is President; resides at Bustleton.

CLASS OF 1846.

Rev John Brown, A.M., *Knob, Beaver Co.*—From Wilkes-Barre; entered Sophomore class; graduated at Western Theological Seminary, '50; immediately became pastor of Freedom and Concord churches, retaining the latter charge until the present time.

Rev. Joseph Eastburn Nassau, D.D., *Warsaw, N. Y.*—Eldest son of President Nassau; born at Norristown, Pa., March 12, 1827; pursued full preparatory and collegiate course, '41--6; Latin Salutatorian; tutor two years; graduated at Princeton Theological Seminary, '52; licensed, October, '51; ordained, October 24, '55; taught at Lawrenceville, N. J., '51--3; Principal of Wilkes-Barre Female Institute, '53--5, and since October 24, 1855, pastor at Warsaw, Wyoming county, N. Y.; Trustee of Geneseo Academy and Ingham University; Stated Clerk of Presbytery twenty years, and twice Moderator of Synod; he received the degree of D.D. from Lafayette in 1872; author of numerous printed addresses and sermons.

Rev. Thomas H. Newton, M.D., D.D., LL. D., *Richmond, Va.*—Born in Philadelphia June 25, 1821; of English parentage; reared among Friends in Chester county; graduated at Princeton Theological Seminary, '49; ordained Evangelist by Presbytery of Philadelphia as chaplain of American Seamen's Friend Society,

St. Thomas, West Indies, Nov. 1850; visited Venezuela on a missionary tour; then pastor at Berwick, Pa., 53; chaplain at St. Louis, Mo., '59; missionary in South-western Missouri; pastor at Carlinville, Ill., '62–4; and at the same time Professor in Blackburn University; honorary member of the Academy of Natural Sciences at St. Louis; graduated in medicine in Philadelphia in '69; also received the degree of LL. D. in '72; while a student he organized a Natural History Society in Lafayette, known as the Linne Lyceum; in the West Indies he discovered several new varieties of shells, of which one received from Prof. C. B. Adams, of Amherst, the name *Corbula Newtonia*, and another received in Europe the name *Cyclostoma Newtonii*. Dr. N. has twice lost his collections by fire.

John Sandt, A.M., M.D, *Easton.*—Born June 9, 1822, in Lower Mt. Bethel; assistant teacher in Minerva Seminary, Easton; entered Junior class; graduated at Medical Department University of Pennsylvania, '50; permanent member of Medical Society of Pennsylvania; Fellow of the American Academy of Medicine.

Rev. Ephraim Simonton, A.M., *Vienna, Warren Co., N. J.*—Born at Richmond, Northampton county, February 26, 1822; graduated at Princeton Theological Seminary, '49; licensed by Presbytery of Newton, August 2,'48; missionary in Pike county, '49; preached at Andover, Tranquillity, and Allamuchy, N. J., November '49 to '51; then at Danville, Warren county, at which place he was ordained and installed pastor, December 2, '51, and so continued until April 24 '67; since then has preached as an Evangelist and resided on a farm at Vienna.

*Rev. George W. Simpson, A.M.—From Churchtown, Lancaster county; entered Freshman, half advanced; graduated at Princeton Theological Seminary; licensed by Presbytery of Donegal; landed at the Gaboon, Africa, January, '50, and immediately selected Corisco as the site for a mission; he and his wife came to their death in Corisco Bay, April 5,'51, by the loss, in a tornado, of the vessel in which they were making a short missionary voyage.

*Rev. Franklin D. Stem, A.M.—Born at Parryville, Carbon county, December 28, 1828; brought up in Warren county, N. J.;

entered Sophomore; tutor in Marshall College, '47–8; completed his theological course at Mercersburg, and licensed to preach in '49; was ordained as a minister in the German Reformed church in '51; chaplain of the Asylum for the Insane at Trenton, N J.; died August 24, 1851; "admired as a sincere and eloquent minister of the gospel." In the college records his name is printed "B. Franklin Stem;" but to avoid confusion with another of like name, he changed it to that given above.

*Rev. John Stewart, A M.– Born in Greenwich, Warren county, N. J.; entered Princeton Theological Seminary, and graduated, '49; licensed, August 2, '48; dismissed to Presbytery of Wisconsin, August, '49; established a church at De Pere, Wis., where he died in 1850.

*James Henry Stuart, A.M., M.D.—From Philadelphia; born March 22, 1828; graduated at Medical Department of University of Pennsylvania, '50; practiced at Erie; then became Assistant Surgeon in the U. S. Navy; he was in the Japan Expedition of 1854, and was lost with all on board the U. S. brig Porpoise, off the Chinese coast, September, '54.

Rev. Charles Wood, A.M., *Brooklyn, N.Y.*—Born at Salem, N. J., September 15, 1819; graduated at Princeton Theological Seminary, '49; ordained as an Evangelist in May, '49, at Philadelphia; was a missionary in Texas; pastor at Fox Hill, Pa., '51; Absecom, N. J., '61; Blackwood, N. J., '64; since '67 at Park Chapel, Brooklyn; vice-President of the Alumni Association, '78–9.

Rev. John S. Woodside, D. D., *Kapurthala, Northern India.*—From Stroan, Ireland; entered Junior class in partial course; foreign missionary of the Reformed Presbyterian church in India since '48; originator of the Mountain Sanitarium in Northern India; delegate to the Evangelical Alliance in New York, October, '73; received the degree of D.D. in '76.

CLASS OF 1847.

*John M. Barber, A.M.—Lawyer; born in Warren county, N. J., June 16, 1827; studied in the Easton Law School, and was admitted to the Easton bar, September 17, '49, but practiced in Camden, N. J., nearly all his life; he removed to Paterson, N. J., in 1868; and there suddenly died, March, '69, aged 41.

*Rev. John Brittain, A.M.—Born at Richmond, Northampton county, April 6, 1818; graduated at Princeton Theological Seminary, '50; licensed, April 24, '50; dismissed to Presbytery of Wisconsin, October 2, '50; domestic missionary in Presbytery of Winnebago; Principal of Academy, Portage City, Wis., '51–5; died at Mineral Point, Wis., December 13, '56.

Rev. Samuel A. Gayley, A.M., *Colora, Md.*—From Wilmington, Del.; graduated with the Latin Salutatory; entered Princeton Theological Seminary, and graduated, '50; ordained at Great Island church, Lock Haven, Pa., May 28, '51; Lower West Nottingham, Md., '56– ; Principal of Academy, '66– ; Alumni orator, '72; preached the sermon at the dedication of the College Chapel in '73 (published by the Trustees); President of the Alumni Association in '72. His son graduated in '76.

*Rev. Jesse Lawrence Howell, A.M.—Born in Easton, Pa., October 8, 1826; graduated at Princeton Theological Seminary, 1851; licensed at Blairstown, N. J., October 8, '51; ordained and installed pastor at Dobbs Ferry, N. Y., June 8, '53; preached at Stillwater, Minn., '60–66; Chatfield, '66–72; from '72 to '75 at Lake City and Bloomington, Minn., at which latter place he was subjected to great and sudden bereavements, in the decease of his wife and the accidental death of his daughter; he died May 5, '75; Permanent Clerk of the Synod of Minnesota. "A man of great amiability, unquestioned piety, and unswerving faithfulness in his ministry."

Rev. Ebenezer Dickey Junkin, D.D., *Brownsburg, Va.*—Born at Milton, Pa., February 3, 1829; on the return of his father, President Junkin, from Miami University, he entered the Sophomore class in Lafayette; taught at Wilmington and New Castle, Del., at Fredericksburg, Va., and at Mt. Holly, N. J.; graduated at Princeton Theological Seminary, '54; licensed, April 19, '54; ordained September 28, '55, at Prospect and Bethel churches, N. C., where he preached until September, '60, and since '60 at the New Providence church, in Virginia; received D.D. from Washington and Jefferson College in '76.

Rev. Edward Kennedy, A.M., *Merryall, Bradford Co.*—Born in Ireland; made his home at Mauch Chunk; graduated with Scientific Oration; graduated at Princeton Theological Seminary,

'50; ordained as an Evangelist by Presbytery of Winchester, '51; preached at Prince William, Va., '50–3; at Berwick, '55; pastor at Elkland, Pa., '59; preached at Fall Brook, '70; Barclay, '70–4; since '75 residing at Merryall without pastoral charge.

*William Kennedy, A.M., M.D.—Born in Warren county, N. J., February 6, 1829; graduated at Medical Department of University of Pennsylvania, 51; practiced in Warren county until '57, when he removed to Dade county, Missouri; entered the Confederate army as Surgeon under Generals Sterling and Price, and was killed in the last raid made by that army into Missouri, at the battle of Westport.

John Fox McCoy, A.M., *Carthage, N. Y.*—Merchant; eldest son of Anthony McCoy, Esq., who was for many years a member of the Board of Trustees, and its Secretary. He was born in Lower Mount Bethel; after graduation he built up a large business in New York, in the manufacture and sale of leather, his being one of the leading houses in that trade; as a numismatist, he gathered one of the finest collections of coins in the city; he was a Trustee of Alma Mater from '65 to '75; in '76 he removed to Carthage, where he now resides.

Oliver Horatio Meyers, A.M., *Easton.*—Lawyer and Judge; born in Bethlehem township, August, 1827; admitted to the bar at Easton, November 19, '49; District Attorney of Northampton county, '57–9; elected President Judge of the Third Judicial District, October, '74.

Francis Michler, A.M., *Easton.*—Lawyer; born in Easton, March 23, 1830; his father, the Hon. Peter S. Michler, was State Senator, and Trustee of Lafayette from '26 to '49; studied law under Hon. J. M. Porter, and was admitted to the bar at Easton, April 22, '51; Commissioner for New York; engaged in coal operations, '55–61; retired from practice; his son, Dr. H. D. Michler, graduated in '76.

Edmund Neff, A.M.—From Kutztown; full course; studied law; went West; was District Attorney of Washington county, Wis., in 1859; since 1862 his residence has not been ascertained.

Rev. William Francis P. Noble, A.M., *Pesadina, Los Angelos Co., Cal.*—From Noblesville, Lancaster county, Pa.; Vale-

dictorian; tutor in 1849; graduated at Princeton Theological Seminary, '50; ordained Evangelist, April, '57; pastor at Bel Air, Md., '58; West Nottingham, Pa., '62; Colerain, '66; Penningtonville, '69-; resided in Philadelphia, '72-6; chaplain 29th Regiment Pa. Infantry; post Chaplain at Mower Hospital, U. S. Army, '62-4; author of Prophets of the Bible and the Seven Churches, illustrated, 552 pp., 8vo., 1873; The Great Men of God, 557 pp., 8vo., N. Y., 1876, and a Cyclopedia of Biography.

James Henry Rice, A.M., *Chester.*—Born at Wilmington, Del., February 24, 1831; entered Sophomore; in mercantile business; vice-President and Professor of Latin in Delaware Military Academy, '58-62; same position in Pennsylvania Military Academy, '62-3; in business, '63-6; Professor of Latin in the latter Academy since '75.

JOHN DAVIDSON DORRIS, *Huntingdon.*—Born at Huntingdon, October 14, 1858; son of Col. William Dorris, of class of '40; law student.

JOSEPH EDWARD DURHAM, *Watsontown, Northumberland Co.*—Born at Dewart, October 22, 1857; received Douglass Prizes in classics in '75 and '76; studying law at Milton, in the office of Hon. Frank Bond.

ALEXANDER ELLIOTT, JR., *Dover, N. Y.*—Born at Dover, November 1, 1854; studying law at Paterson, N. J., in the office of J. W. Griggs, of '68.

CHARLES B. FORNEY, A.C., *Lebanon.*—Born at Lebanon, November 8, 1856; full Chemical course.

Edward J. Fox, Jr., *Easton.*—Born at Easton, April 3, 1858; graduated at Easton High School; now studying law.

Joel Scobey Gilfillan, *Coatesville, Chester Co.*—Born at Cochranville, May 29, 1854; entered Sophomore; student in Union Theological Seminary.

James Johnson Grant, *Navarre, Ohio.*—Born June 23, 1852; received second Prize in Oratory, at the Intercollegiate Contest in '78; studying law in Columbia College, New York.

Jacob Koch Griffith, A.C., *Pittston.*—Born in West Pittston, Luzerne county, August 9, 1857; Analytical Chemist.

Charles Heebner, *Port Carbon.*—Born at Port Carbon, February 5, 1859; received Douglass Prizes in '75–6–7, Junior Mathematical Prize and third prize in Junior Orator Contest; Latin Salutatorian; teaching, with law in view.

Lewis Ahrens Hoffman, *Reading.*—Born December 30, 1855; is a student in the Hahnemann Medical College, Philadelphia.

James Renwick Hogg, *Philadelphia.*—Born August 8, 1856; engaged in manufacturing.

Edward Everett Hoyt, *Kingston, Luzerne Co.*—Born January 2, 1859; General Scientific course; studying law.

James D. Hunter, *Ruggles, Ashland Co., Ohio.*—Born near Harrisburg, Carroll county, Ohio, October 29, 1849; was brought up at Decatur, Indiana; taught before entering college; is studying theology at Union Theological Seminary, New York.

Charles Collingwood Jennings, *Easton.*—Born in Easton, June 9, 1858; studying medicine in the University of Pennsylvania.

Robert Stuart Johnston, *Greenville, Mercer Co.*—Born at Greenville, September 27, 1857; earlier part of his course at Thiel College; entered Sophomore, second term; now in a bank and studying law.

William Scott Kerr, *Saltsburg, Indiana Co.*—Born in Loyalhana township, Westmoreland county, February 16, 1853; entered Freshman, second term; now teaching.

HARRY KNECHT, *Easton.*—Born in Easton, December 24, 1857; General Scientific course; studying law in the office of B. F. Fackenthall, Esq., class of '44.

EDWARD ARTHUR MCLAURY, *Monticello, N. Y.*—Born near Monticello, October 13, 1850; student in Union Theological Seminary, New York.

JAMES CAMERON MACKENZIE, *Wilkes-Barre*—Born at Aberdeen, Scotland, August 15, 1852; editor of *Lafayette College Journal*, '77–8; Valedictorian; now Principal of Wilkes-Barre Classical School.

GEORGE B. MARKLE, JR., *Jeddo, Luzerne Co.*—Born in Hazleton, October 7, 1857; entered Sophomore in General Scientific course; since graduation, has been Assistant Superintendent of Jeddo and Highland Coal Mines.

CHARLES DINSMORE MARVIN, C.E., *Foxburg, Clarion Co.*—Born at Ripley, Chautauqua county, New York, November 25, 1855; early removed to Erie; is engaged in banking.

WILLIAM NEWTON MATEER, *Shippensburg.*—Born July 6, 1857; is now teaching in New Windsor College, Maryland.

JOSHUA LEWIS MINER, *Wilkes-Barre.*—Born in New York City, November 11, 1855; studying medicine.

CHARLES THOMAS OFFICER, *Council Bluffs, Iowa.*—Born in Jacksonville, Illinois, March 18, 1854; General Scientific course; now in bank of Officer & Pusey.

HOWELL TERRY PERSHING, *Pottsville*—Son of Hon. Cyrus L. Pershing; born at Johnstown, March 18, 1858; graduated in General Scientific course, with Honorary Oration—Philosophical; and has since taught in Wilkes-Barre.

GEORGE WASHINGTON PHILLIPS, *Pleasant Mount, Wayne Co.*—Born at Scranton, March 10, 1855; graduated with Historical Oration; President of Pleasant Mount Academy since graduation.

SAMUEL WILBERFORCE POWELL, C.E., *Philadelphia.*—From Norristown; born November 3, 1847; was a machinist before entering college; entered Sophomore class; now engaged as a draughtsman at 1111 Walnut Street.

Charles Michler Ray, C.E., *Washington, D. C.*—Born December 21, 1856; appointed assistant Paymaster in the U. S. Navy, and confirmed by the Senate, March 3, '79.

Charles Bement Riggs, *New London, Chester Co.*—Born at Elmira, New York, December 28, 1854; received a Douglass Prize in '75; since graduation, Principal of New London Academy.

George Redsecker Ross, *Lebanon.*—Druggist; born at Lebanon, October 17, 1854; General Scientific course; student in Philadelphia College of Pharmacy.

George Washington Sandt, *Easton.*—Born at Stockertown, February 22, 1854; received first prize in Junior Orator Contest in '77, and Honorary Mathematical Oration; teaching in Easton, with the ministry in view.

Horace Daniel Sassaman, *Erwinna, Bucks Co.*—Born at Kintnersville, June 15, 1854; received Douglass Prizes in '75–6–7; studying in Union Theological Seminary.

Charles Payson Gurley Scott, *Wilkes-Barre.*—Born at Dayton, Ohio, October 12, 1853; entered college in '71; course interrupted by ill health; received the Harvey Prize, the Early English Text Society's Prize, the "New Shakespeare" Society's Prize, and Honorary Philological Oration; teaching in Wilkes-Barre.

James Harvey Scott, *Elizabeth, Allegheny Co.*—Born in Forward township, Allegheny county, January 4, 1851; entered Freshman class, third term; law student.

Joshua Rogers Serfass, *Easton.*—Born in Easton, March 20, 1856; studying law in the office of D. W. Nevin, class of '75.

William Lesley Sheafer, *Pottsville.*—Born at Pottsville, February 19, 1859; in General Scientific course.

John Franklin Sheppard, *Bridgeton, N. J.*—Born at Bridgeton, June 21, 1854; received a Douglass Prize in '75; student in Union Theological Seminary, New York.

John Maxwell Sherrerd, M.E., *Belvidere, N. J.*—Born in Scranton, Pa., February 26, 1859; received Junior Mathematical

Prize, and Honorary Scientific Oration; also took post-graduate course in civil engineering, '78.

PORTER WILSON SHIMER, M.E., *Easton.*—Born near Easton, March 13, 1857; engaged in making chemical analyses.

HENRY SNYDER, *Easton.*—Born January 30, 1858; received Honorary Classical Oration; teaching.

ALEXANDER RAMSEY SPEEL, *St. Paul, Minn.*—Born December 31, 1856; clerk in Pension Bureau, in Washington; law in view.

RUSSELL CHIDSEY STEWART, *Easton.*—Born in South Easton, September 2, 1859; received second prize in Junior Orator contest; studying law in Columbia College.

GEORGE WASHINGTON STOUT, JR., *Easton.*—Born in Easton, March 6, 1859; studying medicine in the University of Pennsylvania.

WILLIAM BROADWELL SULLIVAN, *Dayton, Ohio.*—Born at Dayton, February 13, 1856; law student.

WILLIAM PHILIP TAYLOR, *Mooresburg, Montour Co.*—Now teaching in the Princeton Preparatory School; law in view.

JOHN CHARLES TEMPLE, *Dayton, Ohio.*—Born April 27, 1857; special student in Chemistry, graduating with degree of B.S.

WILLIAM S. GARVIN TRUNKEY, *Franklin.*—Born at Mercer, October 29, 1854; entered in '73; absent a year, and pursued Senior year with class of '78; registered as a law student at Franklin, April, '77.

EDWIN TEEL WALKER, *Strasburg, Lancaster Co.*—Born at Strasburg, March 5, 1855; medical profession in view.

BARGE CHRISTOPHER WEIDMAN, *Lebanon.*—Born November 29, 1856.

JOHN FREMONT WILLIAMSON, *Sidney, Hunterdon Co., N. J.*—Born at Sidney, April 11, 1856; student of theology.

GEORGE FRANKLIN PIERCE YOUNG, *Easton*—Born in Moore township, Northampton county, November 5, 1852; clerk in the

Recorder's Office in '71; now a law student in the office of S. V. Kachline, of the class of '63.

THOMAS OSCAR YOUNG.—*Easton.*—Born in Lehigh township, December 16, 1854; General Scientific course; studying medicine in the University of Pennsylvania.

CLASS OF 1879.

The following are members of the Senior class at the present time, and candidates for a degree at the approaching Commencement:

ELLIOTT CHIDSEY ARMSTRONG, *Easton.*—Born in Easton, March 24, 1858; received Douglass Prizes in '76–7, and the third Junior Orator Prize; law in view.

JACOB EDGAR BELVILLE, *Pottsville.*—Born at Hartsville, Bucks county, December 19, 1858; received Douglass Prizes in '76–7.

HENRY HERMAN BIMM, *Dayton, Ohio.*—Born at Dayton, November 26, 1858.

EDMUND SWALM BOYER, *Pottsville.*—Born at Pottsville, October 21, 1857; General Scientific course; received the "New Shakespeare" Society's Prize in '78.

CHARLES GIBSON BROWN, *Huntingdon.*—Born at Huntingdon, July 10, 1858; law in view.

AUGUSTUS JAMES BURGNER, *Delaware City, Del.*—Born at Delaware City, May 29, 1853; ministry in view.

FREDERICK GILLETT BYLES, *Fredonia.*—Born at Fredonia, June 18, 1853; the study of medicine in view.

REED CAUGHEY, *Erie.*—Son of Professor A. H. Caughey; born at Erie, November 13, 1859; law in view.

CHARLES ANDERSON CRAIGHEAD, *Dayton, Ohio.*—Born at Dayton, August 12, 1857; law in view.

MARTIN LUTHER DEITZLER, *Annville, Lebanon Co.*—Born at Bernville, Berks county, February 2, 1851; class historian; ministry in view.

AUGUSTUS THEODORE DOBSON, *Chester.*—Son of Rev. A. T. Dobson, of the class of '48; born at Cape May City, New Jersey, July 7, 1858; the study of medicine in view.

James Elliott, *Plainfield, Cumberland Co.*—Born at Plainfield, July 7, 1857; graduated at Dickinson College in '78; candidate for degree of C.E.

Leonard Bertner Eyster, *Chambersburg.*—Born at Chambersburg, February 24, 1859; received the Early English Text Society's Prize in '78.

Irvine Moore Flinn, *Newport, Del.*—Born at Newport, October 20, 1854; entered Sophomore; study of medicine in view.

Lewis Grant, *Shenandoah.*—Born at Pottsville, Schuylkill county, December 19, 1857; General Scientific course.

Francis Heck, *Paxinos.*—Born at Monterey, Schuylkill county, May 29, 1856; law in view.

Frank Whitehill Hinkle, *Columbia.*—Born March 6, 1858; the study of medicine in view.

Stewart Maurice Hohl, *Easton.*—Born in Easton, August 25, 1858.

Hiram Bacon Howland, *Indianapolis, Ind.*—Born at Northwood, Marion county, Indiana, July 10, 1855; General Scientific course.

William John Jones, *Slatington.*—Born at Danielsville, Northampton county, January 27, 1858; received second Junior Orator Prize; law in view.

Frank Delmar Kinnear, *Franklin.*—Born at Franklin, May 21, 1856; General Scientific course; law in view.

George Read Lawrence, *Monongahela City.*—Born in Washington county, March 7, 1858; General Scientific course, with Latin.

John Benjamin Lichtenwallner, *Allentown.*—Born at Fogelsville, Lehigh county, July 8, 1859; entered Sophomore, second term.

Herman Keller McCauley, *Altoona.*—Born in Altoona, February 6, 1856.

George Davidson McDowell, *Chambersburg.*—Born at Locust Hill, Franklin county, November 20, 1857; early removed to Chambersburg; law in view.

William Hollingsworth Mackall, *Elkton, Md.*—Born in Fairfax county, Virginia, January 4, 1859.

Jacob Levi Markel, *Markelville, Perry Co.*—Born at Markelville, March 10, 1855; entered Sophomore.

Frank Pardee, *Hazleton.*—Son of A. Pardee, a Trustee of Lafayette since 1865, and the Founder of the Pardee Scientific Department.

Winfield Lattin Parsons, *Wilkes-Barre.*—Born in Wilkes-Barre, April 2, 1857; General Scientific course; received the Junior Mathematical Prize.

George Wehn Plack, *Altoona.*—Born at Altoona, June 2, 1856; the ministry in view.

Milton Edwin Schadt, *Ruchsville, Lehigh Co.*—Born at Ruchsville, July 18, 1857.

Irwin William Schultz, *Phillipsburg, N. J.*—Born in Phillipsburg, December 6, 1856; law in view.

Herbert Mendelssohn Seem, *Martin's Creek.*—Born at Martin's Creek, December 17, 1857; he organized the Lafayette Orchestra in '75, and was its leader through his entire course.

Norcom Linington Seguin, *Philadelphia.*—Born in New Orleans, Louisiana, January 22, 1856; was in a cotton house four years; in Technical course two years; then changed to Classical; law in view.

Harvey Shaw, *Phillipsburg, Centre Co.*—Born near Phillipsburg, December 2, 1846; before entering college he taught in Strasburg and Titusville; ministry in view.

Benjamin Hoopman Silver, *Glenville, Md.*—Born in Harford county, Maryland, January 11, 1857.

Maxwell Gayley Simpson, *Parkesburg.*—Born at Parkesburg, October 21, 1859; entered Sophomore; received a Douglass Prize in '77.

WILLAIM IRWIN STEANS, *Mifflinburg, Union Co.*—Born at Mifflinburg, March 20, 1854; received a Douglass Prize in '76, and the Harvey Prize in '78; editor of the *College Journal*,'78–9; ministry in view.

WILLIAM BLACK STEEL, *Port Deposit, Md.*—Born at Port Deposit, July 4, 1858.

ARCHIBALD THOMPSON STEWART, *Brogueville, York Co.*—Born at Brogueville, 1854; entered Junior; the ministry in view.

THOMAS LOUIS STONEROAD, *Dunbar, Fayette Co.*—Born at Dunbar, November 20, 1857.

WILLIAM HENRY WALTERS, *Phillipsburg, N. J.*—Born in Phillipsburg, February 18, 1857; law in view.

HIDETAKE TARO YEGAWA, *Nirayama, Idzu, Japan.*—Son of Hidetatu Yegawa, the Governor of Idzu under the administration of the Tycoon; he was born April 4, 1856; early losing his parents, his father's sister educated him in Japanese literature and history, and in the Chinese language. Under the appointment of the Department of the Navy, he came to this country in the spring of '72, and studied at Highland Falls and Peekskill, N. Y. In the change of policy consequent on the establishment of the Imperial University of Tokio and the Naval Academy, he was recalled in '74, but by resigning his commission, obtained leave to remain. He entered college in June, 75; received the Junior Mathematical Prize, and an appointment for the Junior Oratorical Contest; is a candidate for the degree of C.E.

REUBEN ALEXANDER ZIMMERMAN, *Andersonburg, Perry Co.*—Born in Madison township, Perry county, September 25, 1852; law in view.

THE ALUMNI ASSOCIATION

Is composed of graduates of Lafayette College and such of their classmates, who left college before graduation, and in good standing, as may have been elected. The annual meeting is held on Tuesday, preceding Commencement-day.

COMMITTEE OF THE ALUMNI,

1878–9.

MEMBERS EX-OFFICIO.—*President*, Hon. N. B. SMITHERS, LL.D., '36; *Vice-President*, Rev. CHARLES WOOD, '46; *Secretary*, Prof. SELDEN J. COFFIN, Ph.D., '58; *Temporary Clerk*, OSCAR J. HARVEY, Esq., '71.

Rev. SAMUEL DICKEY, '37.
EDWARD F. STEWART, '39.
Rev. DARWIN COOK, '42.
Rev. W. S. PARSONS, '45.
Rev. CHARLES J. JONES, '46.
Hon. O. H. MEYERS, '47.
Rev. R. B. FORESMAN, '48.
THOMAS G. GAYLEY, '53.
Hon. H. HAMBURGER, '56.
Dr. S. G. BLYTHE, '60.
Rev. J. M. NOURSE, '62.
Dr. O. H. ALLIS, '64.
Rev. W. W. HEBERTON, '65.
J. WHIT WOOD, '66.
Dr. R. J. HESS, '67.
Dr. C. MCINTIRE, '68.
W. S. RONEY, '70.
Prof. W. B. OWEN, '71.
Rev. JAMES I. GOOD, '72.
Prof. S. G. BARNES, Ph.D., '73.
J. W. B. BAUSMAN, '74.
W. S. HETRICK, '75.

Geo. Junkin.

SKETCHES OF FORMER STUDENTS.

METHOD OF ARRANGEMENT.—In the earlier years of the College, the maintenance of several courses of study, distinct from the Classical course which led regularly to graduation, and known respectively as Academic, Scientific, and Normal, has caused no small difficulty in the proper classification of the following names: this may, therefore, not have been done with entire accuracy. The arrangement adopted in the following pages, until these courses were discontinued, is to class the names according to the year of entrance, in a double alphabetical list; the first containing those who are known to have entered college classes, or who, after a preparatory course, reached college standing; the second embracing those whose course is not known to have extended beyond preparatory studies.

ENTERED IN 1832.

JOHN ADAMS, *Cedar Rapids, Iowa.*—Merchant; from Frankford; born in 1814; in college two years; then studied at Rutgers College; resided some years in Springfield, Ills.; then returned to Frankford; now resides at Cedar Rapids, Iowa.

*JAMES BARBER.—From vicinity of Belvidere, N. J.; born in 1817; in college two years; died near Pittston, about 1840.

*REV. ANDREW BARR.—Born near Turbotville, Northumberland county, September 28, 1808; a descendant, on his mother's side, of the Rev. John Rowan, whose life is found in Sprague's Annals; in college several years; afterward at Union; studied theology under Rev. Andrew Russell, of Newark, Del.; preached at Elkton, Md., and Pencader about six months; went South for health, and died at Mobile, July 1, '40.

REV. JOHN LANSING BURROWS, D.D., *Louisville, Ky.*—Born at Albany, N. Y., Feb. 14, 1814; brought up in Bucks county, Pa.; in Union College, '34–6; ordained at Poughkeepsie, '37, Baptist; taught two years at Shelbyville and Elizabethtown, Ky.; gathered and organized the churches of Owensboro and Henderson, Ky.; pastor in Philadelphia, '40–54, where he organized the Broad

Street church; First Baptist church, Richmond, Va., '54–74; and since Jan. 1, '75, at Louisville; received from Madison University, N. Y., honorary A.M. and D.D.

ZEPHANIAH BUTT, M.D., *Ocala, Marion Co., Florida.*—Born near Millville, Columbia county, 1810; graduated at Jefferson Medical College, '41; practiced a short time in Schuylkill county; thence to Lincolnton, N. C.; thence to Florida.

JAMES CAMPBELL, *Clarion.*—Lawyer; born at Kishacoquillas Valley, Mifflin county; in college one year; graduated at Jefferson College, '37; admitted to the bar of Mifflin county, Jan., '40; practiced law at Clarion from the organization of the county, in '40, except while serving as President Judge of that district (18th), from '61 to '71.

REV. BENJAMIN CARRELL, A.M., *Lambertville, N. J.*—Born in Bucks county Pa., 1809; in college from '32 to '35; graduated at Union College, '36; then entered Princeton Theological Seminary, and graduated; pastor at Waynesburg and Newton-Hamilton, Pa.; Amwell, N. J.; Clover Hill; now at Lambertville.

*REV. JOHN J. CARRELL, A.M.—Born in Tinicum, Bucks county, March 20, 1812; founder of the Franklin Literary Society;† a member of the class of '36; but left college during Senior year to study at Princeton Theological Seminary; licensed Oct. 15, '38; ordained Nov. 19, '39; preached at Oxford and Harmony,

† The Washington Literary Society, which at first bore the name of Philomathean, was organized in the Manual Labor Academy of Pennsylvania at Germantown, July 4, 1830, chiefly by the endeavors of Messrs. S. M. Hamill and B. Tyler, of whom sketches are given in the ensuing pages. In 1831 a paper was drawn up and circulated by Mr. J. J. Carrell, which resulted in the organization of the Franklin Literary Society, November 26, 1831. The paper was signed by twelve persons, of whom sketches of Messrs. Burton, Benjamin Carrell, John J. Carrell, Harvey, Horton, Mitchell, Nivin, and Struthers, are given above. The remaining signers ceased their connection with the Society on its transfer to Easton in the following Spring; they were Messrs. H. S. Elder and Graef, from Philadelphia, Joseph H. Schreiner and J. P. Tustin.

JOSEPH H. SCHREINER was born in Philadelphia, in 1813; studied under Dr. Junkin until March '32; entered Rutgers College, but because of impaired health left before graduation; conducted a private school in his native city, and afterward, for seventeen years, taught in one of the public schools; then dealt in coal

N. J., until '48; at Riegelsville, Pa., until '53; at Groveland, N. Y., until Oct. 21, '62, when he was commissioned chaplain of the 9th N. J. Regiment; his health failing, he resided in Easton after '63, and preached almost constantly, but without a pastoral charge, until his death, June 21, '77; received A.M. at Lafayette in '42. The first instance of the son of a former student of Lafayette matriculating in Alma Mater, was that of his son, Captain Edward H. Carrell, of the class of '61, a youth who fell in his country's service.

John Jerome Delatour.—From New York; born 1815; of French origin; on leaving Lafayette he entered Union College; went to Kentucky.

Rev. Henry C. Fries, *Laurel, Del.*—Born at Frankford, Pa., Sept. 29, 1813; left college on account of ill health; graduated at Princeton Theological Seminary in '37; licensed to preach in '36; has been engaged in the ministry and in teaching.

Rev. Isaac Hall, *Piqua, Ohio.*—Born in Maryland, in 1810; student at Princeton Theological Seminary for two years, '36–7; licensed by Presbytery of Newton, April 24, '39; in Presbytery of Baltimore, Md., '42–54; preaching at Franklinville, Md.; has been a stated supply in Pa., Md., and Ohio; not ordained; has resided at Piqua, Ohio, since '54.

Rev. Samuel M. Hamill, D.D., *Lawrenceville, N. J.*—A native of Montgomery county; in the winter of '32–3 he left college, entered Jefferson, and there graduated in '34; in partnership with his brother, Rev. Hugh Hamill, D.D., he has for nearly a half century been the successful Principal of the Lawrenceville Classical and Commercial High School, from which, in recent years, about fifty have entered Lafayette; he is President of the New Jersey Historical Society.

---

for several years; was one of the founders of the Greenhill Presbyterian church; and since '62 has been the active and earnest General Superintendent of the work of the Philadelphia Tract and Mission Society, at 1224 Chestnut Street.

Rev. Josiah P. Tustin, D.D., was a native of Pennsylvania; left the tuition of Dr. Junkin in March, '32, graduated at Brown University; entered the Baptist ministry; was pastor of prominent churches in Providence and elsewhere; about fifteen years since changed his ecclesiastical connection to the Protestant Episcopal church, was located in Savannah, and now resides in Dresden, Germany.

Charles Washington Harvey, A.M., M.D., *Buffalo, N.Y.*—Dentist; born at Albany, N. Y., March 17, 1810; in college a year; then two years at Union College, where he was one of the seven founders of the Psi Upsilon; graduated at Buffalo Medical College, '36, and at Baltimore Dental College; received A.M. from Lafayette, '66; President of the Buffalo Medical Association; member of Erie County Medical Society, New York State Dental Society, and American Medical Association.

*Owen W. Hess.—Lawyer; son of George Hess, a Trustee; born July 22, 1819; in college three years; admitted to the bar in Easton, Nov. 16, '41; died in Easton, July 14, '47, leaving a wife and two children.

*Ambrose Horton.—From Putnam county, N. Y.; died at college, October 27, 1832, aged 25; a monument was erected to his memory by the Franklin Literary Society, in the cemetery of the First Presbyterian church, Easton.

*Rev. William D. Howard, D.D.—Born in Philadelphia, July 28, 1814; in college, '32–3; studied theology with the Rev. Dr. Wm. Neil, of Philadelphia; ordained and installed pastor of Frankford Presbyterian church, in Philadelphia, March, '38, and remained ten years; pastor of Second Presbyterian church, Pittsburg, where he died suddenly, Sept. 22, '76, aged 62; he was a member of the General Assembly's Committee on Foreign Missions, and Director of the Western Theological Seminary.

*Rev. Levi Janvier, D.D.—Born at Pittsgrove, N. J., April 25, 1816; in college two years; then entered Junior at Princeton, and there graduated in '35, with Latin Salutatory; studied theology two years at Princeton; Foreign missionary at Lodiana, India, from '41 until his death, March 24, '64; author of a dictionary of the Punjabi language, 438 pp., quarto, 1856; also, of a grammar of the same; he was slain by a fanatic Akali Sikh, who was executed for the crime. [Johnson's Cyclopedia.]

*Philip Henry Janvier.—Brother of the preceding; born at Pittsgrove, N. J., 1812, and there died March 24, '33.

John Miller Junkin, A.M., M.D., *Easton.*—Eldest son of President Junkin; born in Milton, July 21, 1821; commenced

his education in the Preparatory Department at its opening, in '32, and in the middle of his Senior year went with his father to Miami University, and there graduated in the ensuing autumn, '41, afterward receiving the degree of A.M., *ad eundem* from Lafayette in '45; graduated at the Jefferson Medical College in '45; practiced in Schuylkill county, Trenton, N. J., and at Holmesburg, '45–59, and in Easton since '68; in the war he served three years as Surgeon of the 9th and 4th Regiments of Pa. Volunteer Cavalry; member of the County and State Medical Societies of Pennsylvania and of the Easton School Board.

*Rev. James R. Lewis.—Born in Middlesex county, N. J., about 1810; in college several years; entered Princeton Theological Seminary in '38, and in '39 died, before completing the first year's study. "Of high scholarship; a candidate for the ministry under the care of the Presbytery of Newton."

Thomas R. F. A. Mitchell.—Son of A. W. Mitchell, M.D., the business agent of the Presbyterian Board of Publication; from Alabama; born in 1815; in college two years; located in Philadelphia in mercantile business.

Thomas Henry Morgan.—From Connecticut; born in 1810; in college a year.

*Robert N. Nisbet.—From New York City; born in 1810; in college two years; married and settled in St. Louis, Mo., and there died on November 6, '78.

*Rev. Robert Osborn.—Born at Cedarville, N. J., August 27, 1813; at Germantown Manual Labor Academy and Lafayette, '31–3; graduated at Jefferson College, '34; taught in '35; graduated at Princeton Theological Seminary, '39; preached eighteen years at Point Pleasant, W. Va., and resigned in '57 because of ill health; returned to Cedarville, and there died, July 13, '78, aged 64. "A truly lovely character; an excellent scholar, and graceful writer."

Rev. Joshua Phelps, D.D., *Santa Barbara, Cal.*—Born 1812; entered college from Albany, N. Y.; graduated at Union College, '36; received D.D. at Centre College, '56; preached at Monticello, Fla.; Quincy, Ill.; First Church, Dubuque, Iowa;

President Alexander College; preached at Beloit, Wis.; Sacramento, Cal.; now at Santa Barbara.

Salmon A. Phelps, A.M., *Greenville, Ills.*—Lawyer; brother of the preceding; from Albany, N. Y.; born in 1810; graduated at Union College, '38.

*Charles Ramsey.—Lawyer; born in East Waterford, Juniata county, Pa., Feb. 11, 1810; graduated at Jefferson College, '35; taught in Mississippi and Bedford, Pa., until '38; taught, and studied law in Miss. until Jan., '41; practiced law in New Orleans, and there died, Sept., '41.

Bennington F. Randolph, A.M., *Jersey City, N. J.*—Lawyer and Judge; born 1816; admitted to the bar of New Jersey, Feb., '39; Counsellor, Feb., '42; Director of Princeton Theological Seminary.

*John Brown Sherrerd, A.M., M.D.—Born in Warren county, N. J., Nov. 19, 1820; in college from '32 to '33; entered College of New Jersey as Junior, and graduated in '39; graduated at Medical Department of University of Pennsylvania, '45; practiced at Belvidere until '46; then in the Iron business in Virginia until '50; then practiced medicine at Scranton until his death there, May 3, '52.

Samuel Sherrerd, A.M., *Belvidere, N. J.*—Born in Philadelphia, April 25, 1819; in college from Summer, '32, to Fall, '33; graduated at College of New Jersey, '38; was civil engineer on the Lehigh two years; then studied law, and was admitted to the bar at Easton, April 25, '42; engaged in Bath Iron Works, Virginia, '45–50; in railroad and mining operations at Scranton, '50–2; superintended the construction of the first coal-breaker at Scranton, and also the first shipment of coal from that place; in legal practice, '57–63; Dickson Manufacturing Company, '64–7; horticulture at Oxford, N. J., '68–73; in legal pursuits since; President Judge of the Court of Common Pleas for Warren county, '74–7. [For full sketch, see Biographical Annals of N.J.]

J, March 4, 1817; a student one term; graduated at Jefferson Medical College, '44; practiced five years at Rosemont, N. J.; then engaged in manufacturing lumber in Fairfax county, Va., where he was Justice of the Peace, and afterward Judge of the County Courts; since '72, farming in York county.

*Rev. John Barnes.—A minister in the M.E. church, and died early in Bradford county.

*Edward A. Barnet.—From Easton; Lieutenant Commander in the U. S. Navy; died in Philadelphia in '64.

*Lewis Coryell Biles.—Son of William Biles, lumber merchant, of Lambertville, N. J.; he studied law in Indianapolis, and took high rank in the profession; died at the early age of 30.

*Jacob Bloom.—The oldest matriculant of Lafayette; born July 20, 1791, in Hunterdon county, N. J., where he spent his entire life; he taught in the common schools for many years, and was familiarly known as Teacher Bloom. When more than forty

years of age he spent a short time in the Academical Department, to perfect himself in literary studies and in surveying. In later life he was a surveyor and conveyancer. Ceasing to teach, he engaged in farming, at Little York, for many years before his death, which occurred June 2, 1861. He was highly respected and esteemed.

*Robert W. Cliffe.—From Baltimore, and died there in '56.

James H. Cook, *Philadelphia.*—In express and forwarding business; resides in Mount Vernon Street.

*John Wilson Cowell, A.M.—Born at Point Pleasant, Bucks county; in hotel business all his life; lived at Doylestown, and on the Schuylkill, in Montgomery county; held the offices of Collector of Internal Revenue for the IVth District of Pennsylvania, '6–; and of Liquor Inspector, at Philadelphia; died at Mont Clare, Montgomery county, June 26, '78, aged 61 years; interred in Doylestown Cemetery.

*Charles B. Daniel.—From Bath; merchant and slate dealer at Bethlehem; died Nov. 24, '77.

*Bronaugh McClair Deringer.—Born in Philadelphia in 1819; son of Henry Deringer, inventor and manufacturer of the pistol named from him; a student, '34–5; coal merchant in Washington, D. C., '40–7; in '48 he bought a large farm near New Castle, Del., on which he lived until his death, of typhoid fever, in August, 68.

Calhoun Mason Deringer, *Philadelphia.*—Born in Philadelphia, Nov. 8, 1824; coal dealer in Washington, D. C. in '44–7; the rest of his life a resident of Philadelphia; Grand Marshal of the Masonic body at the laying of the corner-stone of the Smithsonian Institution, May 1, '47; in '51 and again in '61, Secretary of the Board of Guardians of the Poor, Philadelphia; in '55 Secretary of the Board of Port Wardens; Aide to Govs. Bigler and Pollock; was elected Lt. Colonel 1st Regiment, 2d Brigade, Pa. Vol., but was not in service; in '67, Internal Revenue Assessor of the 2d District of Pennsylvania.

*Lewis M. Dusenbery.—From Easton; in mercantile life; in 1863 was a resident of Mobile, Ala., and died in 1870.

*Col. Samuel Fowler.—Lawyer and mineraligist; eldest son of the scientist, Dr. Samuel Fowler, of Franklin, Sussex county, N. J.; born at Ogdensburg, in the same county, March 25, 1818; after leaving Lafayette, he studied law under Gov. Haines, and was admitted to the bar in Feb., '42; removed to Port Jervis, N. Y., where he resided from '47 to '55; by his means and influence this village was rapidly developed into a thriving town; he was Chairman of the N. Y. Democratic State Committee, and was nominated to Congress from the Orange and Sullivan District, but defeated by a small majority; after '55 he devoted himself to the development of the mineral resources of Sussex county; sent to the World's Fair at London the zinc boulder of **5,000** pounds; invented zinc paint, "the first idea of the manufacture of which he derived from observing incrustations on the inside of the chimney of his iron furnace, which he scraped off with his jack-knife, the first zinc-white of the kind ever known." Colonel of the 15th N. J. Regiment from July, '62. to March, 63; member of the New Jersey Assembly, in attendance on which while unwell—because of a tie—his disease increased, and he died of pleuro-pheumonia, Jan. 14, '67, aged 46.

Augustus Green.—From Trenton, N. J.; a student from May, '34. to March, '35.

H. B., Isaac, and Pearson Harris.—Three brothers, from Salem county, N. J.; students in '34–5. Isaac practiced medicine as an Eclectic, at Salem and Trenton; Pearson engaged in mechanical business at Millville, N. J.; and all three are stated to have removed early to Pennsylvania or further West.

Josiah Nichol Jones, *Baltimore, Md.*—Born in Baltimore; from Asbury College, he entered Lafayette in May, '34, and left in Sept., '35; engaged in mercantile business and farming, in or near Baltimore, until '61; then became clerk to Lieut. Colonel A. P. Porter, of class of '53; and has of late been clerk in the office of the Assistant Treasurer of the United States; of his twelve children, eight sons are in prosperous business; resides at 50 Calhoun Street.

W. Jones.—From Philadelphia; a student one term.

WALTER K. McDOUGAL.—From New York city; a student for two years, and for twenty years afterward in mercantile business in New York; further history not known.

*JOHN W. RIGHTER, M.D.—From Beaver Meadow, Carbon county; died in Salem county (?), N. J., about '58.

*GEORGE WASHINGTON ROCKHILL.—Born in Philadelphia, March 12, 1820; he was reared at Pittstown, N. J.; married in '45 to Miss L. Fox, of Salem county, N. J.; farmed at Pittstown until '64; then removed to Clinton, N. J., where he died in Sept., '68.

JOHN SEMPLE, *Easton.*—Born in Greenwich township, N. J., Jan. 27, 1822; a student in 34–5; engaged in iron and oil business.

SAMUEL MOOR SHOEMAKER, A.M., *Baltimore, Md.*—Born at Bayou La Fourche, Louisiana, June 28, 1821; a student, '34–6; in mercantile business, and now Superintendent and Resident Manager of the Adams Express Company; originator of the American "Express" system; received A.M. from Lafayette in '65. [See Appleton's New American Cyclopedia; s.v."Express."]

*HORATIO M. SLACK.—Lawyer; from Bucks county; died in Chicago in '55.

DAVID MILLER STIGER, *New York City.*—Merchant; born in Hunterdon county, N. J., Jan. 1, 1815; a student two years; in mercantile business, except when Clerk of Warren county, '41–6; resided in Hackettstown five years; Belvidere five years; Morristown seven years; Secretary of State Sunday School Association for Hudson county, twelve years; address is 58 Barclay Street.

*JAMES H. TRENCHARD.–Surveyor; a lineal descendant of George Trenchard, surveyor and an early settler of Salem, N. J.; born at Fairton, Cumberland county, N. J., May 20, 1811; in mercantile and milling business at Centreville, N. J., '35–'63; elected to the N. J. legislature from Salem county in '48, on the Whig ticket; removed to Bridgeton in '63, and gave his whole attention to surveying; City Surveyor, Councilman, and President of the original Bridgeton Water Company; died Feb. 28, '75.

LESHER TREXLER, M.D.—A student one term; from Long Swamp, Berks county, where he subsequently resided, acquired property, owned an iron furnace, and was its manager until about 1872, when he sought a new home in the far west. He graduated at the Medical Department of the University of Pennsylvania in '40.

EBENEZER WESTCOTT, *Camden, N. J.*—Born at Newport, Cumberland county, N. J., Oct. 23, 1814; a student one year; in mercantile business at Fairton, N. J., '35-6; in '64 he retired from the business of mail contractor, in which he had engaged extensively for twenty-five years; six years later he built the Bridgeton and Port Norris Railroad, of which he is now President and Superintendent.

*GEORGE W. WOLF.—From Easton; graduated at Marshall College in 1840.

*FRANKLIN A. WORRELL.—Brother of the Revs. Worrell, who entered in '32; "a merchant in Carthage, Illinois; shot by Mormons, in '44, while quietly crossing the prairie, near Warsaw, Illinois;" aged 24.

Of the following, who entered in 1834, no information has been obtained:

Charles Clark, *New Germantown, N. J.*—In General Scientific course, part of Freshman year.

WILLIAM HIESTER CLYMER, *Temple, Berks Co.*—In General Scientific course, Freshman, and one term of Sophomore year.

JOHN H. COOPER, *Brockwayville, Jefferson Co.*—Born at Brockwayville, Oct. 10, 1852; the ministry in view.

HARRY PRATHER CRAIG, *Chambersburg.*—In General Scientific course; left in Sophomore year.

WILLIAM SIMON CRANZ, *Akron, Ohio.*—Born at Akron, Sept. 28, 1859; in Chemical course.

ARCHIBALD ALEXANDER DEWING, *Cold Spring, N. J.*—Born at Reedsville, Marshall county, Iowa, Sept. 1, 1856; the ministry in view.

HERVEY SIMPSON DICKEY, *Steeleville, Chester Co.*—Born in York county, Oct. 15, 1853; entered Freshman third term; the ministry in view.

THOMAS FREDERICK DIEFENDERFER, *Allentown.*—Born at Whitehall, Lehigh county, Oct. 15, 1854.

HERBERT ALLISON DOUD, *Scranton.*—Born at Scranton, Feb. 23, 1859; entered Sophomore; previously in the editorial office of the *Scranton Daily Republican.*

CLARENCE LINCOLN DRAKE, *Easton.*—Born in Easton, Nov. 9, 1859.

HENRY HILL ELDRIDGE, *Shiloh, Cumberland Co., N. J.*—Born at Cape May City, N. J., Dec. 2, 1852; in General Scientific course.

REV. JOSIAH LITCH ESTLIN, *Philadelphia.*—Born in Philadelphia, July, 1845; partial course in Classical Department, from Jan., '77, to June, '78; in early life a jeweler; entered the ministry in '74; in '75–6 was pastor of the Church of the Reconciliation, Philadelphia, Reformed Episcopal church; address is 608 Franklin Street.

JOHN WILSON FARQUHAR, *Easton.*—Born in York county, March 3, 1861; son of the Rev. John Farquhar, of the class of '41.

AUSTIN FARRELL, *Pleasant Mills, Atlantic Co., N. J.*—Son of John W. Farrell; born in Philadelphia, April 16, 1858; removed

at age of 12 to Pleasant Mills; candidate for degree of Analytical Chemist.

Levi James Fick, *Liberty, Tioga Co.*—Born at Liberty; entered third term Freshman year.

John Potts Fillebrown, *Washington, D. C.*—Born in Washington, Sept. 23, 1858; in Mining Engineering course.

Horace Edgar Fiske, *Trenton, N. J.*—In General Scientific course, first term Freshman year.

Lewis Wesley Flinn, *Newport, New Castle Co., Del.*—Born in Newport, Sept. 15, 1858; medical study in view.

Harry Rogers Forbes, *Buffalo, N. Y.*—Born in Litchfield, Conn., Aug. 17, 1859; in General Scientific course.

Muscoe Minor Gibson, *Norristown.*—Born at Blacksburg, Montgomery county, Va., Feb. 6, 1859; entered Sophomore.

Aaron Goldsmith, *Easton.*—Born in Easton, Jan. 27, 1861.

George Blackburn Goodhart, *Reading.*—Born in Cincinnati, Ohio, Aug. 22, 1859; entered Sophomore.

Frederick Henry Grant, *Newark, N. J.*—Born in Newark, Feb. 24, 1860; in General Scientific course, Freshman year; now in manufacturing establishment of Crane & Co.

Frederick Green, *Easton.*—Son of Hon. Henry Green, of class of '46; born in Easton, Oct. 5, 1859.

Herbert Miller Hagerman, *Mount Bethel, Northampton Co.*—Born at Mount Bethel.

Benjamin Taylor Hale, *Towanda.*—In college Sophomore year.

Benjamin Franklin Harris, *Phillipsburg, N. J.*—In college Freshman year; in railroad office.

William Smith Harris.—Entered college in third term of Freshman, and left during Junior year.

John Smith Hart, *Pennington, Mercer Co., N. J.*—Born at Pennington, July 9, 1858; in General Scientific course.

Andrew Thomas Hays, *Emmittsburg, Md.*—Born at Emmittsburg, Dec. 22, 1856.

Joseph Patrick Henry, *Mansfield, Ohio.*—Born at Mansfield, April 10, 1854; entered Freshman third term; study of law in view.

Robert Julius Hess, *Eldredsville, Sullivan Co.*—Left college early in the Junior year; study of medicine in view.

Frank Wallace Hohl, *Easton.*—Born in Easton, April 25, 1861.

George Howell, *Hyde Park, Luzerne Co.*—In General Scientific course, Freshman year.

George Graham Irwin, *Norristown.*—Born at Cherry Tree, Venango county, May 17, 1858; since '65, resided at Norristown; in General Scientific course two terms, until his father's decease.

Harry John, *Audenried, Carbon Co.*—In General Scientific course, Freshman year.

Asa Sharpe Keeler, *Keelersburg, Wyoming Co.*—Born at Keelersburg, May 7, 1858; law in view.

Edwin Kline, *Alexandria, Huntingdon Co.*—Born at Alexandria, August 17, 1860; in General Scientific course.

Clarence Verdi Lichty, *Lancaster.*—In college Freshman and Sophomore years; now in mercantile business.

Alexander McClure Lupfer. *Beavertown, Snyder Co.*,—Born at Blain, Perry county, Sept. 17, 1855; in Technical course.

James Henry McConkey, *Wrightsville, York, Co.*—At the end of Freshman year he entered the College of New Jersey.

Joseph Reesman Mann, *Mill Hall, Clinton Co.*—In General Scientific course; left college near the close of Sophomore year to engage in manufacturing.

John Markle, *Philadelphia.*—Born at Hazleton, Dec. 15, 1858; in Technical course; resides at 1936 Arch Street.

Norton John Martin, *Allentown.*—Born at Allentown, Jan. 29, 1859.

Alexander Hamilton Miller, *Allentown.*—In Freshman class first term.

Otho Nesbitt Miller, *Williamsport.*—Born at Williamsport, March 11, 1861; entered Sophomore class.

Jonathan Trowbridge Morrison, *New York.*—Born at Cairo, Greene county, N. Y., Feb. 26, 1856; entered Sophomore in Technical course.

William Vernon Olyphant, *New York City.*—Born in New York City, Oct. 5, 1858; in Technical course.

Rubens Peale Patterson, *Norristown.*—In special Chemical course, in Freshman and part of Sophomore year.

Harry Christopher Pickels, *Wilmington, Del.*—In General Scientific course; left at the end of Sophomore year.

Victor Emel Piollet, *Wysox, Bradford Co.*—By protracted ill health, he was compelled to relinquish study after the beginning of Sophomore year.

George Raesly, *Mount Bethel.*—In college first term of Freshman year.

John Grandin Reading, *Frenchtown, N. J.*—Born at Frenchtown, March 1, 1859.

Ambrose Davies Reese, *Parsons, Luzerne Co.*—Born in South Wales, Sept. 30, 1854; in Technical course.

Samuel Stewart Reid, *Parkesburg, Chester Co.*—Born near Parkesburg, Sept. 12, 1856.

Tadaypaly Veeraragava Roy, *Guntoor, India.*—A Brahmin convert, from the Teloogoo mission; a special student in Freshman year.

Rev. John Milton Scott, *New Alexandria, Westmoreland Co.*—In the ministry of the Baptist church.

Robert Walter Sharp, *Philadelphia.*—Born at Philipsburg, Centre county, Nov. 2, 1857; study of law in view.

Horatio Gates Shull, *Martin's Creek.*—Merchant; born at Martin's Creek, Nov. 9, 1858; in college Freshman year; afterwards at Gettysburg through Sophomore and part of Junior year.

ROBERT GREEN SMITH, *Hayesville, Chester Co.*—Born at Hayesville, March 9. 1859.

WILLIAM WILBERFORCE SMITH, *La Crosse, Wis.*—Born April 22, 1858; entered Sophomore; ministry in view.

GEORGE WELLINGTON SNOW, *Salt Lake City, Utah.*—Born at Salt Lake City, Aug. 30, 1856; in Civil Engineering course.

CHARLES HENRY SPEAKMAN, *Coatesville,*—In General Scientific course, Freshman and part of Sophomore year.

JOSEPH TETHERMAN STIER, *Easton.*—Born at Johnsonsville, Northampton county, March 28, 1858.

FRANK JACOB STOTZER, *Easton.*—Born in Easton, Oct. 1, 1858; entered Sophomore.

MONTROSE GRAHAM TULL, *West Philadelphia.*—Born at New Berne, N. C., Jan. 23, 1859; entered Sophomore; permanent address is 3938 Locust street.

DAVID DOUGLASS WAGENER, *Easton.*—Born in Easton, July 25, 1859; received the second Douglass Prize in '77.

FRANK BLACKISTON WATKINS, *Odessa, Del.*—In General Scientific course, Freshman year.

WILLIAM GUY WELLS, *Pottsville, Schuylkill Co.*—Born at Pottsville, March 7, 1859.

WILLIAM IVINS WHILLDIN, *Philadelphia.*—Born in Philadelphia, Sept. 2, 1860; in Technical course.

WILLIAM NELSON WILBUR, *Camden, N. J.*—Born at Pepperell, Middlesex county, Mass., March 25, 1860; in General Scientific course.

JOHN SCHALL WILHELM, *Cornwall, Lebanon Co.*—In General Scientific course, first term of Freshman year.

MATHEW COOPER WOODS, *Boalsburg, Centre Co.*—Born at Clearfield, May 31, 1857; received honorable mention in the Douglass course in '77; the ministry in view.

GEORGE LAWRENCE XANDER, *Easton.*—Born in Easton, Oct., 1858; study of law in view.

WILLIAM STEWART YOUNG, *Parkesburg, Chester Co.*—Born near Parkesburg, July 11, 1859; the ministry in view.

CLASS OF 1881.

ABSALOM PETER BACHMAN, *Easton.*—Born in Easton, March 31, 1861.

WILLIAM SMITH BARNES, *Waynesboro, Franklin Co.*—Born at Mercer, Aug. 29, 1859; entered Sophomore; the ministry in view.

CHARLES MILFORD BERGSTRESSER, *Berrysburg, Dauphin Co.*—Born at Berrysburg, June 25, 1858; Scientific course, with Latin.

JOHN FRANKLIN BIGGS, *Summit Bridge, New Castle Co., Del.*—Born at Summit Bridge, Oct. 1, 1858; in Scientific course, with Latin.

HENRY GOUGH BIRCHBY, 1831 *Fairmount Ave., Philadelphia.*—Born at Euxton, near Chorley, Lancashire, England, June 25, 1853; the ministry in view.

THOMAS BLATCHFORD BOUGHTON, *Troy, N. Y.*—Born at Troy, Sept. 4, 1859.

CHARLES EDWARD BULLOCK, *Canton, Bradford Co.*—In special Scientific course, from April, '78, to April, '79.

JAMES CAMPBELL, *Englishtown, Monmouth Co., N.J.*—Born at Ballenon, Armagh county, Ireland, Aug. 12, 1852; the ministry in view.

BENJAMIN PERCY CHAIN, *Norristown.*—Born at Norristown, Dec. 22, 1858; in General Scientific course.

FRANK HERRING CHALFANT, *Martin's Ferry, Belmont Co., Ohio.*—Born at Mechanicsburg, Pa., May 29, 1862; entered Sophomore.

WILLIAM PARKER CHALFANT, *Martin's Ferry, Belmont Co., Ohio.*—Brother of the preceding; born at Saltsburg, Pa., Sept. 3, 1860; entered Sophomore.

EDWIN CHAMBERLAIN, *Dunmore, Lackawanna Co.*—In Technical course from '76 to '78, with classes of '80 and '81.

THOMAS CULBERTSON CLARK, *Martin's Ferry, Belmont Co., Ohio.*—Born at Martin's Ferry, Jan. 5, 1858; entered Sophomore class, having previously pursued the Freshman year with the class of '78; the ministry in view.

ROBERT MERRITT COLLINS, *St. Clairsville, Ohio.*—Entered Sophomore class.

JULIUS TOZER CORBIN, *Athens, Bradford Co.*—Born at Athens, March 15, 1860.

WILLIAM DICKEY CROSBY, *Oxford, Chester Co.*—Born at Oxford; in Scientific course with Latin.

FRANCIS MILLER DARE, *Andover, Sussex Co., N. J.*—In Technical course.

CHARLES WILLIAM DAVENPORT, *Erie.*—Born at Erie, June 26, 1860; entered Sept., '77 in special course in Technical Department.

JOHN RUMSEY DAVIES, *Scranton.*—Born at Abergavenny, Monmouthshire, England, Aug. 9, 1855; the ministry in view.

LESTER COOLIDGE DICKINSON, *Warrensburg, Warren Co., N. Y.*—Born at Warrensburg, Aug. 25, 1861; in Scientific course with Latin.

JOHN SELIM ELLSWORTH, *Rome, Bradford Co.*—For some years a teacher; in Special course from Jan., '78; the ministry in view.

WILLIAM HERBERT EMANUEL, *Catasauqua, Lehigh Co.*—In Chemical course.

CHARLES CONNER EVANS, *Berwick, Columbia Co.*—Born at Berwick, Jan. 9, 1858; in General Scientific course.

JOSEPH HORN EVANS, *Easton.*—Born at Richmond, Northampton county, April 9, 1860.

HARRY CRAWFORD FRANKENFIELD, *Easton.*—Born in Easton, Nov. 24, 1862.

LEONEL GEISENBERGER, *Lancaster.*—In General Scientific course, first two terms of Freshman year.

CLARENCE ELMER GRIFFIN, *Easton.*—Born at Mauch Chunk, Oct. 6, 1859.

JOHN HENRY GROSSMAN, *Salem, Salem Co., N. J.*—Born at Salem, Jan. 17, 1854; in Scientific course, with Latin.

Andrew Neely Hagerty, *West Alexander*, *Washington Co.*—Born at Mt. Hope, Washington county, March 27, 1852; for several years a teacher.

Joseph Garrison Halsey, *Swedesboro*, *Gloucester Co.*, *N. J.*—In General Scientific course; left college in October, 1878.

John Milton Ham, *Washington Hollow*, *Dutchess Co.*, *N. Y.*—In Technical course; left college in March, 1879.

Charles Walter Hankinson, *Meshoppen*, *Wyoming Co.*—In Technical course, Freshman year.

Joseph Harvey Harrison, *Pittsburg.*—In Special course, from January, 1879.

Ward Beecher Harrison, *Birdsboro*, *Berks Co.*—In General Scientific course, Freshman year.

John Miller Hayes, *Montoursville*, *Lycoming Co.*—In General Scientific course, from Sept., 1877, to Dec., '78.

Edward McElwaine Haymaker, *Centerview*, *Johnston Co.*, *Mo.*—Born at Murraysville, Westmoreland county, Pa., Aug. 21, 1859.

Charles Herpich, *New York City.*—Born in New York City, Dec. 27; in college from Sept., 1877, to May, '78.

James Breading Hogg, *Connellsville*, *Fayette Co.*—Born at Mt. Pleasant, Westmoreland county, Dec. 15, 1857.

Robert Henry Hoover, *Waynesboro*, *Franklin Co.*—Born at Hempstead, Carroll county, Md., Sept. 23, 1853.

Henry Budd Howell, *Phillipsburg*, *N. J.*—Son of Henry Budd Howell, of the class of '64.

David William Humphrey.—Born at Lansford, Carbon county, July 27, 1856; by profession a druggist; in Chemical course from Sept., '77, to March, '79.

Samuel Gulick Hutchison, *Bangor*, *Northampton Co.*—Born at Richmond, Northampton county, Dec. 15, 1854; the ministry in view.

Dudley Marvin Irwin, *Oswego, N. Y.*—In Scientific course, with Latin, through Freshman year.

George Massey Jones, *Dover, Del.*—Born at Dover, Del., Jan. 3, 1861.

Edward Luther Kenney, *Griggsville, Pike Co., Ill.*—Born at Griggsville, October, 1860.

Pearce Kintzing, *Lock Haven.*—Born at Liberty, Jan. 31, 1861; in General Scientific course.

William Koch, *Phillipsburg, N. J.*—Born at Phillipsburg, Dec. 24, 1860.

Clarence Reid Laird, *Wheeling, West Virginia.*—In college first term of Sophomore year.

Levi Finley Laverty, *Finleyville, Washington Co.*—Born May 5, 1857; entered second term of Freshman year.

Robert Benjamin Lehman, *New Berne, Craven Co., N. C.*—Born at Edenton, N. C., Feb. 12, 1860.

Edward Lewers, *Easton.*—In General Scientific course, Freshman year.

William Joseph McCarter, *Erie.*—In General Scientific course through Freshman year.

Albert Clark McCauley, *Altoona, Blair Co.*

Robert Watson McClelland, *Pittsburg.*—Born at Pittsburg, June 22, 1859; in Scientific course, with Latin.

David McClure, Jr., *Oakland, Alameda Co., Cal.*—Born at Martinez, Contra Costa county, Cal., Aug. 17, 1856; entered Freshman second term, in Technical course.

John Edmund McConaughy, *Mt. Pleasant, Westmoreland Co.*—In General Scientific course through Freshman year.

Albert Wylie McConnell, *Pittsburg.*—In special course in Scientific Department, Sophomore year.

George King McCormick, *Shippensburg, Cumberland Co.*—Born at Shippensburg, Oct. 8, 1858; entered Sophomore; in Civil Engineering course.

Samuel Edward Magill, *Erie.*—Born Feb. 18, 1861; entered Sophomore class in special course.

William Jones Magill, *Erie.*—Born Feb. 26, 1859; left college in Sophomore year; is now in his father's dental office.

Francis Andrew March, Jr., *Easton.*—Eldest son of Professor March; born in Easton, March 2, 1863.

Andrew Ferguson Martin, *Jersey Shore, Lycoming Co.*—At the end of Freshman year he became a student in Washington and Jefferson College.

Wesley Martin, *Bloomsbury, N. J.*—In Special course Freshman year; candidate for the ministry in the Methodist Episcopal Church.

Oliver V. Mercer, *Saltsburg, Indiana Co.*—In General Scientific course one term.

James Henry Maxwell, *Pottstown, Montgomery Co.*—Born at Limerick Square, April 10, 1859.

Richard McCarty Michler, *Toledo, Ohio.*—Son of Gen. Nathaniel Michler, whose sketch is found on page 172; in Special course in Scientific Department.

John Stone Morrison, *Philadelphia.*—Born at Saulsburg, Orange county, N. Y., Sept. 4, 1859.

John Jack Neel, *Mt. Pleasant, Westmoreland Co.*—Born at Mt. Pleasant, Jan. 5, 1857.

George Everett Osterhout, *Tunkhannock.*—Born at La Grange, Wyoming county, March 31, 1858.

William Emmet Osterhout, *Tunkhannock.*—Born at La Grange, Wyoming county, March 31, 1858.

Frank Edwin Pellet, *Papakating, Sussex Co., N. J.*—Born at Papakating, Sept. 26, 1859.

Edward Leicester Plunkett, *Pittsfield, Berkshire Co., Mass.*—In General Scientific course until his health failed; left in December, 1877.

*Joseph Franklin Stem Porter.—Born at Phœnixville, 1860; died at his home in Philadelphia, in first term of Freshman year. "His heart was early set on the holy ministry; with this in view, he studied and prayed, and lived, and died."

George Reginald Radford, *Washington, D. C.*—In General Scientific course, from April, 1878, to April '79.

John Howard Reeves, *Philadelphia.*—Born in Philadelphia, March 1, 1857; in Special course.

Nathan Grube Reiff, *Pottstown.*—Born at East Coventry, Chester county, June 11, 1859.

Robert Reading Remington, *Williamsport.*—Born at Williamsport, Aug. 7, 1859; entered Freshman second term; in General Scientific course.

Elijah John Richard, *Easton.*—Born at Easton, January 16, 1860.

Irenus Richards, *Dover, N. J.*—Entered college from Easton, remaining until third term of Freshman year; since April, 1879, a clerk in Dover.

Daniel Rice Rosston, *Philadelphia.*—In college one term of Freshman year, when his health failed.

William N. Ruby, *North Liberty, Knox Co., Ohio.*—Born at Coshocton, Ohio, Nov. 30, 1852; entered third term Freshman year.

Andrew Eliason Sanborn, *Mt. Pleasant, New Castle Co., Del.*—Born at Leipsic, Kent county, Del., March 11, 1858.

William Schneider, *Summit Hill, Carbon Co.*—In General Scientific course.

Edwin Livingston Scott, *Washington, D. C.*—Brother of Rev. Walter Q. Scott, of class of '69; born at Fairfield, Iowa, Dec. 24, 1856; entered Sophomore class.

Frank Adois Sedgwick, *Waterford, Erie Co.*—In college Freshman year.

William Oliver Semple, *Easton.*—Born in Easton, Jan. 17, 1861; in Scientific course, witn Latin.

Alfred Jones Shattuck, *Blossburg, Tioga Co.*—Born at Corning, Steuben county, N. Y., Oct. 2, 1859; Scientific course.

Samuel Eakin Shull, *Martin's Creek, Northampton Co.*—In college Freshman year.

Edward Rheem Sponsler, *New Bloomfield, Perry Co.*—In college first two terms of Sophomore year.

Charles Bunstein Stover, *Easton.*—Born at Riegelsville, Bucks county, July 14, 1861.

Charles Richard Truitt, *Hillsborough, Montgomery Co., Illinois.*—Born in Montgomery county in 1858; entered college in '78, in Special course.

Charles Franklin Walter, *Easton.*—Born in Easton, May 2, 1860; in Special course.

Edward Overton Ward.—In General Scientific course part of Freshman year.

Charles Nichols Williams, *Wellsboro, Tioga Co.*—Born at Wellsboro, Sept. 23, 1857; in General Scientific course.

Edward Williamson, *Bedford, Westchester Co., N. Y.*—Born at Bedford, N. Y., Dec. 21, 1853; entered Freshman class third term, but was obliged to leave on account of failing eyesight; at present teaching in Bedford.

Charles Lissle Wilson, *Carthage Jasper Co., Missouri.*—Born Jan. 23, 1856; entered Sophomore.

James Wilson, *Greenville, Del.*—In Technical and Scientific courses; entered college in '76.

CLASS OF 1882.

George Auchy, *Pottstown, Montgomery Co.*—In General Scientific course.

Albert Hosmer Baker, *Jackson Summit, Tioga Co.*—Born at Maple Ridge, Sept. 19, 1857; in special studies; the study of medicine in view.

JOHN TOWNSEND BAKER, *Easton.*—Brother of Prof. A. L. Baker.

BENJAMIN STANLEY BANKS, *Norristown.*—Born at Norristown, July 20, 1861.

NATHAN WALLACE BEDDALL, *Port Carbon.*—Born at New Philadelphia, Schuylkill county; in General Scientific course.

MILTON JACOB BLIEM, *Slatington, Lehigh Co.*—Born at Howertown, Northampton county; in Scientific course, with Latin.

CHARLES STRATTON BOULTON, *Oil City.*

ROBERT HENRY AGNEW BOYD, *Belvidere, N. J.*—Born at South Easton, July 20, 1861.

JOHN DAWSON BOYLE, JR., *Uniontown, Fayette Co.*—In Scientific course, with Latin.

JACOB PETER BREIDINGER, *Stockertown.*—Born at Stockertown, Nov. 13, 1861.

JOHN WRIGHT CAMPBELL, *Altoona.*—Born at Altoona, July 22, 1860; entered second term.

PERCIVAL CARSKADDON, *Lock Haven.*—In General Scientific course.

WILLIAM EDWARD COLEMAN, *Schooley's Mountain, N. J.*—In General Scientific course.

DON CARLOS CORBETT, *Clarion.*—In Scientific course, with Latin.

HARRIES LOTHANE DADDOW, *St. Clair, Schuylkill Co.*—In General Scientific course.

LEWIS REDNER DALRYMPLE, *Lock Haven.*—Born at Honesdale, Aug. 23, 1861.

EDWARD DAVIS, *Milton.*—Born at Milton; in Technical course.

JAMES FREAR DAY, *Tunkhannock, Wyoming Co.*—Born at Tunkhannock, Aug. 17, 1859.

James Clifton Edgar, *New York City.*—Born in New York City, June 14, 1859; in Scientific course, with Latin.

Frederick Vanduzer Frisbie, *Orwell, Bradford Co.*—Born at Orwell, July 13, 1856.

John M. Gallaher, *Greensburg, Westmoreland Co.*—Born at Livermore, July 10, 1860; entered second term.

Harry Scott Gay, *Shenandoah, Schuylkill Co.*—In Technical course.

Robert Wallace Givin, *Manayunk, Philadelphia.*—Born in Philadelphia, Nov. 3, 1860; the study of law in view.

Samuel Pellman Glover, *Hartleton, Union Co.*—In Scientific course, with Latin.

Colbert Huntington Greer, *Painesville, Ohio.*—In Technical course; entered in the second term.

William Edward Hall, *Geneva, N. Y.*—In General Scientific course.

Wallace Scott Harlan, *Coatesville, Chester Co.*—Born at Coatesville, March 28, 1862.

Edward Samuel Herbert, *St. Clair, Schuylkill Co.*—Born at St. Clair, Nov. 19, 1859.

Jacob Augustus Hiller, *Beech Pond, Wayne Co.*—Born at Beech Pond; in Scientific course, with Latin.

Edward Washington Hummel, *Harrisburg.*—Born in Harrisburg.

Valentine Hummel, *Harrisburg.*—Born in Harrisburg, May 4, 1859; in General Scientific course.

Mark Loudon Hyndman, *Mauch Chunk.*—Born at Mauch Chunk, April 18, 1855; in college first term; now in the telegraph service of the Central Railroad of New Jersey.

George Leonard Jolly, *Orangeville, Columbia Co.*

Oliver Sabold Keely, *Roxboro.*—In Technical course.

QUINCY EMORY COOKMAN KENDALL, *Lenox, Mass.*—Born at Lenox, Feb. 13, 1862.

ALEXANDER CARSON LABARRE, *Slateford, Northampton Co.*—Born at Slateford; was Principal of Bethlehem Public Schools, '74–8; in special studies.

MARCUS BACHMAN LAMBERT, *Stout's, Northampton Co.*—Born at Stout's, Jan. 11, 1862.

WALTER SCOTT LAWALL, *Easton.*—Born in Easton, Oct. 1, 1861.

CHARLES HENRY LERCH, *Easton.*—Born near Easton, May 21, 1861.

CHARLES LOSE, *Montoursville, Lycoming Co.*—In General Scientific course; before entering college a teacher.

CHARLES EDWIN LUDINGTON, *Albany, N. Y.*—Born in Fair Haven, Conn., Sept. 19, 1858.

EDWARD DICKINSON MCCULLOCH, *Peoria, Ill.*—Born at Peoria, Nov. 5, 1860.

SAMUEL JOHNSON MCCULLOCH, *Erwin Centre, Steuben Co., N. Y.*—Born at Tioga, Pa., April 24, 1856; in General Scientific course.

THOMAS SCOTT MCKEE, *Saltsburg.*—Born at Saltsburg, Oct. 18, 1859.

ALVAN MARKLE, *Philadelphia*;—Born at Hazleton, Aug. 29, 1860; in General Scientific course.

HENRY MARTIN MARPLE, *Macon City, Mo.*—Born in Ohio, Nov. 14, 1854; the ministry in view.

HENRY D. MAXWELL, *Easton.*—Born in Easton, Aug. 3, 1862.

CHARLES STUART MELVIN, *East Oakland, Cal.*—Born at Steubenville, Ohio, Aug. 20, 1857; in General Scientific course.

NICHOLAS HUNTER MUHLENBERG, *Reading.*—In General Scientific course, special studies.

FRANK REBER MUSSER, *Muncy.*—Born at Muncy, June 15, 1860; in General Scientific course.

William Baxter Myers, *Bethlehem.*—Born at Audenried, Carbon county, Nov. 6, 1858; in General Scientific course.

Rev. George Washington North, *Uhlersville, Northampton Co.*—In the ministry of the Methodist Episcopal church.

John Wesley Nute, *Easton.*—Born at Burlington, Maine, Dec. 6, 1860; in Technical course.

John Campbell Patton, *Indiana, Indiana Co.*—In General Scientific course, with Latin.

Daniel Reed, Jr., *Easton.*—Born in Easton, Sept. 12, 1860.

Joseph Taft Rice, *Albany, N. Y.*—Born at Vernon, Oneida county, N. Y., March 14, 1859.

James Wilson Roberts, *Harrisburg.*—In General Scientific course.

David Ogden Rogers, *Norristown.*—Born at Norristown, June 4, 1860; in General Scientific course.

George Katzenbach Ronan, *Trenton, N. J.*—Born in Trenton; in Technical course.

John Nelson Root, *Lenox, Berkshire Co., Mass.*

Thomas Jefferson Rupp, *Allentown.*

Henry Augustus Sage, Jr., *Easton.*—Born in Easton.

George Flemming Sandt, *Easton.*—Born in Easton, April 26, 1860.

Louis Gustav Schultz, *Phillipsburg, N. J.*—Born in Phillipsburg, Sept. 2, 1862; in Scientific course, with Latin.

William Adam Seibert, *Easton.*—Born in Lehigh county, Feb. 10, 1859; before entering college he was an accountant in Philadelphia, and a teacher in Easton.

Orrin Serfass, *Easton.*—Born in Easton, Sept. 9, 1862.

John Pfouts Stevens, *Jersey Shore, Lycoming Co.*—Born at Jersey Shore, March 17, 1862; son of the Rev. Prof. Joseph Stevens, of the class of '42.

CHARLES HENRY SWAN, *Trenton, N. J.*—Born in Trenton, Aug. 26, 1860; in Technical course.

CHARLES HERBERT TALMAGE, *St. Louis, Mo.*—Born in St. Louis, Dec. 5, 1862.

GABRIEL DAVID THOMAS, *Altoona.*—Born at Altoona, March 6, 1858; in General Scientific course.

JOSEPH TIMMINS, *Easton.*—Born in Easton.

JOSEPH ALEXANDER TOWNSEND, *Bower Hill, Washington Co.*—In Special studies.

WINTHROP FULLER VICTOR, *Hohokus, N. J.*—Born in Jersey City, N. J., Oct. 25, 1861; in General Scientific course, with Latin.

FRANCIS EDWARD WALKE, *Brooklyn, N. Y.*—In General Scientific course.

ROBLEY DUNGLISON WALTER, *Butztown.*—Born in Bethlehem township, June 15, 1859.

JUDSON PERRY WELSH, *Orangeville, Columbia Co.*—Born near Orangeville.

EDWARD DITMAN WETMORE, *Warren.*—In General Scientific course.

JAMES FRANK WILSON, *Washington, D. C.*

WILLIAM HENRY WOODRING, *Easton.*—Born in Upper Nazareth township, Northampton county, Dec. 7, 1854; in General Scientific course; the study of law in view.

STATISTICS.

In the following table, containing the occupations of the Alumni, students of theology are classed among ministers, and in like manner, students of law and medicine are placed with the lawyers and physicians; druggists are classed with physicians. The sixth column embraces both Civil and Mining Engineers; the seventh column contains merchants and manufacturers; the eighth column contains officers of Banks and Railroads; in the tenth column are placed Army officers and others whose pursuits do not fall in the foregoing enumeration.

NOTE ON THE FOREGOING TABLE.—The attention of the reader is called to the statement in the preface of this volume as to the difficulty of obtaining a complete roll of those who have matriculated at Lafayette. In the paragraph below it is stated that 615 had been matriculated up to the date there named; the preceding pages give but 610, showing that the compiler has missed but five —at least up to the year 1845—in his endeavor to prepare a perfect roll. In the Tenth Baccalaureate Address, entitled A Plea for Northeastern Pennsylvania, delivered in September, 1845, President Junkin said:

"Including those who receive their diplomas to-day, sixty-eight young men have completed their course with us and been graduated. But then it is also true that six hundred and fifteen students have been received within our walls; and have been instructed, more or less extensively, in the English, Latin, Greek, French, German, Italian, and Spanish languages; in Mathematics, Chemistry, and Natural Philosophy; in Mental and Moral Science, Logic and Political Economy; in short, in all studies that ordinarily enter into the course of an American College. The intellects of hundreds have been waked up to a consciousness of their own energies, whose names do not appear in our Triennial. Of these six hundred and fifteen, fifty-seven are known to have graduated at other colleges; and, I have not a doubt, many whom we know not have done the same. It is therefore exceedingly probable that the number of students who have participated largely in our institutions, but have received literary honors elsewhere, is much larger than that of our own Alumni.

"That things should take this course is extremely natural. The contrary would have been unnatural, and was therefore not at all expected. A young college, of slender resources, struggling into existence in the face of poverty and the competition of well-established institutions, whose fame fills the land, and the seal of whose approbation is a passport to the reputation of scholarship, even when there may purchance be little beyond, must lay out her accounts to plow and sow, and then step aside till others reap. Our probation in this line, is, however, we believe, nearly closed. But again, of the five hundred and forty-seven, whom we have had under our care, and who have not graduated with us, thirty-two are known to have entered the ministerial profession, twenty-five the medical, and twenty-three the legal, making an average of eighty; and undoubtedly many others of whom we are not informed have done the same. It is highly probable the whole number exceeds one hundred. Add to this our graduates, viz: nineteen ministers, thirteen lawyers, and two doctors, and you have a general aggregate of a hundred and thirty-four of our pupils, laboring in the learned professions. Moreover, of the remaining four hundred and eighty-one, very many are engaged in business, profitable to themselves and to the country—agricultural, mechanical, mercantile; besides a large number are yet prosecuting studies.

"It is proper, further to remark, that the sojourn of hundreds who have left us, has been of all varieties as to duration, from a single session, to two, three or

four years; as to degrees of advancement, some having given attention to English studies, most to classical and scientific; from the academical department to the close of the Junior year. This may perhaps suggest the objection, 'Have you not aided into professional life many defective scholars?' Be this as it may, we wash our hands of all the evils of this immaturity. It is no part of our plan to reduce the standard of education, and none more than we can deplore all short cuts into the learned professions. If all to whom we have taught *hic, haec, hoc,* had seen their way clear to comply with our wishes and abide a full course, we should never have given occasion to the reproach which these paragraphs are designed to wipe away."

PUBLIC POSITIONS.—Of the men of Lafayette, so far as known to the writer of these pages, 187 have held office, as enumerated below: Ten have been Members of Congress, viz: Messrs. Smithers, H. G. Fisher, J. M Harris, I. D. Clawson, B. F. Junkin, P. Johnson, Gen. Longnecker, Alexander Ramsey, the first Congressman from Minnesota, afterwards Governor and U. S. Senator; Samuel McLean, the first Delegate from Montana, and Gen. George P. Ihrie, the first Delegate from Alaska.

Two have been Governors, Ramsay and Gen. Hoyt, the present Governor of Pennsylvania.

Twenty-one have been Judges or Associate Judges, viz: Hons. Wm. A. Porter, of the Supreme Court of Pennsylvania, and of the Court of Alabama Claims, Meyers, Campbell, Randolph, Sherrerd, Tyler, Barcroft, Robeson, Ewing, Junkin, Van Reed, Walker, Finletter, Schall, Longnecker, Hoyt, Hunt, Skinner, Goepp, Galloway, Hamburger, Vastine, and Kirkpatrick.

Thirty-six have been Members of the Legislature, in eight States; Messrs. Cresswell and Francis being Speakers of the State Senate.

Twenty-six have held the office of Prosecuting Attorney; fourteen, Sheriff or Mayor; twenty-six, County or City Superintendent of Schools; and as Consuls, Electors of Presidents, members of Constitutional Conventions, and minor offices of government, eighty-five.

EDUCATIONAL.—Those who have been Presidents of Colleges are Rev. Drs. Heckman, Armstrong, Craig, Alexander, Phelps, Brakeley, and Dr. Chauvenet.

Professors in Theological Seminaries are Drs. Elliott, Green, Watts, Alexander, Craig and Wright.

Professors in Medical Colleges are Drs. Pratt, Parvin, Marvin, Vastine, and Ott.

Professors in Lafayette, seventeen; in other colleges, nineteen. Tutors in Lafayette, twenty-nine; in other colleges, four.

FOREIGN MISSIONARIES are twenty-two in number. For list, see page 62 of Prof. Owen's Historical Sketches. Those engaged in the Domestic Mission service number about one hundred.

The Alumni who have been members of the Faculty of Lafayette are the following:

M. N. Appleget.
N. Bannatyne.
C. E. Burns.
S. J. Coffin.
C. Corss.
W. W. Cottingham.
J. G. Diefenderfer.
J. T. Doran.
F. W. Edgar.
E. Ferrier.
S. R. Gayley.
W. H. Green.
J. B. Grier.
J. J. Hardy.
Joseph Junkin.
G. T. Keller.
D. B. King.
H. T. Lee.
I. Loewenthal.
C. McIntire.
John Meigs.
W. G. Meigs.
David Moore.
J. W. Moore.
J. E. Nassau.
Robert Newton.
W. F. P. Noble.
W. B. Owen.
T. C. Porter.
W. H. Schuyler.
W. Q. Scott.
J. R. Shimer.
J. Snyder.
Joseph Stevens.
W. S. Sweeny.
N. Taylor.
D. J. Waller, Jr.
B. C. Youngman.
R. B. Youngman.

Literary.—Among authors we find the names of Drs. Green, Elliott and E. D. Yeomans as contributors to the American edition of Lange's Commentary, besides works bearing their own names; other writers in the department of theology and religious literature are Rev. Drs. Ramsey, Lowrie, Porter, Janvier, and R. H. Nassau, and Messrs. Loewenthal, Noble, Mills, Menaul, E. M. Long, and Bransby. The Scriptures have been translated into other tongues by Messrs. Loewenthal, Mills, Janvier, and Menaul.

Writers in literature, science, and history are W. A. Porter, T. C. Porter, Smithers, R. J. Wright, Craft, Coffin, Boyd, J. B. Grier, Clyde, Bryan, Owen, Anderson, Williams, Craig, Chauenet, Harkness, McIlvaine, Rodenbough, Ott, E. A. Barber, Alden, Latta, Marvin.

Beside seventy-two bound volumes written by those just named, there have been produced a large number of monographs in pam-

phlet form, addresses, sermons, etc., of which the compiler of this volume has a partial collection, now numbering about one hundred and fifty.

Eight have received the degree of LL.D.,—each from a different college.

Thirty-one have received the degree of D.D.,—conferred by fourteen colleges.

MILITARY.—Twelve are reported as having served their country in the Mexican War: Lieut. James McKeen and Surgeon Robert Newton, who lost their lives therein; and Gen. A. Porter, Cols. Cummins, H. H. Green, and Longnecker, and Messrs. C. B. Mallery, E. G. Mallery, C. R. Webster, J. F. Bachman, J. W. Miner, and J. W. Boyd.

In the service of the Confederate States ten are reported as having been engaged, one of these being opposed by two of his brothers on the Union side.

In the service of the Union, in the late war, were 222. For an enumeration, see page 26 of Prof. Owen's Historical Sketches.

Those who fell in the service of the Union were:

Colonel R. A. Oakford.
Chaplain H. S. Howell.
Captain E. S. Carrell.
Captain S. M. Layton.
Captain R. M. McCormick.
Captain Isaiah Moore.
Assistant Surgeon J. R. Hilton.
Adjutant W. S. Briggs.
Lieutenant J. M. Annan.
Lieutenant E. A. Barnet.
Lieutenant Joseph Castles.
Sergeant-Major R. S. Parker.
Sergeant W. H. Alexander.
Sergeant Samuel H. Kendig.
Private John H. Buckley.
Private Daniel J. Carey.
Private Luther Davis.
Private Henry B. Howell.
Private Robert M. Mann.
Private Henry Stothoff.

DECEASED.

APPENDIX,

CONTAINING REVISIONS OF SKETCHES RECEIVED

AFTER THE PRINTING OF THE PRECEDING PAGES.

CLASS OF 1840. *REV. JOHN M. LOWRIE, D.D.—Add to page 17 the titles of his works, viz: "Adam and his Times," "Esther and her Times," "Hebrew Lawgiver," two volumes; "Life of David," "Prophet Elisha," "Translated Prophet," "Week with Jesus."

CLASS OF 1844. DAVID KEARNEY MCDONOGH, M.D., *New York City.*—Born in New Orleans, La., Aug. 10, 1825; in 1838 he entered the Preparatory Department; read medicine under Dr. Abernethy, in Easton, and graduated at the College of Physicians and Surgeons, in New York, in '47, where he has since been in continuous practice; he has held positions in the New York Hospital and the Eye and Ear Infirmary, and since '49 has been in continuous practice; office, at 213 Sullivan street; residence, 239 South Orange avenue, Newark, N. J.

CLASS OF 1855. WILLIAM MCCORMICK ALLISON, A.M., *Mifflintown, Juniata Co.*—Lawyer; born in Kilbarchan, Renfrewshire, Scotland; entered Sophomore in 1851, and being absent a year, '52–3, returned and entered Junior in '53, graduating with an Honorary Oration; studied law at Mifflintown, and was admitted to the bar Sept. 4, '60; founder and editor of *Altoona Tribune*, '56–8; junior editor of *Juniata Register* in '58; founded the *Juniata Republican* and edited it, '66–7, and '72–3; Quartermaster Sergeant in the 126th Pa. Infantry, '62–3; assistant Assessor of Internal Revenue, '66–9; founder and editor of *New Era*, at Hendersonville, N. C., from July 1, '77, to Jan. 1, '79.

REV. DAVID CALDWELL THOMPSON.—To the sketch on page 43 add: Born in Chester county, in 1834; installed as pastor of the First Presbyterian church of Southwark, Philadelphia, Feb. 13, '79.

Henry Swoope Wharton, *Huntingdon.*—Born at Huntingdon, May 2, 1833; entered Freshman, second term; commenced the study of medicine at the University of Pennsylvania, but on account of failing health, discontinued it; he was freight and passenger agent for the Pennsylvania Railroad, '57–'62, and since '62, in manufacturing business; member of the Pennsylvania Legislature, '67–8.

Class of 1856. Lemuel G. Grier, *Birmingham, Huntingdon Co.*—Born in Bucks county, July 11, 1831; since graduation he has been engaged in teaching—first, as Principal of the Kishacoquillas Seminary, in Juniata county, and for the past twenty years at the head of the Birmingham Seminary.

Rev. David Melville Heydrick, *Brooklyn, N.Y.*—Born at Flourtown, Montgomery county, Nov. 11, 1826; he learned the trade of a carpenter and builder, and was so engaged for six years before his college course; graduated at Princeton Theological Seminary in '59, and since Oct., '59, has been continuously engaged, with remarkable success, in city mission work in Brooklyn.

Charles Vastine, A.M., M.D., *St. Louis, Mo.*—Born at Williamsport, Lycoming county, Pa., June 28, 1836; graduated at Missouri Medical College, St. Louis, in '59; engaged in medical practice since '65; he was Professor of Physiology in Homœopathic Medical College of Missouri, '67–'74; resides at 1409 Olive street.

Joseph Paxton Vastine, A.M., *St. Louis, Mo.*—Lawyer; born at Williamsport, Pa., Dec. 21, 1837; he studied law in St. Louis, and was admitted to the bar, Dec., '59; was Assistant Circuit Attorney, Dec.,'61–5; Circuit Attorney, Dec.,'65–7; Public Administrator, Dec., '67–9; Judge of Probate, Dec., '69–'71; member of the Republican State Central Committee four years.

Class of 1859. Joseph Charles Ferriday, A.M., *Vidalia, Concordia Parish, La.*—Born in Natchez, Miss., April 5, 1840; entered Freshman, second term; he was engaged in the Transportation Department of the Pennsylvania Railroad until '66, when he took charge of his plantation in Louisiana.

Class of 1861. Rev. S. W. Pomeroy, *Mt. Union, Huntingdon Co.*—Entered Sophomore; in the war, served as First Sergeant in Company H, 126th Pa. Regiment; graduated at Princeton Theological Seminary in '66; licensed at Middletown, June 7, '65; preached in Seventh Street Church, Harrisburg, from September 20, '66, to April 12, '67; at McConnellsburg from May 24, to August 16, '68, when he was ordained and installed pastor, and continued there until April 12, '71, when he became pastor of Newton Hamilton and Mt. Union churches, '71–8, and since October 2, '78, of Mt. Union and Shirleysburg churches.

Class of 1866. C. M. Sitgreaves.—In March, 1879, became Principal of the Academy at Cutchogue, Long Island.

Class of 1867. Robert Henry Smith, A.M., *Baltimore, Md.*—Add to his sketch on page 73 the following: Lawyer; born in Lower Chanceford, York county, Pa.; taught until '68, when he commenced the study of law in Baltimore, in office of Sebastian Brown, Esq., and was admitted to the bar, June 28,'70, and he has since been associated with Mr. Brown in practice, making Admiralty law a specialty; Superintendent of the Second Presbyterian Sunday-school since '69; address is 53 St. Paul street.

Class of 1868. Rev. Richard Arthur, A.M., *Scotland, Franklin Co.*—Born at Chestnut Level, Lancaster county, March 21, 1845; graduated at Western Theological Seminary in '71; licensed and ordained by the Presbytery of Westminster, June 6, '71; foreign missionary to Bangkok, Siam, '71–3, returning because of the failure of his wife's health; from January to April, '74, he preached in the churches of Hopewell and Little Britain; in '74, taught in Stewartstown Academy; pastor of Warfordsburg and Buck Valley churches in Fulton county; then preached at Green Hill and Wells Valley, same county; now preaching at Fayetteville and Scotland.

Class of 1869. Frank Wells Stewart, A.M., *Easton.*—Born in Easton, in 1849; clerk in the office of the Central Railroad of New Jersey until April,'70, when he entered his father's wholesale notion and fancy goods store, and since January, '75, has been a partner in the business.

Class of 1871. Rev. William Wiely, Jr., *Downingtown, Chester Co.*—Born at Wallace, Chester county, August 27, 1846; for three years after graduation he was Principal of the Public School at Smith's Landing, N. J.; ordained February 29, '76; from November, '75, to May 1, '79, was pastor of the Baptist church at Rockville Centre, Long Island.

Class of 1872. Samuel Henry Houser, *Moosic, Lackawanna Co.*—Born at White Haven, Luzerne county, August 7, 1851; after graduation, engaged in mercantile business at Moosic until '77, when he entered the employ of the Moosic Powder Company.

William P. Gaines is now at Cheyenne, Wyoming Territory.

Class of 1873. Rev. Walter Moffat Shanks, A.M., *Denmark, Tuscola Co., Mich.*—The sketch on page 93 should be changed to read as follows: Born in the town-land of Oughley, County Down, Ireland; his preparation for college was obtained principally while clerking in New York, in the Cooper Union Free Night-schools; after a four years' course in the Reformed Presbyterian Theological Seminary, in Allegheny City, he graduated there in '77; since which time he has been engaged as a missionary, chiefly in Tuscola county, Michigan.

Class of 1876. Thomas A. H. Hay, of Easton, on April 28, 1879, went to Helena, Montana, to accept an appointment in the United States Assay Office.

Class of 1877. Abraham Hogeland, C.E., *Davisville, Bucks Co.*—Born at Southampton, Bucks county; received honorable mention in Astronomy; agriculturist.

Simon Cameron Long, C.E., *Pine Grove, Schuylkill Co.*—Born at Fisherville, Dauphin county, Sept. 7, 1855; is now engaged in clerking and the study of languages.

Rev. Oram Howard McAnulty, *Sherburne, N.Y.*—Born in Reading, Jan. 1, 1849; before engaging in study he was a machinist; he entered the Junior class from Drew Theological Seminary; received a Douglass Prize in Christian classics in '76; entered the Wyoming conference of the M. E. church in April, '77; pastor at Hyde Park in '77–8, and since at Sherburne.

Clinton Creveling Snyder, C.E., *Scranton.*—Born at Espy, Columbia county, May 19, 1854; since graduation he has been draughtsman for the Lackawanna Iron and Coal Company at Scranton.

Class of 1878. W. P. Taylor, *Mooresburg, Northumberland Co.*—Born in England in 1852; studied in Phillips Andover Academy; Freshman and Sophomore at Amherst College; entered Lafayette, Junior; since graduation teaching Latin in the Princeton College Preparatory School.

FORMER STUDENTS.

Class of 1834. William Cox, A.M., *Philadelphia.*—Lawyer; add to the sketch on page 140: Born in Easton, Feb. 8, 1820; entering the Freshman class in '34, he left college in his Senior year, shortly before graduation; studied law in the office of Geo. M. Wharton, Esq., in Philadelphia, and was admitted to the Philadelphia bar in June, '44; he married Miss Elizabeth Boynton Camac, daughter of the late John Markoe, Esq., of Philadelphia, and since '65, has been residing abroad; his communication to the compiler was written from 51 Promenade des Anglais, Nice, France, April, 1879; in it he states his permanent address to be in care of George Emlen, Esq., 312 Walnut street, Philadelphia.

Robert C. Ross, A.M., *Chicago, Ill.*—Born at Washingtonville, Columbia (now Montour) county; a student in modern languages and mathematics in 1834–5; in his youth he made the tour of Europe; has taught for forty years, first at Milton, Danville and Lewistown, Pa., where, in '54, he was elected Superintendent of Schools of Mifflin county, the first incumbent of the office; in '49 he received the degree of A.M. from Lafayette; in '57 he removed to Indiana, and but recently relinquished teaching; he is now assisting his son, an artist; address is 264 Wabash avenue, Chicago.

Class of 1836. William Hill, *Flemington, N. J.*—Add to page 156: Born in Flemington, Feb. 13, 1822; entered the Academical Department in '36, and remained two years; has since resided at Flemington, engaged principally in mercantile and manufacturing pursuits; was a Justice of the Peace for one term of five years and is now Postmaster.

Class of 1837. *Hewson Cox.—Substitute for the sketch on page 157: Born in Easton, May 4, 1821; in college Freshman and Sophomore years, '37–8; resided several years in South America; served as staff-interpreter to General Scott during the Mexican war; in '50 he married Miss Mary Ricketts, daughter of William M. Camac, Esq., of Philadelphia; died in Chester county, March 10, '59.

Henry Hall Green, *Mora, Mora Co., New Mexico.*—Add to page 154: Born at Fort Dearborn, now Chicago, Ill., June 16, 1822. His father, John Green, was an officer in the U. S. Army, who fell a victim to disease in the Seminole war. He writes: "My youth was passed on the frontier of our country, chiefly at Forts Mackinaw, Crawford and Winnebago; I hunted wolves and foxes on the tract of land that is now in the very heart of Chicago, and saw erected there the First Old School Presbyterian church, and was baptized in it by Jeremiah Porter, the pioneer preacher of that day; in later years I was the frequent associate of the old mountaineers of Fremont's early days, St. Vrain, Bent, Maxwell, Le Roux, Rouelle, Hatcher, Barkley, Doyle, Christopher (Kit) Carson and others, all brave, honest, true men—illiterate, but none better for opening up a wild, new country—all are dead! In April, 1837, I was sent from Fort Winnebago, Ouisconsin, to Easton, a long, tedious and somewhat dangerous trip in that day." He was in college from '37 to '41, when he was appointed, by President Buchanan, a cadet at West Point; in '43 he resigned his commission, and until '46 was engaged as a civil engineer under Captain Thomas J. Crain, U. S. Topographical Engineer, operating on the harbor of St. Louis; in '46 enlisted in the Mexican war, serving as Lieutenant, Quartermaster and Commissary; in '51 he removed to New Mexico, where he still resides, a prominent citizen, and engaged in mercantile and milling business; for six years, '64–'70, he held prominent positions in the Internal Revenue and Inspection service; he was nominated successively by Presidents Johnson and Grant as Assessor of Internal Revenue for the Territory of New Mexico, but through political opposition failed of confirmation by the Senate, Col. Green being a member of the Democratic party.

Class of 1838. *James McLean.—Born at Mauch Chunk; a student in 1838–9; resided at Summit Hill, where he was an

operator in coal from '46, and President of the First National Bank at Wilkes-Barre from '62 until his death, which was caused by a railroad accident, in the spring of '63; he was a brother of Hon. Samuel McLean, M.C., noticed on page 186.

Dr. Nathan L. Price—page 163—is reported as a resident of Ottumwa, Wapello county, Iowa.

*Washington B. Woodward.—Born in Kennett township, Chester county, May 29, 1814, and died Dec. 14, '44; he was in college '38–9; he married Edith B., daughter of Jacob Lamborn, who survived him, and recently resided in Philadelphia; the younger of his two sons, Washington, practiced medicine in Wilmington, Del., but is dead.

Class of 1841. Joseph Augustus Hinchman, *San Francisco, Cal.*—Born at Schooley's Mountain, N. J.; a student in 1841–2; in California, Dec., '51, to '61, where he was Deputy Surveyor of the Port of Santa Barbara, and Secretary of the San Francisco Post-office; engaged with the Western Union and U. S. Telegraph Companies, '61–'73; Chief Clerk in the New York Post-office, '73–7, and since Nov., '77, Chief Clerk of the Western Union Telegraph Company in San Francisco.

Class of 1842. Washington Watts McDonogh.—Add to the sketch on page 177: He was the son of James and Fillis Watts; born in New Orleans, La., in 1827; in special course three years; is now living in Sinou, Liberia.

Class of 1843. *Bazel N. Goines, named on page 181; on leaving college, resided first in Philadelphia, and afterward at Albany, N. Y., where he died a few years ago.

John F. Wilson, named on page 182, was a companion of Messrs. Gibbs and Goines; when he left college he became a sailor, and when last heard from was sailing between San Francisco and China. The title Rev. should be transferred from his name to that of

*Rev. Thomas Wilson, a very worthy man, from Trenton, N. J., who, in a brief course at Lafayette, made preparation for engaging in missionary work in Africa. With his wife and six daughters, he went to Liberia, and died in a few months from his arrival.

Class of 1847. *A. Clarkson Smith, M.D.—Add to page 199: He was the son of Dr. Wm. Smith; was born in Chanceford township, York county, in 1832; his preparatory course was conducted at York, in the Academy of Rev. Stephen Boyer; he studied medicine under his uncle, Dr. J. S. Clarkson, of Columbia, and Dr. J. L. Atlee, of Lancaster, and graduated in medicine at the University of Pennsylvania, in '52; he located in Columbia, and was faithful and successful in his services during the prevalence of cholera there in September and October, 1854; in the following year he offered his professional aid in the yellow fever epidemic along the Southern Atlantic Coast, and was assigned to duty at Norfolk, Va., where he fell a victim to the disease. A martyr to his profession, he left the record of bright prospects of usefulness and eminence.

Class of 1854. Dr. Thomas J. P. Devor, erroneously reported deceased, and so stated on page 205, located in Texas before the war, and is still there; address, Clarkesville, Red River county, Texas.

Class of 1858. John Remsen Baldwin, *Morristown, N. J.*—Born at Flatlands, Kings county, Long Island, N. Y., Feb. 28, 1839; in college Freshman and Sophomore years; since '56, he has been engaged in business as clerk for the Atlantic and Pacific Telegraph Company, and in the United States Bonded Warehouse; clerk and cashier of the National Ice Co., New York City, '71–6, and since '76, in mercantile business at Morristown.

Class of 1873. Dr. Stroud H. Jackson was erroneously reported deceased, as stated on page 246; a letter from his father, Dr. A. R. Jackson, of 785 Michigan avenue, Chicago, states that his son is living, and prospering in his profession.

Class of 1878. A. B. Weaver, *Clearfield, Pa.*—Add to page 279: He was born at Clearfield, March 12, 1857; since Feb., '78, he has been a book-keeper, and also tax-collector, and expects to enter into business with his father.

On page 274 should have been inserted the name of John Thompson Cathers, of *Reynoldsville*, Jefferson county, Pa., a student in partial course, in 1875–6.

330!

Prof. JAMES H. COFFIN, LL. D.

SKETCHES OF MEMBERS OF THE FACULTY.

Solon Albee, A.M., was born in Langdon, N. H., April 14, 1827; he finished his preparatory studies at Kimball Union Academy, Meriden, N. H., in 1847; graduated at Middlebury College, Vt., in 1851; taught in Montreal, Canada, and Mount Holly, N. J. 1851–2; he was Tutor in Lafayette, 1852–4; Tutor in Middlebury College, 1854–5; then he entered Andover Theological Seminary, graduated in 1859, and was licensed to preach the gospel by the South Middlesex Association of Congregational Ministers, at Boston, Mass., January, 1859. He was Classical teacher in Burr and Burton Seminary, Manchester, Vt., 1860–2; Principal of the Dummer Academy, Byfield, Mass., 1863–4; taught again in Burr and Burton Seminary, 1864–6, and in 1866 became Professor of the Latin Language and Literature in Middlebury, where he still remains; acting also as Librarian of the College.

Joseph Alden, D.D., LL.D., was born at Cairo, Green county, N. Y., January 4, 1807; the first two years of his course were spent at Brown University, and the remainder at Union College, N. Y., where he graduated in 1828; he then entered the Theological Seminary at Princeton, where he spent two years, and was then, for two years, Tutor in Nassau Hall; in 1834 he was ordained pastor at Williamstown, and in August, 1835, elected Professor of Rhetoric in Williams College; from 1853–7 he was Professor of Mental and Moral Philosophy in Lafayette; President of Jefferson College, 1857–60; in 1867 he became Principal of the New York State Normal School, at Albany, a position that

Note.—A complete list of the members of the Faculty may be found on pages 69–72 of Professor Owen's Historical Sketches. Sketches of those who are graduates of Lafayette are contained in the earlier pages of this work; and an Alphabetical list of these is given on page 308. Notices of the Presidents and of several Professors are also contained in Professor Owen's work. This chapter embraces the remainder, so far as they could be obtained.

he still retains; he received the degree of D.D. from Union College in 1838, and LL.D. from Columbia College in 1857. He is the author of numerous instructive works for the young, and has been a constant contributor to the periodical literature of the country. He is also author of "Elements of Intellectual Philosophy," "Science of Government in Connection with American Institutions," "Christian Ethics, or the Science of Duty," "Studies in Bryant," and a work recently issued, "Thoughts on the Religious Life," with an introduction by W. C. Bryant.

Rev. E. Thompson Baird, D.D., now a resident of Richmond, Virginia, was Professor of Chemistry in Lafayette in 1845–6. He received the honorary degree of A.M. from Jefferson College in 1843. He was the editor of the *St. Louis Presbyterian* in 1853–4, and agent for Domestic missions in Louisville in 1855. In 1856 he received the degree of D.D., being at that time a resident of Columbus, Mississippi. In 1858 he became stated supply of the church at Crawfordsville, Mississippi. He has of late years held the office of Secretary of the Publication Committee of the Southern Presbyterian General Assembly in Richmond, and also acted as stated supply of the Ashland church.

Arthur Latham Baker, C.E., was born in Cincinnati, Ohio, May 7, 1853. He graduated at the Rensselaer Polytechnic Institute, in Troy, in 1873, and was immediately appointed adjunct-Professor of Civil and Topographical Engineering in Lafayette. He was admitted to the bar of Northampton county, on examination, in April, 1878. He is a member of the Troy Scientific Society, and a Fellow of the American Association for the Advancement of Science.

Rev. Addison Ballard, D.D., was born in Framingham, Mass., October 18, 1822. He prepared for college at the Framingham Academy, and at the school of his uncle, Rev. James Ballard, Bennington, Vt., and graduated at Williams College in 1842. He taught the Hopkins Academy at Hadley, Mass., one year after graduation; was Tutor in Williams College from September, 1843, to June, 1844, but left before the expiration of the year on account of ill health. From 1845 to 1846 he was Principal of an academy at Grand Rapids, Mich., and the following year was engaged as a home missionary in Hand River Valley in the same

State. He was then for seven years Professor of Latin and Mathematics in the Ohio University, at Athens; the ensuing year he filled the Professorship of Rhetoric in Williams College, and from 1855 to 1857 was Professor of Natural Philosophy and Astronomy in Marietta College, Ohio. From 1857 to 1866 he resided at Williamstown, engaged most of the time as pastor of the Congregational church. June 1st, 1866, he was installed pastor of the First Congregational church in Detroit, whence he was called to the Professorship of Christian Greek and Latin in Lafayette in 1874. He has published a number of sermons and addresses, and is the author of the Introduction to the Ecclesiastical History of Eusebius.

E. Hubbard Barlow, A.M., was born at Lee, Mass., April 18, 1839. After teaching in Tyringham, South Lee and Lee, and in Wolcottville, Conn., he entered Amherst College, and graduated in 1866. He made Physical and Vocal Culture a professional study in Boston in 1866–7, and has since been frequently called on to give public readings and lectures. For two years he was assistant principal of the Normal School, at Bridgewater, Mass.; in 1868, Principal of the High School at North Brookfield; in 1869–'70, Instructor in English in Amherst College and Professor of Elocution in the Amherst Agricultural College. In 1870 he was appointed to the Professorship of Rhetoric, Elocution and Physical Culture in Lafayette. He is the author of a Manual of Reading, published in 1873.

Francis C. Blake, was born at Cumberland, Maine, Feb. 23, 1854; he is the son of Rev. Joseph Blake, D.D., then pastor of the Congregational church in that place, but now a resident of Andover, Mass. Mr. Blake studied at Gilmanton, N. H., and at the age of sixteen went to Worcester, where, three years later, he entered the Technical Institute, and completed his course in 1876; in the fall of the same year he came to Lafayette, at first as an assistant in the Laboratories, and afterward Tutor and adjunct Professor of Analytical Chemistry. In May, 1879, he was appointed, by the Pennsylvania Lead Company, assistant superintendent in their works, at Manchester, near Pittsburg.

Rev. Augustus Alexis Bloombergh, Ph.D., was born in Uffenheim, Bavaria, February 13, 1835. He pursued a full course

of classical study in the Gymnasium of Ansbach, and in 1852 became a student of law in the University of Wurzburg, where he remained three years. After some years spent in teaching, he entered Princeton Theological Seminary in 1864, and completed the course in 1867. While there he was Tutor of Latin in the College of New Jersey, 1865–7. In 1867 he entered upon his duties as Professor of Modern Languages in Lafayette. January 6, 1874, he was ordained to the gospel ministry by the Presbytery of Lehigh.

Rev. George Burrowes, D.D., was born in Trenton, N. J., April 3, 1811; he received his classical education at the school of Mr. James Hamilton, afterwards Professor of Mathematics in the University of Nashville, Tenn.; for three years he took charge of an Academy at Allentown, N. J.; and in Nov., 1830, entered the Junior class in the College of New Jersey, where he graduated in '32. In the fall of that year he commenced the study of theology in Princeton Seminary, but for some months he also acted as a Tutor in the college, and completed his theological course in the fall of 1835; in July, 1836, he became pastor of the West Nottingham church, and what is now Port Deposit church, at the same time taking charge of the West Nottingham Academy; his pastorate here was greatly blessed by numerous additions to the church. He became Professor of Latin and Greek in Lafayette in 1850, and filled the chair until March, 1855, when, much broken in health, for four years he recruited his strength as a country pastor in Newtown; in June, 1859, he went to California with a commission from the Board of Education to lay the foundation of a Presbyterian college on the Pacific coast, a work in which he was eminently successful. In 1865–9 his name again appeared on the catalogues of Lafayette as Professor of Biblical Instruction; returning to California he took an active part in the organization, in 1871, of the San Francisco Theological Seminary, in which he has been, from its opening, the Professor of Hebrew and Old Testament Literature. In 1853 he published his Commentary on the Song of Solomon, and three years later, Octorara, a poem.

Andrew H. Caughey, A.M., was born in Pennsylvania, November 1, 1827. His preparatory education was obtained at the

Erie Academy; he entered Washington College and graduated in 1849; he then studied law, and was admitted to the bar in 1851. After practicing a short time, in the spring of 1852 he became the proprietor of a newspaper, which he continued until 1857. During a portion of this period, and down to the year 1868, he held the position of Secretary of the Pennsylvania Erie Canal Company. In 1862 he issued a volume entitled Home, and other Poems, published by Carleton. During the summer of this year he made a trip to Europe. In 1864 he joined with a friend in the establishment of a book-store in the city of Erie. From 1868 to 1874 he was Principal of the Erie Academy. In the latter year he delivered the Quarter Century Address at the Commencement exercises of his Alma Mater, which was published in book form. In 1875 he entered upon his duties as adjunct-Professor of the Latin language and literature in Lafayette.

Rev. Lyman Coleman, D.D., was born in Middlefield, Mass., June 14, 1796; he graduated at Yale College in 1817, and for three succeeding years was Principal of the Latin Grammar School at Hartford, Conn., and subsequently a Tutor at Yale for four years, where he studied theology; in 1828 he became pastor of the Congregational church at Belchertown, Mass., and held the charge seven years; afterwards, Principal of the Burr Seminary, Vermont, five years; then Principal of the English Department of Phillips Academy, in Andover, Mass., five years; the years 1842–3 he spent in Germany in study and in travel, and on his return was made Professor of German in the College of New Jersey, from which he received the degree of S.T.D.; he continued there and at Amherst, Mass., and Philadelphia the next fourteen years, in connection with different literary institutions; he revisited Europe in 1856, and extended his travels to the Holy Land, the Desert, and Egypt, and in 1861 he became Professor of Ancient Languages in Lafayette. His principal published works are, "The Antiquities of the Christian Church," "The Apostolical and Primitive Church," "An Historical Geography of the Bible," "Ancient Christianity Exemplified," "Historical Text-book and Atlas of Biblical Geography." These have been republished in England. He also compiled the Genealogy of the Lyman Family, and contributed a number of articles to American Quarterlies.

Rev. William Cunningham was a licensed minister whose name appears on the catalogue as Vice-President and Professor of Ancient Languages in 1837–9. He was an enthusiast on the subject of improving the attainments and skill of teachers; with this object in view, the building, which long continued to be known as the Model School, was erected in 1838; the first story was designed for a Laboratory and Philosophical Lecture room, the upper story to be devoted to the purposes of a Normal School. This was the first institution of the kind in the Commonwealth. Prof. Cunningham, however, early returned to Scotland, the land of his birth; and there, with the aid of his wife, conducted for some years, and with great success, a seminary for young ladies. Acquiring a competence he retired from teaching; and, at Stranrear, now occupies the former residence of the well-known Arctic explorer, Captain James Parry, a house planned and erected by that eminent navigator, and finished with all the paraphernalia of a ship, cabin, sky lights, etc.

Thomas Messinger Drown, M.D., was born in Philadelphia, March 19, 1842. In 1859 he graduated at the Philadelphia High School, and three years later at the Medical Department of the University of Pennsylvania; subsequently he studied at the Sheffield and Lawrence Scientific Schools, and in Germany at the Mining School of Freiberg and the University of Heidelberg. He was an instructor in Metallurgy in Harvard University in 1869–70; a member of the American Institute of Mining Engineers from its origin, and its Secretary since 1872. The seven annual volumes of its Proceedings have been issued under his auspices. In 1874 he was elected to the Professorship of Analytical Chemistry in Lafayette, a chair endowed by William Adamson, Esq.

Rev. James Read Eckard, D.D., was born in Philadelphia, November 22, 1805; his father, J. Frederick Eckard of the Island of St. Thomas, was Danish Consul for the Middle States. Graduating from the University of Pennsylvania, in 1823, he studied law under Hon. John M. Read, and practiced from December, 1826, until the spring of 1830, when he commenced the study of theology, having made a profession of religion in September, 1829. During this period he was an active member of the Board

of Directors of the Public Schools of Philadelphia, and a Director of the Society for Promoting Public Schools in Pennsylvania. He entered Princeton Theological Seminary in 1831, and was licensed to preach in October, 1833, when he sailed for Colombo, Ceylon, as a missionary of the American Board. On reaching Ceylon he was connected with the Mission Seminary at Batticotta. In 1843 he returned to New York, and afterwards, for three years, was Principal of the Chatham Academy in Savannah, Ga., at the same time laboring for the religious instruction of the slaves. From 1848 to 1858, he was pastor of the Second Presbyterian church in Washington City, in the latter year receiving the degree of D.D. from Lafayette. He held the Professorship of Rhetoric, to which History was added, from October, 1858, to 1871. He now resides with his son, at Abington. He published, in the Tamil language, an Essay on Faith; in English, the Hindoo Traveler and a narrative of Missionary Operations.

Joseph G. Fox, A.M., C.E., was born at Adams, Jefferson county, N. Y., September 7, 1833. He was a student at the State Normal School, at Albany, and at Rensselaer Polytechnic Institute, graduating with honor at each. While pursuing his course at the latter institution he acted as an Instructor in Mathematics; and on graduating in 1861, he was immediately appointed adjunct-Professor of Geodesy and Topographical Drawing. During the year 1861–2 he also held the office of Assistant Engineer on the Troy and Albany Railroad. For the next ten years he was a resident of the city of New York, and engaged in teaching, chiefly as Principal of the Collegiate and Engineering Institute, but also holding the position of Professor of Mathematics in Cooper Institute in 1863–4, and for seven years following Director and Professor of Mechanics in the same. He was Engineer of the Sixth Brigade, Second Division of the National Guard of N. Y., with the rank of Major, on General Hamilton's staff, and served with the Brigade during the great draft riot in New York, in July, 1863, and also in garrison duty in the forts about New York harbor in 1864. In 1864 he received the degree of A.M. from Columbia College. From 1866 to 1871 he filled the chair of Geodesy and Mechanical Drawing in the University of the City of New York, and was engaged in the construction of various engineering works. In 1872 he became Professor of Civil and Topographical Engineering in Lafayette.

Robert Frazer, A.M., was born in Philadelphia, July 22, 1849. He graduated at the University of Pennsylvania in 1867; then was engaged for two years in the service of the Camden and Atlantic Railroad Company, a corporation of which his father was President, when, in 1869, he went to Schuylkill county as a Mining Engineer. He was the adjunct-Professor of Civil and Topographical Engineering in Lafayette in 1872–3. Resigning this appointment, in January, 1874, he accepted the position of principal Assistant Engineer of the Lehigh Valley Coal Company, having his office at Ashland, where he has since resided. He is a member of the American Institute of Mining Engineers.

Samuel Galloway, A.M., was born in Northampton county. He graduated at Princeton in 1831; was Professor of Mathematics in Lafayette in 1834–5. He has long resided in the South, engaged in teaching. In 1853 he published a work of 372 pages, entitled Ergonomy; or Industrial Science. His name is entered on the list of ministers of the Southern Presbyterian church as a licentiate of the Presbytery of Florida, and recently a resident of Athens, Georgia.

Traill Green, M.D., LL.D., was born in Easton, May 25, 1813. His academic education was received under the care of the late Rev. John Vanderveer, D.D. He graduated in medicine at the University of Pennsylvania in 1835, and immediately located in practice in Easton. In 1837 he became Professor of Chemistry in Lafayette; in 1841 he received the degree of A.M. from Rutgers College, and the same year he was called to the chair of Natural Sciences in Marshall College, at Mercersburg, where he remained until his return to Easton in 1847, and the following year resumed the Professorship of Chemistry, which he still holds. He received the degree of LL.D. from Washington and Jefferson College in 1866. He has been for over thirty years a member and Fellow of the American Association for the Advancement of Science; he was the first President of the American Academy of Medicine, President of the State Medical Association, and a member of other scientific bodies. He is the orator-elect to pronounce the next annual address before the Alumni of the Medical Department of the University of Pennsylvania.

Samuel D. Gross, M.D., LL.D., the first Professor of Chemistry in Lafayette, 1832–4, was born near Easton, July 8, 1805. After leaving Lafayette he was a Professor in the University of Louisville, Ky., and since June, 1856, Professor of the Institutes and Practice of Surgery in the Jefferson Medical College in Philadelphia. He is the author of some sixteen volumes on Medical and Surgical topics, the chief of which is his System of Surgery. He received the degree of D.C.L. from Oxford University.

Edward Hart, Ph.D., was born at Doylestown, Pa., November 18, 1854, and there pursued his studies until he became a special student of Chemistry, first with Professor Drown, in Philadelphia, and afterward as the incumbent of a Fellowship in Johns Hopkins University. In 1874 he came to Lafayette as an assistant in the Laboratories; he was at Johns Hopkins University in 1876–8, where in the latter year he issued a Hand-Book of Volumetric Analysis, 326 pages, 12mo. In September, 1878, he returned to Lafayette as adjunct-Professor of General Chemistry.

*Rev. John Peter Hecht, was born in Bucks county, February 28, 1790. Reared in Philadelphia, he preached his first sermon in that city at the age of sixteen, and two years later was appointed to the charge of two congregations of the Lutheran church, near the Trappe, in Montgomery county, whence he was called to Carlisle. Removing to Easton, Mr. Hecht, on December 10th, 1815, commenced the labors of his thirty years' pastorate here. At that time the Lutheran and Reformed congregations jointly owned and worshiped in the present Reformed church on North Third street. Mr. Hecht was deeply interested in the work of the church; was Secretary and President of the Synod of Pennsylvania; was a Director, and for a time, Superintendent of Schools of Easton; as a linguist he excelled in the Hebrew and German, and was Professor of the latter language in Lafayette from 1840 to 1845, as also a Trustee of the College. In May, 1845, he resigned his charge, but continued to reside in Easton until his decease, January, 1849.

Charles Henry Hitchcock, Ph.D., a son of the President of Amherst College, was born at Amherst, August 23, 1836, and graduated there in 1856. He pursued a full course of theological study, graduating at Andover in 1861. He was assistant Geolo-

gist of the State of Vermont from 1857 to 1861; State Geologist of Maine, 1861–3; and Lecturer on Zoology in Amherst College, 1858–64. In 1866 he became a special student in the Jermyn Street School of Mines and the British Museum. From 1865 to 1870 he was non-resident Professor of Mineralogy and Geology in Lafayette; since 1869 Professor of Geology in Dartmouth College, and since 1868 the State Geologist of New Hampshire. His published scientific papers, reports and books number eighty, of which the more important are, "The Geology of New Hampshire," 3 vols., royal octavo, and Atlas, 1874–8, 2125 pages; "Geology of Vermont," 2 vols., quarto, 1861, 988 pages; "Geology of Maine," 1861, 266 pages, octavo; "Relations of Geology to Theology," in Bibliotheca Sacra, 1867, 77 pages; "Geological Map of the United States," 1874; "Mount Washington in Winter," 1871.

Rev. David X. Junkin, D.D., youngest brother and biographer of President Junkin, was born at Hope Mills, Pa. He graduated at Jefferson college in 1831; was a teacher of languages in the Germantown Academy in 1831–2; then studied theology at Princeton, and was pastor at Greenwich, N. J., near Easton, from October 24, 1834, until April 23, 1851. From 1837 to 1842, he gave to the College his services as Professor of Belles Lettres. He was pastor of the F Street church, in Washington, 1851–3; pastor at Hollidaysburg, 1853–60; served in the U. S. Navy as Chaplain of the Naval Academy, from May, 1860, to 1862, and the two following years as Chaplain on board the frigate Colorado. He was pastor in Chicago, 1864–6, and since 1866, pastor at Newcastle, Pa., where he now resides. He published The Oath, A Divine Ordinance, etc., 1854; History of the Presbytery of Newton, N. J., 1868, and Historical Biography of George Junkin, 1871.

Rev. John Leaman, A.M., M.D., is now a resident of Leaman Place, Lancaster county. He was born in that county, September 3, 1812. He was a student at Princeton College, but on account of hemorrhage of the lungs, was obliged to leave before graduating. He received from that institution the degree of A.M. in 1857. He graduated at the Jefferson Medical College in 1837; after practicing medicine ten years he was licensed to preach the

gospel by the Presbytery of Donegal, September 21, 1847. In 1848 he preached in Annapolis, Md. April 1, 1849, he took charge of the Cedar Grove Presbyterian church, in East Earl, Lancaster county, being ordained and installed pastor, October 31. He was Professor of Natural History from 1858 to 1865, when his chair was changed to that of Anatomy and Physiology, which he still holds, although he has been prevented by ill-health from delivering his lectures to the last two classes.

Rev. Alonzo Linn, A.M., was born at Butler, Pa., in 1827; graduated at Jefferson College in 1849; completed the course of study in the Western Theological Seminary in 1854; was Tutor and adjunct Professor in Lafayette from 1854 to 1857, when he was appointed to a Professorship in Jefferson College, now Washington and Jefferson, where he has continued to the present time, and is now filling the chair of Greek.

*Rev. John Lloyd, was born in Huntingdon county, October 1, 1813. While a student, in Jefferson College, he made a profession of religion, and graduated with distinction in 1839. After teaching two years in Western Pennsylvania, he entered Princeton Theological Seminary in 1841, and during his course acted as Tutor in Lafayette, in the summer term of 1842. After receiving licensure from the Presbytery of New York, and ordination from the Presbytery of Huntingdon, he sailed for China in 1844, there rejoining the intimate friend of his college days, the Rev. Walter M. Lowrie, with whom he had planned his chosen career as a missionary. A year after the lamented death of the latter, and after just four years of successful service at Amoy, Mr. Lloyd was attacked with typhus fever, and died December 6, 1848. Dr. Sprague, in his Annals of the American Pulpit, says of him: "He possessed a vigorous mind, an equable temperament, an amiable and generous spirit, and intense devotion to his work."

Charles F. McCay, LL.D., now a resident of Baltimore, was born in Northumberland county, Pennsylvania. He graduated at Jefferson College in 1829; was Professor of Mathematics, Natural Philosophy and Astronomy in Lafayette in 1832–3. Afterwards he was for many years Professor of Mathematics and

Civil Engineering in the University of Georgia, and subsequently President of the College of South Carolina. He received the degree of LL.D. from the College of New Jersey, in 1857. He is an active member of the Executive Committee on Sustentation and Foreign Missions of the Southern Presbyterian General Assembly.

Francis Andrew March, LL.D., was born in Millbury, Mass., October 25, 1825, and studied in the public schools of Worcester, Mass. Through Hon. Alfred D. Foster, one of the Examiners of these schools, he was sent to Amherst College, graduating in 1845 with the highest honors; he then taught two years in Leicester Academy, Mass., and two years as Tutor in Amherst College; he studied law in New York City, where he was admitted to the bar in October, 1850, and began practice. In December, 1851, being attacked with bleeding at the lungs, he spent the winter in Cuba, then went to Florida; taught three years, 1852–5, in Fredericksburg, Va.; in 1855 he became Tutor in Lafayette; in 1856 was appointed Adjunct Professor of English Literature, and in 1858 to the Professorship of the English Language and Comparative Philology, which is claimed as the first in this country by which extended and systematic study of the English Language in the English Classics, in the light of modern Philology was co-ordinated with that of Greek and Latin. He received the degree of LL.D. from the College of New Jersey in 1870. He has heard the college classes in Constitutional Law and in Mental Philosophy. His earliest publication was, "The relation of the Study of Jurisprudence to the origin and progress of the Baconian Philosophy," *New Englander*, October, 1848. He published and advocated a plan of pacification for the country, in the *New York Times* and *The World*, 1860–1. He has contributed a number of articles in philosophy and philology to the American Reviews, and to the *Jahrbuch fur Rom. und Englische Literatur*, Berlin, 1859–61. His published works are a Method of Philological Study of the English Language, 1865; A Parser and Analyzer for beginners, 1869; Comparative Grammar of the Anglo-Saxon Language, London, 1870; and an Anglo-Saxon Reader, New York, 1870. He edited the Douglass series of Christian Classics, embracing Latin Hymns, Eusebius, Athenagoras, Tertullian, etc.

Rev. Arthur Mitchell, D.D., was born in Hudson, N. Y., August 13, 1835; graduated at Williams College in 1853; Tutor in Lafayette, 1853–4; then entered Union Theological Seminary and graduated in 1859; was ordained May 9, 1859; pastor in Richmond, Va., from May, 1859, to June, 1861; pastor at Morristown, N. J., 1861–8; since 1868 he has been pastor of the First Presbyterian church of Chicago, ministering to one of the largest and most liberal congregations in the bounds of the denomination. He received the degree of D.D. from Williams College in 1875.

James Clement Moffat, D.D., was born in Scotland, and came to this country in 1833, with the intention of following his profession as a printer; but soon after landing he was introduced to Professor Maclean, of Princeton, through whose aid he was enabled to receive a collegiate education; he graduated at Princeton in 1835, and became private tutor to two boys about to study at Yale, where he attended the course of lectures in that institution; in 1837 he returned to Princeton as Greek Tutor. In September, 1839, he became Professor of Greek and Latin in Lafayette; in the spring of 1841 he removed, with Dr. Junkin, to Miami University, Ohio, where he was Professor of Latin and Modern History. In 1851 he was licensed to preach the gospel. In 1853 he returned to Princeton as Professor of Latin and History; upon the resignation of Dr. Carnahan he was transferred to the chair of Greek; in 1861 he was elected by the General Assembly to the chair of Church History in the Theological Seminary at Princeton, his present appointment. He is the author of an Introduction to the Study of Æsthetics, a Life of Dr. Chalmers, Clarke's History of England, with additions, and a Comparative View of Religions.

Edward Stewart Moffat, A.M., M.E., son of the preceding, was born at Oxford, Butler county, Ohio, January 5, 1844. On his father's removal to Princeton, he pursued his collegiate course there; served four years in the Union army, 1861–5; in June, 1868, he graduated as a Mining Engineer from the Columbia College School of Mines, and immediately received the appointment of adjunct-Professor of Mining and Metallurgy in Lafayette, a position that he held until his resignation in June, 1870. He has since been engaged in the management of Iron Works in

Northern New Jersey; from 1872 to 1876 as superintendent of the Port Oram Iron Works; from 1876 to 1878 as superintendent of the Secaucus Iron Works, and since 1878 as superintendent of the Musconetcong Iron Works, at Stanhope, N. J. He is a member of the American Institute of Mining Engineers. Prof. Moffat's wife is the second daughter of the late Prof. McCartney.

Rev. Isaac Gray Ogden, was born November 27, 1824. He entered Williams College from Binghamton, N. Y., and graduated in 1849. He studied theology at Andover; Tutor in Lafayette during the year 1852, and has since been engaged in teaching and preaching in Binghamton, Sand Lake, Allegheny, Portville and Almond, N.Y.

Rev. Henry Stafford Osborn, LL.D.—Born in Philadelphia, August 17, 1823; graduated at the University of Pennsylvania in 1841; at the Union Theological Seminary in 1845; ordained in June, 1846; he was stated supply at Coventry, R. I., 1845–6; and pastor successively at Hanover C. H., Va., 1846–9; Richmond, Va., 1849–'53; Liberty, Va., 1853–8; Salem, Va., 1858–9; and pastor of the Second Presbyterian church at Belvidere, N.J., 1859—'66. He received the degree of LL.D. from Lafayette in 1865; was Professor of Mining and Metallurgy in Lafayette, 1866–'70. He has been stated supply of the church at Oxford, Ohio, since 1870, and Professor in Miami University, 1871–3. His works are Fruits and Flowers of the Holy Land; Palestine, Past and Present; Little Pilgrims to the Holy Land; and the Metallurgy of Iron and Steel, pp. 972, 1869. In connection with Dr. Coleman he published a large Map of Palestine.

Frlderick Prime, Jr., A.M., was born in Philadelphia, in 1846. His preparatory course was conducted at Northampton, Massachusetts, and in New York City. Graduating at Columbia College, in 1865, he spent a year in the School of Mines connected with that institution, and then continued his studies for three years and a half in the Royal Saxon School of Mines at Freiberg. In 1869 he entered actively on the duties of his profession, being engaged that year on the Geological Survey of Ohio; he then became, for one year, an assistant in the Columbia College School of Mines, when, in 1870, he was elected Professor of Mining and Metallurgy in Lafayette. He is a member of

various scientific societies, and the engineer for several coal and iron companies. He was one of the Judges at the Centennial Exhibition, and also acted as Secretary of the Group on Mining and Metallurgy. Beside the duties of his chair, he was also Assistant State Geologist of Pennsylvania, in 1874–8, and issued the reports of that work for the Eastern district. In 1870 he published a translation from the German of Von Cotta's Treatise on Ore Deposit, 575 pages, octavo.

*Rev. Frederick Augustus Rauch, Ph.D., was the son of a clergyman; born at Kirchbracht, Hesse-Darmstadt, July 27, 1806; a student in the Universities of Marberg, Giessen and Heidelberg, graduating at the former in 1827. While quite young he became Professor of Philosophy in Giessen and Heidelberg, 1829–31, and received the degree of Doctor of Philosophy. He wrote *De Sophoclis Electra* and *De resurrectione mortuorum*, which were published at the request of three of the universities of his native land; and also two small works involving considerable knowledge of the history of the Oriental languages, and a commentary on Goethe's Faust, which received the praise of Goethe himself. Political commotion led Dr. Rauch to leave Germany in 1831. After serving as Professor of German for a short time in Lafayette, he was called by the German Reformed church to a place in its two institutions at York, and in 1835 to become the first President of Marshall College, in which position he died, March 2, 1841. He was a man of varied and profound, acquisitions. His treatise on Psychology was issued in 1841, 401 pages octavo, and some time after his decease a selection from his MSS. was made by President Gerhart, and published under the title, The Inner Life.

Rossiter Worthington Raymond, Ph.D., was born in Cincinnati, Ohio, April 27, 1840. He graduated at the Brooklyn Polytechnic Institute in 1858, and afterward spent three years in study at Heidelberg, Munich and Freiberg. In 1864 he began practice in New York as a consulting engineer, and since 1867 he has been editor of the *American Journal of Mining* (afterward the *Engineering and Mining Journal*); since 1868, United States Commissioner of Mining Statistics, and since 1870, lecturer on Economic Geology in Lafayette. He was elected a Vice Presi-

dent of the American Institute of Mining Engineers in 1871, and President in 1872. He has published annual reports of mining statistics from 1869 onward, several of which have been republished as separate works; "The Children's Week," a volume of short stories, 1871; "Brave Hearts," a novel, 1873, and "The Man in the Moon and other Stories," 1874.

*Rev. John William Richards, D.D., son of Matthias and Maria Salome (Muhlenberg), was born at Reading, Pa., April 18, 1803. He received a complete classical training at the Academy of Rev. Dr. John Grier, at Reading; read theology with his cousin, Rev. Henry A. Muhlenberg, D.D., then pastor of Trinity Lutheran church in Reading; was licensed to preach by Evangelical Lutheran Ministerium, of Pennsylvania, September 22, 1824; entered immediately upon the pastoral office, in which he continued until his death, efficiently and successfully. After serving congregations in Lancaster and Montgomery counties, he removed to Germantown (now in Philadelphia). From 1845–51 was pastor of St. John's Lutheran church in Easton. During this time he was connected with Lafayette College as Professor of the German Language from 1847 to 1851. Removed to Reading, Pa., and was pastor of Trinity church from 1851 to 1854. Died January 24, 1854. Received the title of D.D., from Jefferson College, at Cannonsburg, 1851. He published various occasional discourses and addresses. Translated H. M. Muhlenberg's journal of a visit to the Southern churches for Lutheran Review. Left several works in preparation for the press at the time of his death—historical and devotional, translations from the German; was Secretary of the Lutheran Ministerium of Pennsylvania from 1843 to 1846; President from 1850 to 1853, and delegate to the General Synod in 1853.

*Rev. Alfred Ryors, D.D., was born in Philadelphia, June 28, 1812; being left an orphan at a very early age he was received into the family and select school of Rev. Robert Steel, D.D., at Abington, Pa. He graduated at Jefferson College, Pa., in 1835; the next year he was Tutor in Lafayette, and in May, 1836, he was elected Professor of Mathematics in the Ohio University; he entered upon the duties of his professorship the next autumn, and remained until 1844; in that year he was called to the same chair

in the Indiana State University. In 1848 he was elected President of the Ohio University and filled the office for four years; in 1852 he resigned, and the following year became President of Indiana University; at the end of a year he accepted the chair of Mathematics in Center College, Kentucky, where he remained until the time of his death, May 8, 1858.

Rev. Alexander Scott, A.M., was born near Candor, Pa., June 16, 1826; he studied at Muskingum College, 1847–51; Senior year at Jefferson College, graduating in 1852; he taught in Texas, 1853–4; at Mount Holly, N. J., in 1855; in Muskingum College in 1856; Tutor in Lafayette in 1856–7; studied theology at Princeton three years, graduating in 1859. From 1859–'62 he was a home missionary at Arcata, California, and since 1862 he has been teaching in the West Philadelphia Academy. His address is 36 North Thirty-eighth street, West Philadelphia.

Justus Mitchell Silliman, M.E., was born at New Canaan, Fairfield county, Conn., January 25, 1842. His preparatory education was obtained at the New Canaan Academy. During the late war he served three years in the army of the Potomac and of the South. From 1865–'70 he taught in the Troy Academy, Troy, N. Y. In 1867 he entered the Rensselaer Polytechnic Institute, and graduated in 1870, when he became Professor of Mining Engineering and Graphics in Lafayette. He is a Fellow of the American Association for the Advancement of Science, and a member of the American Institute of Mining Engineers. In the proceedings of the former were published the results of his examination of the Bessemer Flame with colored glasses, and with the spectroscope.

Rev. Oliver Starr St. John, A.M., was born in New York City, Aug. 10, 1814. His early education was received at the public schools of Danbury, Conn., and Andrews' Latin School at Cornwall. He graduated at Amherst College in 1838. After the usual course of study at East Winsdor (now Hartford) Theological Institute, he was licensed to preach in August, 1841, by the Congregational Association, at Torrington, Conn. In April, 1842, he was ordained and installed pastor of the Congregational Church at Elizabethport, N. J. In 1846 he became rector of the

Academical Department and adjunct Professor of Languages in Lafayette. August, 1849, he was elected Borough Superintendent of the schools of Easton, in which office his administration was signalized as a career of incessant and arduous labor. In 1853 he left Easton to become pastor of the Presbyterian church at Manhattanville, N. Y., where he remained until 1857, since which time he has been engaged in preaching and in literary work. Since 1870 he has resided in Brooklyn, and for the past four years he has been Secretary of the Palestine Exploration Society.

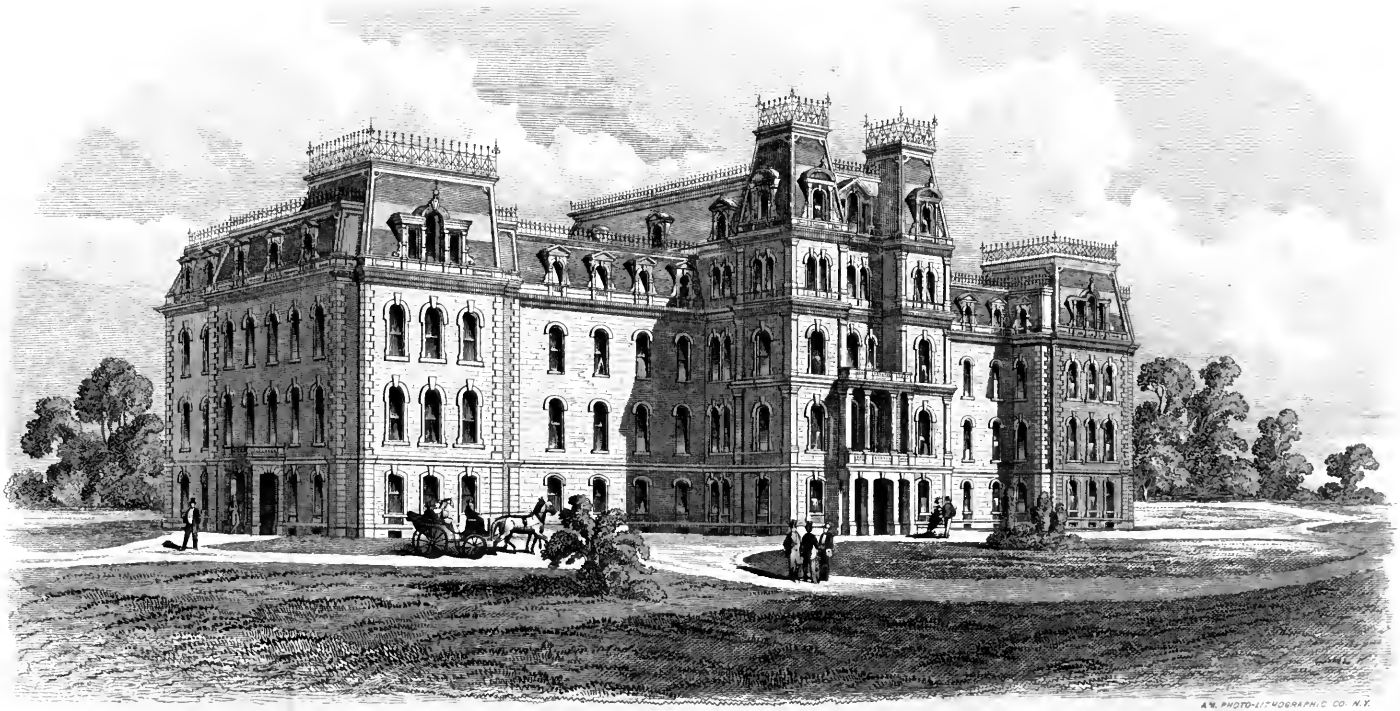
Theodore F. Tillinghast, C.E., was born at New Bedford, Mass., February 15, 1848. He entered the Massachusetts Institute of Technology in 1866, and graduated in the Civil Engineering Department in 1870. From 1870 to 1872 he was adjunct-Professor of Civil and Topographical Engineering in Lafayette. On the death of his father, in 1872, he returned to New Bedford, where he has since had charge of the extensive business interests in which his father had been engaged.

Henry Francis Walling, C.E., was born at Burrillville, R. I., June 11, 1825. His youth was spent in Providence, where he early became assistant librarian in the Athenæum Library, during which time he studied mathematics and surveying. He then entered the office of S. B. Cushing, a civil engineer in Providence, with whom he became a partner, in 1846. In 1849 he commenced topographical work, and has published atlases containing full maps and scientific descriptions of most of the Northern States and the Dominion of Canada. His papers, read before the American Association and the American Society of Civil Engineers, have been published in their proceedings. He was the first incumbent of the chair of Civil and Topographical Engineering in Lafayette, 1867–'70. In 1878 he was employed by the superintendent of the U. S. Coast Survey to gather information and to report in regard to the evidences as to the stability of the earth's crust. He is at present engaged in Ohio, having his office at Marietta. His permanent address is Cambridge, Mass.

*David Prentice Yeomans, M.D.—Born at Stamford, N. Y., January 25, 1812; graduated at Williams College in 1837; from 1841 to 1845 he was Principal of the Academical Department,

and Professor of Chemistry in Lafayette; in 1846 he went to Canada and studied medicine with his uncle, at McGill College, Montreal. He settled in Odessa, a village near Kingston, where he remained in the successful practice of medicine until his death, August 13, 1860, aged 47. At one time he was Superintendent of public instruction for the Province.

*Rev. Charles W. Nassau, D.D.—A notice of this beloved Professor is found on page 22 of Prof. Owen's Historical Sketches. This last survivor of the ex-Presidents of the college died at Trenton, August 6, 1878. A memorial sermon and eulogy was preached in the college chapel, by President Cattell on the first Sabbath of the ensuing term, and published in the *Lafayette College Journal* for October.



PARDEE HALL.

PROCEEDINGS AT THE DEDICATION OF PARDEE HALL.

The following report of the general proceedings at the dedication of Pardee Hall, in 1873, is taken from the *Easton Daily Free Press*, of October 22. For a full description of the building the reader is referred to page 34 of Prof. Owen's Historical Sketches:

The vicinity of the college yesterday morning presented a busy scene. Some preparations were yet to be completed about the new building. At an early hour visitors began to arrive, and strange faces were seen in every part of the grounds. The students felt the importance of the occasion, and determined that the day should not lack in being honored through any want of enthusiasm on their part. At 10 o'clock the college bell was rung, and the different bodies who were to take part in the procession formed in the neighborhood of the chapel. They were gay in the colors of their respective classes and appropriate badges, and impatiently awaited the time when the procession should move. The Synod of Philadelphia, which had left Philadelphia early in the morning in a special train, arrived about 10 o'clock, and in a body marched up College Hill. The trains on the New Jersey railroads also brought large numbers of the members of the Synod of New Jersey, who at once proceeded to the grounds of the college. Many distinguished men and scholars, representatives of other institutions, were present.

The procession was at last formed under the direction of Professor Youngman, the college marshal, and headed by a band of music, moved toward the new building. It was composed as follows:

The Officers of the college classes as escort.

The Orator of the day with the President of the faculty.

The Governor of Pennsylvania with other officials.

The present and former Trustees of the college with Trustees of other colleges

The present and former members of the Faculty, with representatives from sister institutions.

The Clergy and other specially invited guests, including the American Institute of Mining Engineers.

Alumni in order of their graduation with former students of the college who did not take their degrees.

Citizens of Easton.

Undergraduates of the college.

A dense crowd had already gathered about Pardee Hall. The different floors were thronged with crowds of visitors, and the galleries which had been thrown open to the public at 10 o'clock were already completely filled, the ladies occupying a majority of the seats. When the procession reached the building, it parted right and left up the staircases on either side of the corridor, and thus entered the auditorium. It was not long before the large room was densely crowded. The bands of music were stationed in the music gallery, directly over the platform, and discoursed sweet strains at different stages of the proceedings. A large platform had been erected in the front, and on this were seated President Cattell, Ex-Governor Pollock, Mr. Pardee, Governor Hartranft, a number of the trustees of the college, and distinguished visitors from abroad. Among these were President Barnard, of Columbia College; Rev. Dr. McGill, of Princeton Theological Seminary; Selden T. Scranton, of Oxford, N. J.; President Coppee, of Lehigh University; Prof. T. Sterry Hunt, of the Massachusetts Institute of Technology; Prof. Mayer, of Stevens Institute, Hoboken; Prof. Johnson, of Yale; Prof. Hillman, of Dickinson; President Muhlenberg; George Musgrave, D.D., LL.D.; Rev. J. S. Woodside, from India; Rev. Dr. Samuel Miller, moderator of the Synod of New Jersey; Rev. Dr. W. O. Johnstone; and President Magill, of Swarthmore.

The exercises began with an invocation by President Cattell, who afterward introduced to the audience the orator of the day, Professor Rossiter W. Raymond, a member of the college faculty, United States Commissioner of Mining Statistics, and president of the American Institute of Mining Engineers.

At the conclusion of Professor Raymond's eloquent address, which was listened to with great interest on the part of those present and interrupted by frequent bursts of applause, Professor Barlow, in whose charge the preparations for the collation had been placed, announced that the tables had been spread in the large laboratories on the fourth and fifth floors of the building.

There was room for six hundred, and that number would be admitted to the rooms in the order of the procession, while the others would be served at successive tables.

The spacious laboratories had been turned into banqueting halls, and long lines of tables groaned beneath the substantial viands provided. Beautiful bouquets of flowers adorned the rooms.

The streets of Easton had presented a busy spectacle all the morning. The different trains brought hundreds of visitors, and a constant stream of people flowed toward College Hill. Bands of music paraded the streets, stopping often before the *Free Press* office to tender the compliment of a serenade. In the afternoon business was entirely suspended. Every store was closed, the noise of the factory had ceased, quiet brooded over the workshop. The merchant had left his counter, the lawyer had thrown aside his brief, and all united to honor the day. There has not been an occasion for years in which our citizens have joined with such universal interest.

Soon after 1 o'clock the different organizations, which were to take part in the parade of the afternoon, were moving through the streets of the town. All the civic societies were represented, and South Easton and Phillipsburg sent their organizations. Under the direction of the Chief Marshal, George M. Reeder, Esq., the line was formed on South Third street, the right resting on Centre Square. It moved in the following order:

Chief Marshal, George M. Reeder, with Assistant Marshals, Messrs. Joseph S. Osterstock, J. N. Thatcher, John Bacon, and Adam Drinkhouse, mounted on gayly caparisoned steeds.

Platoon of police.

Easton Cornet Band.

Easton Grays, under command of Captain Frank Reeder.

Members of Fifty-first Pennsylvania Volunteers, under command of Captain Daniel L. Nicholas.

Bell Post, G. A. R., under command of Samuel S. Lesher, S. V. C.

Columbia Council, O. U. A. M., John M. Phillips, Marshal.

Excelsior Council, Jr. O. U. A. M., Howard Bitters, Marshal.

Bath Cornet Band.

Fatherland Lodge, I. O. O. F., Joseph Flad, Marshal.

Peace and Plenty, Lehicton, and Elon Lodges, I. O. O. F., A. Laubach, Marshal.

Washington Camp, P. O. S. of A., G. Heller, Marshal.

Druids of Easton, H. Hoffmier, Marshal.

Knights of Pythias of Easton, J. Deichman, Marshal.
Teedyuscung Tribe, I. O. of R. M., of Phillipsburg, S. Vanorman, Marshal.
Saranac Tribe, I. O. of R. M., of Easton, T. Coyle, Marshal.
Emerald Society, M. J. Levan, Marshal.
German Mechanics, John Newbrand, Marshal.
Governor John F. Hartranft, Auditor-General Harrison Allen, and Chief Burgress A. B. Howell, in a carriage drawn by four horses.

NAZARETH BAND.

Town Councils of Easton, South Easton and Phillipsburg.
School Board of Easton.
Easton High School.

RINGGOLD BAND, of Reading.

Chief Engineer James Ward and assistants.
Humane Fire Company, No. 1, with carriage.
Washington Fire Company, No. 3, with steamer drawn by four horses.
Keystone Fire Company, No. 5, with steamer drawn by four horses.
Lafayette Fire Company, No. 6, with carriage.
Citizens in carriages.

The procession was the most imposing that has appeared in the streets of Easton for years. It was over a mile in length, and, gay with flags and banners, was a chief feature of the outward display of the day. The governor of Pennsylvania was greeted with cheers along the route of the parade. The pupils of the High School carried a banner especially gotten up for the occasion. The splendid flag of Excelsior Council attracted attention. The Fire Department, with engines and carriages, presented a fine appearance.

The procession moved over a short route through the streets of Easton, as had been previously announced, and then marched over the Bushkill bridge and up the road to the college grounds.

Over the gate leading into the college grounds, the Lafayette Fire Company had erected an arch trimmed with evergreens and flowers. It bore in large letters, the names

LAFAYETTE—PARDEE.

Upon the bases on which it rested were the words,

JUNKIN, 1832. CATTELL, 1873.

Some verses of Scripture were inscribed on the keystone of the arch, the 17th, 18th and 19th of the sixth chapter of I Timothy.

All the afternoon crowds of people had been pouring up College Hill. They crowded Jenks' Hall, they filled the new building, and were scattered over the campus. The crowd around

Pardee Hall was numbered by thousands. A procession had been formed at the College Chapel of the undergraduates, the Faculty and the Trustees of the college. At its head, side by side, walked President Cattell and Mr. Pardee. It moved toward the entrance of the college grounds, where it met the procession from town, and escorted it through the college grounds. The procession moved around Pardee Hall, and halted at the front of the building. President Cattell, Mr. Pardee and the distinguished guests advanced to the elevated plateau immediately in front of the entrance, while the procession from town passed in review. An immense assemblage had now gathered about the front of the building. The balconies and windows of the edifice were filled with ladies and gentlemen, as were also those of the adjoining college buildings.

As soon as quiet was restored, the simple ceremonies of delivering over the building into the possession of the college authorities began. Mr. Pardee, in a modest address, handed over the keys to President Cattell. He said:

The completion of this building makes it my very pleasant duty, on behalf of the Building Committee, and myself as the donor, to formally present it to you, as the representative of the Trustees and Faculty of Lafayette. The building itself speaks of the skill and taste of the architect, the faithfulness of the builder, and the care with which it has been supervised during its erection. Our responsibilities have not been small; but on you, sir, and on the students who shall go out, year by year, from these halls, rests a far larger responsibility—the reputation of the institution. But, looking to the future by the light of the past, we rest the responsibility on you with no misgiving. I have the honor, sir, of now presenting you with the keys of the hall.

After the tumultuous cheering that greeted Mr. Pardee had ceased, President Cattell responded as follows:

In receiving from you the keys of the building for the scientific department of the college which you have so munificently endowed, I can find no words adequate to express my own thanks, or the thanks of my colleagues in the faculty, for this grand addition to their means of attractive and thorough teaching and of their own scientific researches, or the thanks of the trustees and patrons and friends of education who see in such a large and unselfish use of wealth, for the benefit of mankind, the noblest use to which it can be applied. And I know you, sir, so well, that I am sure the less I say to you on an occasion so public, the better you will be pleased. I shall, therefore, only assure you that our hearts are full of gratitude for your munificent gift and for your wise and judicious counsels, under which the college has grown and prospered, and that we and our children

will not cease to cherish and honor your memory, and that our heartfelt prayer to the Giver of every good and perfect gift is for His richest blessings to rest ever upon you and yours.

The whole assembly, with one voice, then united in singing the Doxology, "Praise God, from whom all blessings flow." When the last echo of the grand old hymn had died away upon the air, the venerable Dr. Coleman, professor of Latin in the college, invoked the blessing of God upon the institution and the man who had so munificently endowed it.

Ex-Governor Pollock then introduced Governor Hartranft, who was greeted with loud cheers. The governor thought that this was a proud day for Easton and the college. It was a proud day for him to be present and see the keys handed over by his liberal-hearted friend, Mr. Pardee, to the president of the college. He had not had the pleasure of close association with the college, but from what he had seen of President Cattell, his executive ability, his energy and his enterprise, he was satisfied that the magnificent gift of Mr. Pardee had fallen into good hands. He spoke at length of the necessity of a scientific education. He advised young men not to go forward too rapidly in life, and to select their professions with care. If there were more men in active life of the character of Mr. Pardee the world would be better. The donor of the hall had unconsciously erected a monument to himself which would endure throughout time.

The next speaker was Edward H. Green, Esq., president of the borough council of Easton, who was warmly greeted. He said he was not a public speaker, and if he were, he would not detain the vast assemblage at this time with any extended remarks. He would simply say that, on behalf of the citizens of Easton, he would congratulate the college on the princely gift they had received that day from Mr. Pardee.

He was followed by Major A. B. Howell, chief burgess of Easton. He said that to him this was a double pleasure. He felt a proud interest in the occasion, both as a graduate of the institution and as a citizen of Easton. He rejoiced that the college had been founded in our midst, not simply on account of the material advantages, but for the educational, literary and religious influences that flowed from her. The college held out before all men the maxim, "The fear of the Lord is the beginning of wisdom." We dedicate this building to-day. We hope that these

halls may send forth men who, by their living and dying, may prove that this trust was committed to a worthy charge. (Great applause.)

Mr. Edward F. Stewart, president of the Easton board of control, next appeared before the audience. He stood here as a representative of the college, being an early graduate. But he represented more directly the public school system. It had been said that there was a connection between the public school system and the college. He thought that this was so. In a country like this it was essential that every man should at least have the elements of an education. A great republic could only be sustained by the intelligence of its people. The workman might not be better qualified to drive the plow or wield the hammer, but he would represent manhood. (Continued cheering.)

A brief and stirring address followed from Ex-Governor Pollock, who said that he was never so inspired before to battle in the cause of education as he had been to-day.

Several speakers followed in short, enthusiastic addresses, among whom were Hon. J. P. Wickersham, LL.D., superintendent of public instruction in Pennsylvania; the Rev. Dr. John Harris Jones, president of Trevica College, South Wales, and Rev. Dr. Robert Knox, of Belfast, Ireland, delegates to the Evangelical Alliance recently held in New York; and Hon. B. G. Northrup, secretary of the Connecticut Board of Education. Hon. Heister Clymer, of Reading, Pa., made a brief but eloquent address. Rev. Dr. Charles S. Robinson, of New York, spoke in his usual felicitous manner. Dr. A. J. Woeikof, secretary of the Meteorological Committee of the Imperial Geographical Society of Russia, who had come to the college to visit the lamented Dr. Coffin, gave his tribute to the extended learning and great usefulness of Lafayette's deceased professor of mathematics and astronomy.

In introducing Ashbel Welch, of New Jersey, the distinguished civil engineer, and member of the board of examiners for the Pardee Scientific Department (who made a short but excellent address), President Cattell gave a brief historical sketch. He said that one day, about forty years ago, a young lad was plowing in his father's fields in Rensselaer county, in New York, when he received a letter. He opened it, and found the offer of

a position as rodman, down in New Jersey, with Mr. Welsh. He left home to take it the very next day, bringing with him the fortunes of Lafayette! He (Ario Pardee) came to this valley about the time the college was started. The speaker told of the unostentatious way in which the gift of $20,000 was put in his hands in 1864, which was followed by still larger sums, from time to time, as successive additions were made to the Scientific Department, until the amount given by Mr. Pardee was nearly half a million. He also spoke of his valuable service as a trustee, in which capacity he had shown great delicacy in always refraining from giving any sign of the great indebtedness of the institution to him. He closed with the remark that his heart was too full to speak of the respect and love he felt for him.

Rev. E. Ferrier, president of the Alumni Society, was called upon to respond for the Alumni of Lafayette, President Gilman, of the University of California, for the educational institutions of the Pacific coast; and for the American Institute of Mining Engineers, David Thomas, of Catasauqua, its first President and the Nestor of practical science in the Lehigh Valley.

The long metre doxology was sung, and at dusk the exercises were closed with the benediction by Rev. Dr. Hunt.

HISTORICAL SKETCHES

—OF—

LAFAYETTE COLLEGE.

HISTORICAL SKETCHES

OF

LAFAYETTE COLLEGE,

WITH AN ACCOUNT OF ITS PRESENT ORGANIZATION AND COURSES OF STUDY.

BY

W. B. OWEN, A. M.,

Adjunct Prof. of Ancient Languages, Lafayette College.

PREPARED AT THE REQUEST OF THE U. S. BUREAU OF EDUCATION.

EASTON, PA.,
1876.

Extract from the Minutes of the Trustees of Lafayette College, January 26, 1876.

The United States Bureau of Education, having requested the Colleges of the United States to prepare, during the Centennial Year, sketches of their history, with an account of their present organization, courses of study and other matters of interest to the friends of education: *Resolved*, that Prof. W. B. Owen be requested to prepare such sketches, &c., of this Institution, and that the same be published under the direction of the Prudential Committee.

HISTORICAL SKETCHES

OF

LAFAYETTE COLLEGE.

The early history of Lafayette College, though within the memory of many persons yet living, seems already to her younger sons to belong to the olden times. We must go back more than fifty years to find the humble beginnings of what we now see. Easton was then a thriving town of about twenty-five hundred inhabitants, and was quite remarkable in at least two respects, the marvellous beauty of the scenery, of which I shall have occasion to speak again, and the culture and literary taste that characterized its society. Its Clergy were conspicuous for scholarly attainments. The Bar was known all over the State for the learning and ability of its members. It was also the home of many persons distinguished in public life, such as George Taylor, one of the signers of the Declaration of Independence; George Wolf, Governor of Pennsylvania; Samuel Sitgreaves, U. S. Commissioner to Great Britain under President Adams; James M. Porter, Secretary of War under President Tyler; Governor A. H. Reeder; Richard Brodhead, U. S. Senator, &c. The intercourse of such able and scholarly men was the expression of their intellectual life and taste, as well as of their social instincts, and it seems natural that the thought should arise in their minds of making Easton a seat of learning by founding an Institution for the higher education.

FIRST ORGANIZED MOVEMENT.

The first organized movement to establish a College, was a meeting held on the evening of December 27th, 1824, at White's Hotel, in the N. E. Corner of the Public Square. Due notice had been given,

and a large number of the public-spirited citizens came together to talk the matter over. Col. Thomas McKeen* presided at the meeting. After full discussion it was unanimously voted, "That it is expedient to establish at this place an institution of learning in which the dead languages and the various branches of education and science usually taught in colleges, together with the French and German languages, civil and military engineering, and military tactics shall be taught." The introduction of the military feature was not unnatural to these men about whom the memory of the old wars still clung: the second war with Great Britain was not further from them than the late civil war is from us, and these founders of the new institution of learning had been taught, as the paper adopted at the meeting declares, that "a freeman's arm can best defend a freeman's home," and that the well-instructed citizen should not only know his rights but should also know how to defend them.

And then the question arose about a name for the new institution. It will be remembered that General Lafayette had landed in New York City on the Sixteenth of August previous, on his last visit to the country he had so nobly served. His progress throughout the land was marked by one continued ovation, and these citizens of Pennsylvania not unmindful of the wounds he had received on her soil, resolved, "That as a testimony of respect for the talents, virtues and signal service of General Lafayette in the great cause of freedom, the said institution be named LAFAYETTE COLLEGE."

That these men were in earnest in this matter and were fully resolved to carry into immediate execution the project they had formed, is seen in the last of their resolutions, viz.: "That James M. Porter,† Joel Jones,‡ and Jacob Wagner,‖ be a committee to

---

*Col. McKeen was of Scotch descent, but born in the North of Ireland on the 27th of June, 1763. He came to America in his twentieth year, and settling in the vicinity of Easton, engaged first in teaching and afterwards in mercantile pursuits. In 1815 he accepted the Cashiership of the Easton Bank, of which he became President at the death of Mr. Samuel Sitgreaves in 1826. The latter position he held till 1851. Eminent in business circles, Col. McKeen was also a leading man in many enterprises that bespeak the large heart and liberal mind of the Christian citizen. He was for many years Treasurer of the Board of Trustees of Lafayette College, and one of the most liberal of its early friends. He died in 1858, in his ninety-sixth year.

†James Madison Porter, to whom more than to any one person, Lafayette College owes its origin, was born near Norristown, Pa., January 6th, 1793. His early education was carefully conducted up to his preparation for the junior class,

draft a memorial to the Legislature for a charter of incorporation, and for legislative aid."

THE VIEWS OF THE FOUNDERS.

These gentlemen accordingly prepared a memorial to the Legisature in which they briefly set forth the history of the movement, and develop more at length their plans. It was not their design

---

with the intention of entering the College of New Jersey, at Princeton. This purpose, however, he abandoned, and read law in Reading, Pa., with his brother, then President Judge of the Third District, and was admitted to the bar April 23d, 1813. He first located in Philadelphia, remaining till 1818, after which, until his death, he resided at Easton. In a few years he stood at the head of the bar in legal and forensic ability, although still comparatively a young man. In 1837–38 he was one of the foremost members of the convention for revising the Constitution of Pennsylvania. He was President Judge of the Twelfth Judicial District from June, 1839, till July, 1840. Under President Tyler's administration, he was for some time a member of his Cabinet as Secretary of War. In 1849 he was elected a member of the State Legislature. In spring of 1853 he was elected President Judge of the Twenty-second District, but on account of ill health he was obliged to resign early in 1855. From this time he pursued the practice of law until his death, November 11th, 1862. In 1843 he received from Marshall College the degree of Doctor of Laws. He was for twenty-five years President of the Board of Trustees of Lafayette College, and for many years, also, Professor of Jurisprudence and Political Economy. His reputation as a man of great learning and eminent legal ability drew many young men whose names appear in the catalogues of that period as students of law.

‡ Hon. Joel Jones, LL.D., was a native of Connecticut, born in Coventry, October 26th, 1795. At the age of fifteen he went to Hebron and engaged in business with his uncle. It soon became evident, however, that this mode of life was not suited to his intellectual tastes and aspirations. In the midst of his work he prepared for Yale, where he was admitted to the Freshman class in 1813. After graduating with high honor, he commenced the study of law with the late Judge Bristol of New Haven, and afterwards finished at the Law School in Litchfield. After the completion of his studies, he resided for a short time in Wilkes-Barre, Pa., whence he removed, in 1822, to Easton. He rose rapidly at the bar, acquiring a wide reputation for learning and ability. He was appointed by Governor Wolf one of the three Commissioners to revise the laws of Pennsylvania. In 1834 he removed to Philadelphia, and became President Judge of one of the city Courts. From this post he was called to the Presidency of Girard College, and was afterwards elected Mayor of the city of Philadelphia. He died February 3d, 1860.

Judge Jones was a man of fervent piety and of remarkable attainments in various fields of learning, in theology and biblical criticism, in languages Oriental, ancient and modern, as well as in jurisprudence.

‖ Jacob Wagner, son of Judge Daniel Wagner, one of the early settlers of the

that the tactical parts of a military education should curtail the usual course of College studies, but on the contrary, by thus providing judicious and healthful modes of spending leisure, they hoped to increase the efficiency of the literary departments.

The original scheme contemplated a preparatory course, that students might be received with no other previous qualifications than the rudiments of an English education; the whole course to require seven years, which however they hoped to shorten by improved methods of instruction.

In reference to the department of Language and Literature, their words are so suggestive as containing the prophecy if not the germ of the present course in English studies, (of which I shall speak at length hereafter,) that the following sentences possess a peculiar interest:

"An addition will be made to the language course usually adopted. In this branch, students commonly limit their attention to the dead languages. This is to be regretted. The living languages certainly have some claims to attention which the dead have not. Particularly is it to be regretted that after acquiring the Latin, the Romanic dialects of modern Europe should not receive that small portion of time which is necessary to acquire them. But the language most neglected in our seminaries of learning is the English. It is, we think, one of the follies of the learned to expend time and toil and money in the minute investigation of the languages of other times and other people, at the expense of omitting the equally curious and more useful investigation of their own. The Anglo-Saxon, the German, the Danish, the Swedish, &c., ought long since to have been made a part of the education of our youth. Lest we should be thought to prescribe a course impracticable within a reasonable time, we will add that the period usually allotted to the Latin and Greek merely, would be, under a proper method of instruction, amply sufficient for the acquirement of all we have mentioned."

At that time the only chartered colleges in Pennsylvania, east of the Alleghanies, were the University at Philadelphia, and Dickinson College at Carlisle. The latter, (founded 1783,) had been compelled by financial embarrassment to close its doors. The former, by reason of the greater temptations of the city as well as

---

place, was a native of Easton, born in 1799. Though a young man at the time of the founding of the College, he was made a member of the Board of Trustees, and for many years took a prominent part in their deliberations and labors. He was an influential and public-spirited citizen, whose culture and learning no less than his eminent social and business qualities contributed to give him a high position in the community. Those who knew him speak with special warmth of his attainments in literature and of his studies in mineralogy and botany, in which sciences he made valuable collections. He died in 1858.

the greater cost of living, was objectionable to remote rural sections; and it was felt to be a serious hindrance to the cause of liberal education, that young men must be sent to the distant Colleges of other States. Ease of access from those parts of the State which the College was originally designed to benefit, the abundance and cheapness of the means of living, together with the healthfulness of the situation and its excellence as a field for botanical and mineralogical research, were the main points favorable to the location at Easton.*

THE CHARTER GRANTED.

The Legislature granted the charter† March 9th, 1826. It was signed by Joseph Ritner, Speaker of the House of Representatives, Alexander Mahon, Speaker of the Senate, and J. A. Shultze, Governor. The charter vested thirty-five persons therein named,‡

---

* Fifty years of change and development have abundantly proved the wisdom of this choice. LAFAYETTE now receives students from all over the Union instead of from a limited portion of Pennsylvania; but the location could not be changed for the better, even in view of this wider sphere of patronage. Easton is situated at the confluence of the Delaware and Lehigh Rivers, toward the northern terminus of the Cumberland Valley, in a region so fertile and beautiful, so rich and productive in varied resources that it may well be called the garden of the Atlantic slope. It has become an important point on the great highways of travel between New York and the West and North-west. Instead of the two days' journey by stage to New York, when the College was chartered, there are now three different lines of railroads between the two cities, aggregating fifteen daily trains, and the "express" time, less than three hours. There are now nine daily trains to Philadelphia—time by the express, two hours and a quarter. The railroad communication with the West and North-west is also most ample; so that for ease of access from every part of the country the place is all that can be desired. The Lehigh, in its upper course, winds its way among hills stored full of coal, iron and slate, and the more recent development of these resources has made the city an industrial center, presenting rare facilities for the pursuit of technical and practical branches which are now embraced in the courses of study at the College.

† Not, however, without opposition. The project to establish "another college" did not commend itself to all the Solons of that day. In Henry's history of the Lehigh Valley it is stated that among others opposing the charter of Lafayette College was Mr. Herster, who stoutly objected to the study of the dead languages, "which," said he, "adds no more to scientific knowledge than the croaking of frogs."

‡ The Charter Trustees were Robert Patterson, John Hare Powel, Peter A. Browne, Andrew M. Prevost, Benjamin Tilghman, Silas E. Wier, and John M.

with the usual powers of a College, and to fill vacancies in their board by election. It provided, "that there shall be forever maintained in the said College, a Professorship of the German Language, and in addition to the usual course of collegiate studies, there shall be taught in and at the said institution, military science and tactics, and civil and military engineering."

THE COLLEGE ORGANIZED.

The Board of Trustees met for organization as directed in the charter, May 15th, 1826. James M. Porter was elected President, which position he held for twenty-five years, Joel Jones, Secretary, and Thomas McKeen, Treasurer. A committee was appointed to prepare and publish an exposition of the plan and purposes of the institution, and the Board at once, through its committees, entered upon measures to secure a President and Faculty, and to raise funds for the erection of suitable buildings, and for the purchase of apparatus, library, etc.

But their success was far from encouraging. The Legislature had not voted them the desired aid, and it must be remembered that the region was comparatively new, and the people upon whom they mainly depended for contributions were too busy working up its material resources to give much attention to intellectual improvement. But the fathers of Lafayette never gave up. This indeed is the heroic element in the labors of those who founded the College—their unwavering faith in the nobility and ultimate success of their work.

In August, 1827, the Trustees made overtures to "The American Classical and Military Lyceum" at Mount Airy, to remove the Institution to Easton and conduct its operations under the new charter. They assured the gentlemen in charge of that Institution that Lafayette College "should ultimately be inferior to none in

---

Scott, of the city of Philadelphia; Samuel Sitgreaves, Thomas McKeen, Peter Miller, Philip Mixsell, Jacob Weygandt, Jr., John Bowes, James M. Porter, Christian J. Hutter, Jacob Wagner, George M. Barnet, John Carey, William Shouse, Peter Ihrie, Jr., J. Worman, Joel Jones, J. R. Latimore, Thomas J. Rogers, Joseph K. Swift, George G. Howell, Peter S. Michler, Jesse M. Howell, Philip H. Mattes, George Hess, Jr., Jacob Kerr, George Weber, and Anthony McCoy, of the county of Northampton; Walter C. Livingston, of the county of Lehigh; and William Long, of the county of Bucks.

our country," and they dwelt with enthusiasm upon its prospects, "the surrounding country so populous, picturesque, fertile and salubrious; so rich in mineral and botanical productions; the necessaries of life so abundant and cheap;" but the trustees of the American Classical and Military Lyceum replied by the next mail, recounting greater and more substantial advantages already secured by them and therefore "declined to abandon such advantages for mere expectations at any other place."

ELECTION OF PRESIDENT.

It was not until the next year that the Trustees made the first formal offer of the Presidency. In February, 1828, Professor List of Reading was elected President of Lafayette College. This eminent scholar responded promptly, "I would not hesitate to connect myself with the Institution immediately, had I not entered into various engagements which make it impossible for me to do so." He recommends, however, in the strongest terms, Dr. Jaeger,* who had recently arrived from Germany, and negotiations were accordingly entered into with him, but without success.

In January, 1832, Dr. John Gray† named to the committee Rev. George Junkin, A.M.,‡ "as a gentleman eminently qualified to take charge of the institution." Mr. Junkin at that time had charge

---

* Benedict Jaeger, subsequently Professor at Princeton College.

† Rev. John Gray, D. D., was born in the county of Monaghan, Ireland, in December, 1798. He pursued his studies at the University of Glasgow, and subsequently studied theology under the distinguished Dr. John Dick. In 1820 he came to America, and for some time preached in the province of New Brunswick; he came to Easton in 1822, and became pastor of the First Presbyterian Church, and continued to minister to this congregation till 1867—a period of nearly forty-five years. He died January 12th, 1868. Dr. Gray was a warm friend of the College, and for thirteen years served as a trustee. He was an able theologian and a scholar of varied culture.

‡ Rev. George Junkin. D. D., LL.D., son of Joseph Junkin, was born in Cumberland county, Pennsylvania, November 1st, 1790. His earliest years were spent on his father's farm, where, by close application to study in the intervals of work, he prepared for college. He graduated at Jefferson College in 1813. After studying theology privately for some time, he entered the Theological Seminary of the Associate Reformed Church, in New York City. Having completed his theological course, he was licensed to preach by the Presbytery of Monongahela, September 13th, 1816. He was soon called to the charge of the United Congregations of Milton and McEwensville, in Pennsylvania, where he

of the "Manual Labor Academy of Pennsylvania," situated at Germantown. The Trustees invited him to come to Easton, examine the charter of the College, its location and prospects. He came accordingly, had an interview with the committee and made the preliminary examinations and inquiries.

On the 6th of February, 1832, the Board appointed Mr. Junkin President of the College, which appointment he agreed to accept if the military requisition of the charter could be dispensed with. This was done by a supplement passed by the Legislature, April 7th, 1832.

THE SITE UPON THE SOUTH BANK OF THE LEHIGH.

The Trustees then leased for two years the farm and buildings belonging to Christopher Midler, for the purposes of the College,

---

remained about eleven years. In 1830 he became Principal of the Manual Labor Academy, at Germantown, one of the first institutions of the kind to go into operation in the United States—the Fellenberg Academy, in Massachusetts, being started about the same time and on the same plan by Prof. James H. Coffin, afterward an associate of Dr. Junkin in Lafayette College. Two years later he became the first President of Lafayette College. In 1841 he accepted the Presidency of Miami University, Ohio, remaining three years, when he again returned to Easton. He was Moderator of the General Assembly in 1844. In the fall of 1848 he again left his "lovely Lafayette," to accept the position of President of Washington College, (now Washington and Lee University,) Virginia. Here he remained until May, 1861, when he resigned the Presidency and removed to Philadelphia. He was now seventy-one years of age, but with force unabated he filled up his remaining days with an activity almost past belief. Among the soldiers, in camp, field and hospital, as a colporteur, a preacher and a writer, he worked on with a marvellous zeal and vigor. He died May 20th, 1868.

Dr. Junkin was a man of acknowledged ability, and profoundly learned, especially in theology and metaphysics. These were his favorite pursuits, in which he excelled both as a student and as a teacher. Men of eminence in Church and State, who sat at his feet during their educational career, give their cheerful testimony to his magnetic power over his students, and to his enthusiasm as well as his profound learning in the subjects which he taught. Of his powers, however, I cannot more fitly speak than in the words of Dr. Breed: "The mind of Dr. Junkin well harmonized with the material home in which it lodged—massive compact and strong. To say that he was a man of talents—of talents of a very high order—is to say the truth, but only a part of the truth. He was a man of genius—with all the force, fire and originality of true genius." Of his qualities of heart Dr. Knox, with equal truth, says: "A man of greater magnanimity, of truer, deeper, tenderer affections, I do not believe ever lived."

and to enable the President to conduct its operations on the manual labor principle. The premises consisted of about sixty acres of land and ordinary farm buildings, situated south of the Lehigh River, directly opposite the borough.

In March, President Junkin came to Easton and began the work of fitting up the College premises. In this he was aided by several of the young men who had come with him from Germantown, and the work was so rapidly pushed that the regular exercises of the College began May 9th, 1832. The session opened with forty-three students, most of whom came with President Junkin. The number soon increased to fifty-six, and there were also during the year eleven "day scholars," making in all sixty-seven students in attendance during the first College year at Lafayette. The first term closed October 10th, with a public examination. The Trustees and other literary gentlemen present expressed themselves highly pleased throughout, and particularly with the work in the mathematical department. On the evening of the same day public exercises were held in the Presbyterian Church. A large assembly was gathered. The Trustees read their first report and orations were delivered by students, representing the Washington and Franklin Literary Societies.

The College was now fairly under way. Many a hard struggle was yet to be endured, but an auspicious opening had been secured by transplanting the Manual Labor Academy, and the Trustees saw a good work going on under faithful hands, and the ultimate success of the enterprise seemed assured. All honor to these noble Fathers of Lafayette!

THE PERMANENT SITE OF THE COLLEGE.

The efforts of the Trustees were next directed towards securing a permanent site for the College. After a careful examination of all the locations suggested, they made a purchase of nine acres of land, (the present site,) for $1400.

A better selection certainly could not have been made. In a region abounding in most charming views, that one point which if possible surpasses all the rest in the lovelines of its outlook was chosen to be the site of the infant College. All the variety of the varied and picturesque scenery which has made the "Forks of the Delaware" celebrated far and wide, lies before this little mount, and can be taken in with a single sweep of the eye. At its foot

the Bushkill winds; on the south and west the Lehigh, whose course may be traced by the steam of locomotives and the smoke of furnaces that line its banks; on the east, the Delaware sweeping its broader current southward; across the city, three miles away are the Musconetcong Hills stretching off eastward into New Jersey as far as the eye can see. On the north, half a mile away, is Chestnut Hill, beyond which and from whose top facing northward, one may overlook a broad and beautiful valley bounded by the Blue Mountains, the even line of whose summit is broken in three places; just in front of the beholder the "Wind Gap," twelve miles away in a direct line; on the right hand "Delaware Water Gap," twenty miles away; on the left hand "Lehigh Gap," twenty-five miles away.

On every side nature has spread her charms with a lavish hand, and art vies with nature to heighten the impressive beauty of the scene. One never tires of looking at it. The students at the end of their College course linger on the brow of the hill with the same enthusiastic delight as at first, nay even with a more profound appreciation of the rich and varied beauties around.

THE COLLEGE EDIFICE.

Preparations were early made for the erection of a suitable building on the new site. The ground was broken by Dr. Junkin himself in June, 1833, and on the morning of the 27th, Judge Porter, President of the Board of Trustees, laid the first stone. One week later, July 4th, the corner-stone was laid with appropriate ceremonies. The local public interest in the event was a marked feature of the occasion. A procession made up of the College authorities, students and citizens, together with the civil and military organizations of the vicinity, was formed at the Court House, (then located in Centre square,) moved at half-past nine, A. M., to the College grounds, where the stone was laid and addresses delivered by Dr. Junkin and and Rev. B. C. Wolf. The procession then returned to the German Reformed Church, where at half-past eleven o'clock, Hon. Joseph R. Ingersoll, of Philadelphia, delivered the oration pursuant to the appointment of the Franklin and Washington Literary Societies.*

*The PHILOMATHEAN Literary Society was founded early (about 1830) in the history of the Pennsylvania Manual Labor Academy at Germantown. In 1831 some dissension arose among the members, the precise nature of which does not

The building was urged on as rapidly as possible during the summer of 1833, and was so far completed as to be ready for occupancy in May, 1834.

The structure (now the central part of South College and one of the most substantial edifices on the Hill,) was 112 feet by 44, with a recess of 17 by 49 feet. The basement, first and second stories of limestone, rough laid, and the third and fourth stories of brick, the whole finished in rough-cast. There were six recitation rooms, a chapel, refectory hall, stewards' rooms, apartments for the President and other officers of the college, and about fifty rooms for the students. The building had an old-fashioned "hip roof" covered with slate, and surmounted with a simple open dome fourteen feet in diameter. Although finished in a style of extreme and severe plainness it was the pride of the town. At its completion it was brilliantly illuminated by the students, who made the day one of great festivity and rejoicing.

---

appear, and a few of them held a preliminary meeting, November 26th, 1831, the final result of which was the founding of the FRANKLIN Literary Society. Afterwards, (1832,) the name of the former was changed from "PHILOMATHEAN" to "WASHINGTON" Literary Society.

These "Halls" have continued in friendly and stimulating emulation, to the present time. The exercises of the weekly meetings are mainly the same as at first, viz.: the reading of original essays and critiques, declamations, debates and original orations. They have occupied since 1834 the two halls on the third floor of South College, which they have elegantly furnished for their purpose, WASHINGTON the west and FRANKLIN the east; and their respective libraries the adjoining rooms. These halls, originally ample in size, have, in the recent growth of the College, become far too small for the comfortable accommodation of the societies, and it is their purpose to erect a building for their use as soon as the needed funds shall be provided.

The BRAINERD MISSIONARY SOCIETY may be noticed in this connection. It was founded February, 1833, and named in honor of Rev. David Brainerd, the illustrious missionary who made the vicinity of Easton one of his stations. The society was organized with a view to promote a missionary spirit among the students, and its influence is seen in the moral and religious tone of the College as well as in the number of devoted men among the Alumni who have consecrated themselves to the work of foreign missions. Until the formation of THE CHRISTIAN BROTHERHOOD, (of which I shall speak in another place,) the daily prayer-meeting in Brainerd Hall, was held under the auspices of this society, and also the system of Sabbath-schools carried on by the students as superintendents and teachers, and now embracing not less than nine schools within a radius of four miles from the College.

INAUGURATION OF THE FACULTY.

The ceremonies of inaugurating the President and Faculty, which had been deferred until the building should be completed, took place May 1st, 1834, in the College Hall. The following composed the Faculty:*

Rev. George Junkin, A. M., President and Professor of Mental and Moral Philosophy, Logic, Rhetoric and Evidences of Christianity.

Charles F. McCay, A. B., Professor of Mathematics and Natural Philosophy.

James I. Kuhn, A. B., Professor of the Latin and Greek Languages.

Samuel D. Gross, M. D., Professor of Chemistry, Mineralogy and Botany.

THE EARLY FEATURES OF THE COLLEGE.

Some distinctive features of the inner life of the institution deserve here a brief notice. With reference to the curriculum, during the first ten years no permanent plan of study appears on the records. I shall however refer to this subject further on.

The Manual Labor System was continued. President Junkin was a zealous advocate of this scheme. Its partial failure at the Germantown Academy he attributed to disadvantages of location rather than to any real defects in plans or principles, and thought to renew the trial at Lafayette under more favorable circumstances. The Trustees entered heartily into his views, and speak in the warmest terms of a scheme which promised such large results, not only in bodily health and the saving of money, but in promoting mental activity and the development of manly independence of character.†

---

*Professor McCay, now an eminent Educator at the South, (University of Georgia,) Professor Kuhn, now a prominent lawyer of Pittsburgh, and Dr. Gross, the celebrated Professor of Surgery at Jefferson Medical College, Philadelphia, are all pleasantly remembered by the early graduates as men of fine scholarly attainments as well as most efficient instructors in their respective departments.

†From the address delivered by invitation of the Trustees at the "First Annual Commencement," by Hon. William Rawle, I take the following extract, as

But notwithstanding these advantages claimed for it, the President was obliged after a thorough trial to admit its failure as a part of the College scheme. He therefore recommended its abandonment, and it was accordingly given up by the Trustees in 1839.

Another feature of the original plan, containing the germ of the present system of State Normal Schools, was the preparation of teachers. The system of common schools was then attracting a good deal of attention throughout the country. The authorities of the College, with the view that the fundamental object of any general school system must be the thorough training of teachers, established as a part of the curriculum of the College, "a teachers' course," designing to issue special diplomas to such students as might graduate in it; and further, if the patronage and public bounty should enable them to do so, to add to the course "A Model School," in which the art of governing and of communicating knowledge might be taught in connection with the various branches of instruction. But it was found upon trial, that the number of young men who looked forward to teaching as a profession and could devote themselves uninterruptedly to the necessary training, was not large enough to warrant the continuance of this department of the College. It was therefore abandoned; but, it may be stated in this connection, that the Trustees of the College have not lost sight of the importance of the thorough training of teachers for their responsible duties. The College catalogue in referring to the different courses of study, speaks of "the special professional study of Theology, Medicine, Law and Teaching," thus recognizing *teaching* as one of the learned professions; and it is the design of the Board, as soon as the funds of the College will allow, to establish a distinct chair for the training of teachers, who at Lafayette will have the benefit of the college culture, with all the appliances of the libraries,

---

showing the prevailing views upon this point: "By a judicious and well arranged union of the arts of industry with scientific and literary studies in their various departments, Lafayette College now offers to the rising generation as extensive a field for intellectual improvement as any of her sister institutions, while the healthful pursuits of mechanical and agricultural labor preserve the youthful constitution from the wasting effects of mental exertion, and at the same time give to the mind that strength and independence which always result from the proud consciousness of self-support. Among those sister institutions she now takes her stand, and this day sends forth into the world her first offspring, to play their part in the great drama of life."

apparatus, scientific collections, etc., afforded by its munificent endowments.

The moral and religious training of the students was a subject upon which the founders of the College felt deeply, and to which they made frequent reference in their published reports. The Bible was carefully studied, and punctual attendance at morning and evening prayers, and at Divine Service upon the Lord's Day was required of all the students. Morning prayers were at five o'clock, winter and summer; and upon the Sabbath, these early devotions were immediately followed by a Bible-class. "This exercise," says the Fifth Annual Report, "generally occupies an hour. It is exegetical, didactic, polemic and practical." At evening worship "such of the students in order as are willing to officiate are called upon to lead in prayer."

The government of the College was administered on the principle of strict and systematic vigilance. Dr. Junkin was a man kindly but severe, authoritative and with a wonderful force of personal presence. From his private apartments one door opened into the refectory, where all the students ate "under the eye of one or two professors," and which was rightly considered one of the most difficult departments to govern; another door led to the prayer hall. The residence of the other members of the Faculty was also managed with a view to "facility of access," and arrangements made for frequent visits to the rooms of students in order, as the early catalogues say, "to keep up a perpetual vigilance over the whole." Under this system of strict supervision, and perhaps by reason of it, there grew up some peculiar phases of student life almost unknown to us now-a-days, except through vague traditions. The ways they had of circumventing the watchful Faculty, their tricks and pranks, their midnight noises, their sudden detections and marvellous escapes, their rebellions, trials and punishments, all this would make up a chapter in the early history of Lafayette of great interest, at least to the present generation of students.

But, withal, this severe surveillance had a tender side. It assumed a certain waywardness of the young men, but its aim was to provide healthful moral restraints; and it was true then of the College, as it has been for the most part throughout its history, that the high moral and religious tone was such as to commend it warmly to public confidence as a place where young men may safely spend the most decisive period of life. A very large portion of

the students were professors of religion representing various denominations, and many of these looking forward to the Christian ministry; so that independently of the pastoral oversight of the President and the religious care of instructors, there was that best of all influences growing out of the voluntary association of earnest Christian young men.*

PRESIDENT JUNKIN'S RESIGNATION.

Dr. Junkin resigned the Presidency in 1841, to accept the Presidency of Miami University, Ohio. He was however recalled in 1844,† and remained at the head of the College until 1848, when he again resigned and assumed the Presidency of Washington College, Virginia.

Even this brief history would be incomplete without a grateful record of his laborious and self-denying efforts for the College during the thirteen years he was President. Few ever toiled with more enthusiasm and at times with greater discouragement, to accomplish a cherished object. In one of his published Baccalaureates he compares the progress of the College to that of a "traveller who spends his long and toilsome day in passing from mountain crag to mountain crag without appearing to have gained much either in elevation or distance;" and he adds, not without a tone of sadness, "shelving crag indeed and rolling rock, and mountain torrent, and chilling iceberg, and deep dark ravine we have encountered." Indeed, there were times when his strong, brave heart failed and his purpose seemed to falter. He refers in a letter published January 7th, 1864, to one special period of depression, in 1837, when he called a meeting of the friends of the College in Philadelphia, and "submitted to them the question of his abandoning the enterprise in which he had been engaged for nearly seven years. He stated his entire willingness to cease all efforts for the establishment of Lafayette College, if the present meeting should

*One of the early catalogues referring to the "evidence of a good moral atmosphere" in the fact that no case of discipline had occurred at Lafayette during the year, adds, with pardonable enthusiasm, "Blessed is that College whose laws are lost sight of by becoming incarnate in the hearts of all its members!"

†His letter accepting the reappointment is characteristic of the man, prompt, generous, enthusiastic. "Most gladly do I accept," says he, "the appointment to which the kind partialities of your Board has called me!" and in concluding his letter he anticipates with enthusiasm "being among a people who have more than fully appreciated our work and services and who have *hearts* within their bodies!"

so advise." But fortunately all these friends* opposed the abandonment, and cheered by their words he returned to his toil. The records and publications of the College, as well as his memoirs, bear testimony to the same ardor and zeal and the same heroic struggling with difficulties until his second and final relinquishment of the enterprise in 1848. He never ceased, whether absent or present, to cherish the College in his heart. In 1842, when President of Miami University, he delivered the Commencement Oration, by invitation of the Literary Societies, and in his letter forwarding the MS. at their request for publication, he refers with his accustomed ardor to "lovely Lafayette" (as he was wont to term it,) "around which the fondest affections of this parent heart still cling." Although his second resignation was occasioned or hastened by personal difficulties with certain members of the Board, (of which this is not the time to speak,) there was no permanent alienation of his interest or of his affections, and when he returned north in 1861, he renewed at once the associations of his earlier years. Many of the more recent Alumni will recall his venerable form upon the platform, year after year, at Commencement and at other public exercises of the College. He rejoiced at the wonderful growth of the Institution, over the first beginnings of which he had watched with such earnest solicitude, and the papers relate how at the Commencement in 1865, when called upon to pronounce the benediction, he advanced to the front of the platform and pointing through the open windows to the new buildings that crown College Hill, said with a voice trembling with emotion and that thrilled the whole audience, "all that this fond heart of mine ever dreamed for lovely Lafayette is fast being accomplished, and I am ready to say, Lord, now lettest thou thy servant depart, for mine eyes have seen thy salvation."

It should be added that for the last three years of his life the name of Dr. Junkin again appears upon the College catalogue: "Emeritus Professor of Political Economy."

---

*Among these, Dr. Junkin especially mentions Dr. Archibald Alexander and Dr. John Breckinridge. Dr. Alexander was most earnest in his opposition to giving up the enterprise. Referring to the college at Princeton, of which he was a Trustee, he said: "There is no danger of injurious competition, but probable benefit from the kind of rivalry which may spring up. I should be very sorry to see the ground at Easton abandoned and the labor lost. *It must not be!*"

COLLEAGUES OF DR. JUNKIN IN THE FACULTY.

Among the eminent scholars associated with Dr. Junkin in the Faculty at Lafayette, besides those already mentioned, there are still living, Dr. Traill Green, elected Professor of Chemistry, 1837, and who is still with us, loved and honored; Rev. Robert Cunningham, of Scotland; Rev. James C. Moffat, D. D., afterwards Professor at the College of New Jersey, and now in the Theological Seminary at Princeton; Rev. David X. Junkin, D. D.; and Rev. Wm. Henry Green, D. D. LL.D.,* a graduate of Lafayette, (class of 1840,) and now Professor of Hebrew and Oriental Literature in the Theological Seminary at Princeton. Among the learned dead are such men as Washington McCartney, LL.D.,† a man of wonderful learning and genius, of whom the older Alumni delight to speak, and James H. Coffin, LL.D.,‡ whose lamented death in 1873, after a

---

*Professor Green was elected President of Princeton College in 1868. It was noted with pleasure by the friends of both Princeton and Lafayette that each College had furnished to the other its President—Dr. Cattell, at that time President of Lafayette, being a graduate of Princeton College. Dr. Green, however, preferring the duties of his Professorship in the Theological Seminary, declined the position offered to him in the College.

† Hon. Washington McCartney, LL.D., was born in Westmoreland County, Pennsylvania, on the 24th of August, 1812, and died July 15th, 1856. He graduated with the highest honors, at Jefferson College, in 1834, and was the next year appointed Professor of Mathematics in Lafayette College. In 1836 he accepted the Professorship of Mathematics and Modern Languages in Jefferson College, but soon returned to Easton and resumed his position at Lafayette, August 15th, 1837. With some intervals he held his position in the Faculty till 1853, (from 1849 to 1853 as Professor of Mental and Moral Philosophy,) during which time he published his celebrated work upon "Differential Calculus," which for many years was the text-book on that subject used in our best colleges. The honorary degree of LL.D., was conferred upon him by Marshall College in 1852. He was admitted to the bar of Northampton County, Pa., January 18th, 1838, and was elected President Judge of the Third Judicial District in 1851, and held the judgeship until his death. The brief inscription upon his monument in the Easton Cemetery—"SCHOLAR, JURIST, CHRISTIAN"—well describes this remarkable man.

‡ James H. Coffin, LL.D., was born in Williamsburg, Mass., on the 6th of September, 1806. He graduated at Amherst College in 1828, and the year following established, at Greenfield, Mass., the Fellenberg Manual Labor Institution, which for eight years continued to be one of the rarely successful instances of this system in our country. He afterwards became the Principal of the Ogdensburg (N. Y.) Academy, and in 1839, a member of the Faculty of Williams

faithful service of twenty-six years, is still felt as a recent bereavement. Prof. Coffin is well known to the world as a gifted scholar. Professor Henry and other eminent scientists at home and abroad have spoken of him in the warmest terms as an admirable example of a successful investigator, whose labors have contributed most valuable results to the fund of human knowledge; but we students knew him best as a teacher and as a man. As a teacher his faithfulness was a proverb; and he threw into his work that vigor and enthusiasm which rarely fails of success. As a man he was kind, and noble and good, beyond any power of my words to tell it. Everybody loved him. He had some personal peculiarities, but he was loved even for these, for they were not the outgrowth of faults, but only the excesses of his virtues, of his great kindness of heart and strict integrity of character. A grand life indeed! a beautiful one too, beautifully mellowed and moulded by Christian gifts and graces. There was no phase of it that would do violence to one's best ideal of manhood. The world misses him, but none more than those who knew him best.

PRESIDENT YEOMANS.

In Dr. Junkin's letter tendering his first resignation, December 25th, 1840, and which the Board accepted with the expression of their "gratitude for his able and faithful labors," he urges, with a thoughtful regard for the interests of the College, that "immediate measures be taken to fill the vacancy hereby created, as I know that the hope of keeping the students together will depend much upon speedy action." Accordingly the next week the Trustees met for the purpose of electing a successor, and the names of no less than eight candidates urged by their friends were placed upon the records of

---

College. In 1846 he became Professor of Mathematics in Lafayette College, where he remained till his death, February 6th, 1873.

Professor Coffin was an eminent scholar, a diligent and fruitful worker in Mathematics and the sciences, particularly in the department of Meteorology. His work in this field he carried on from the time of his graduation, even in the midst of his constant labors as an educator. He was fitted for it by the best gifts of heart and head. A man of clear, strong and candid mind, of scrupulous integrity of character, of conscientious regard for accuracy in the execution of his work, and above all, a lover of the truth for its own sake. His great work, "The Winds of the Globe," almost completed at the time of his death, is now published under the auspices of the Smithsonian Institution.

the Board. It was not, however, till a month afterwards, (January 26th, 1841,) that an election was had, when Dr. Alexander T. McGill, then Pastor of the Reformed Presbyterian Church at Carlisle, now Professor in the Theological Seminary at Princeton, was unanimously chosen President of the College. Upon his declining the appointment, as the records of the Board say, "being very much urged by his congregation to remain in his present situation," the Rev. James W. Alexander, D. D., then Professor at Princeton College was by a unanimous vote offered the Presidency. He also declined, (his letter stating "that his health would not permit him to accept,") and at the next meeting of the Board the Rev. John W. Yeomans, D.D.,* then Pastor of the Presbyterian Church of Trenton, New Jersey, was elected, and to the gratification of all the friends of the College accepted the situation and was inaugurated August 18th, 1841.

Dr. Yeomans was a ripe scholar, an able teacher, and a stern officer. His administration was not marked by any great progress, or by anything that lifted it out from the even tenor of that period,

---

*John William Yeomans, D. D., was born in Hinsdale, Massachusetts, on the 7th of January, 1800. When quite young he served some time as an apprentice, but soon turned his attention to study and commenced his preparation for college under the direction of the Rev. Dr. Cummings, of Albany, N. Y. After the short space of a year and a half spent in preparatory study, he entered the junior class of Williams College, Mass. He graduated in 1824 with the second honor in his class, Mark Hopkins, (afterwards President) being the first. For two years he was Tutor in the College, after which he studied Theology in the Seminary at Andover, Mass. His first pastoral charge was at North Adams, Mass., where he remained from November, 1828, till the spring of 1832, when he became pastor of the First Congregational Church of Pittsfield, Massachusetts. In the spring of 1834 he was called to the First Presbyterian Church of Trenton, N. J., as successor to the Rev. Dr. James W. Alexander. In the spring of 1841 he accepted the Presidency of Lafayette College, remaining until the early part of the year 1845, when he became pastor of the Mahoning Church, in Danville, Pa., where he continued in the discharge of his ministerial duties until his death, June 22d, 1863. Dr. Yeomans was a deep thinker and a vigorous and able writer. He was regarded as one of the leading Theologians in the Presbyterian Church, and as a Metaphysician, he had probably but few equals among his brethren. The degree of Doctor of Divinity was conferred upon him by three different colleges at the same time,—the College of New Jersey, Williams College and Miami University. In 1860 he was elected Moderator of the General Assembly.

but it was a time of transition and therefore of more vital importance than would appear in the mere outward history. The College was freeing itself, one by one, from the experiments of its early history and settling more and more into tried collegiate ways, an experience that severely tested the faith and endurance of the President and of those who so nobly devoted themselves to its interests. Among these changes may be mentioned the recent abandonment of the manual labor plan. Though a step plainly necessary it was nevertheless regarded with much disfavor by a large class of patrons, particularly those upon whom the burden of self-support bore heavily. Although the necessary expenses of the College course even at the maximum were remarkably light, a great many of the young men were in such circumstances that even the slight aid afforded by this system was a matter of great importance.

Dr. Yeomans resigned in 1844. At the same meeting at which his resignation was accepted, September 7th, Dr. Junkin was unanimously re-elected to the Presidency and held the office as before mentioned until September 19th, 1848, when he resigned to accept the Presidency of Washington College, Lexington, Virginia.

DR. NASSAU, PRESIDENT-ELECT.

Upon the resignation of Dr. Junkin in 1848, Rev. Charles W. Nassau, D. D.,* Vice-President of the Faculty, assumed executive charge of the College. Dr. Nassau was indeed President-elect from March 13th, 1849, but to the great regret of the friends of the College was never inaugurated, and resigned in September, 1850. It was not at all due to any want of executive talent or of scholarly ability in this worthy man, that the College was in 1849 and 1850 greatly embarrassed in its condition and prospects. In the fall of 1848 when the College year opened, it was without a President, and to aggravate its difficulties and to threaten even its final overthrow, some parties holding its loans began to press their claims at the law,

*Dr. Nassau is the only one of the Ex-Presidents of the College who still survives. After leaving Lafayette in 1850, he took charge of a Young Ladies' Seminary at Lawrenceville, N. J., which prospered greatly under his able administration. From this position he withdrew in 1875, and is now living in retirement at Trenton, N. J. An event of great interest to his family and numerous friends, was the celebration of his Golden Wedding in May last, an account of which appeared in the Lafayette College Journal for that month.

so that against the slow but steady increase of the preceding years, there was from the time of Dr. Junkin's resignation a very marked falling off in the patronage. The number in attendance in the four College classes fell from 82 in 1848, to 25 in 1850. This was sapping the life-blood of the College. Without any resources in the way of a permanent endowment, the income of the College from tuition fees, inadequate at the best, became almost fatally so at any considerable decrease of the number of students. It seemed indeed to many, as if the College must be closed.

THE COLLEGE CONNECTED WITH SYNOD OF PHILADELPHIA.

At this period the question of Parochial Schools, Presbyterial Academies and Synodical Colleges was exciting general interest throughout the Presbyterian Church. In these discussions that eminent Divine, Dr. Cortland Van Rennsalaer, Secretary of the Board of Education took a prominent part, urging the scheme by popular addresses and numerous publications. Other men, among the most distinguished in the church, earnestly advocated the plan,* and it seemed to the Trustees as if this scheme afforded a guarantee not only for the permanence of the College, but for its increased usefulness. Although it had hitherto been "undenominational," its Presidency had always been occupied by Presbyterian ministers and nearly all of its Professorships by members of the Presbyterian Church. Most of its benefactors and patrons were also members of this denomination,† and it seemed to require only a slight change to make the College avowedly a Presbyterian Institution. Accordingly overtures were made to the Synod of Philadelphia, and in 1850 it was formally received under the care and patronage of that venerable body and the charter was amended by the Legislature to correspond to the fact.

---

*Dr. Charles Hodge, in his address before the General Assembly, 1847, said: "We ought to look forward and strive to carry out the good old Presbyterian plan, of having one or more schools in every parish, a classical academy in every Presbytery, and a college in every Synod, *all under the control of the Church.*"

† The charge of sectarianism was early brought against the College, and was in fact one of the great difficulties with which it had to contend in its early history. In 1834, when the Trustees applied to the Legislature for aid, remonstrances were sent to Harrisburg on the ground that the College was a sectarian institution, and "the students were required to attend the Presbyterian Church on the

PRESIDENT McLEAN.

Under the new regime the Rev. D. V. McLean, D. D.,* was elected President and was inaugurated in 1851. He at once undertook to raise a permanent endowment of $100,000 by the sale of scholarships; the sum of $100 entitling the subscriber to the tuition of all his own sons or the sons of any person to whom he might transfer the certificate; no subscription to be binding until the whole amount of $100,000 was subscribed.† President McLean pushed the work with untiring energy, and the full amount was pledged by the first of January, 1854. Monday, January 2d, was celebrated by the students in honor of the result. The College building was illuminated in the evening, and the students with the Faculty and others interested assembled in Brainerd Hall, where they were addressed by Mr. Edsall Ferrier, a member of the senior class, (afterwards Vice-President of Pennsylvania College at Gettysburg)

Sabbath." This charge continued to be urged against the College by the public, and, indeed, was the subject of no little contention among its officers and immediate friends. After the College became avowedly a Presbyterian institution it was often remarked that it seemed to possess the confidence, and certainly received the cordial co-operation and even patronage of other denominations to a much greater extent than when it tried to perform the difficult duty of preserving an even balance between them. It is worthy of notice that in no period of its history has there been so large a proportion of its students from other denominations as at the present time; many of them preparing for the ministry of their own churches.

* Daniel V. McLean, D. D., was a native of Ohio, but was brought up in the Cumberland Valley, Pa., in the vicinity of Carlisle. He graduated at Ohio University, and in 1827 entered the Princeton Theological Seminary, where he remained about two years. He labored successfully as a pastor in Lebanon, Ohio, and Freehold, N. J. He was called to the Presidency of Lafayette College in 1850, and remained till 1857, when he again resumed the duties of pastor, ministering to a congregation in Plainfield, N. J., and later in Redbank, N. J. He died at the latter place in November, 1869. The honorary degree of Doctor of Divinity was conferred on him by Lafayette College in 1842. He was a man of fine abilities, and was eminent for energy of character.

† The tuition fees for each student amounted to $160, and therefore if but one person entered upon the scholarship there would be a considerable saving. But even with this liberal offer to subscribers it seemed to many friends of the College scarcely possible to raise so large a sum as $100,000, and Dr. McLean, in his communication to the Trustees, July 22d, 1851, speaks of it as "a work of amazing magnitude, to accomplish which will require an amount of labor and toil almost superhuman."

and, in response, by the President. A torch-light procession through the town ended the rejoicing of the day.

This success brought the College again into favorable notice and the number of students upon the rolls in 1856, reached 106, the highest number that had ever been enrolled in the four regular classes. But the financial relief was only temporary. Of course the scholarships cut off nearly the entire revenue from tuition so that the financial condition of the College was scarcely, if at all, improved by the increase in the number of students, while they added largely to the expenditure. It was found also that a large part of the subscriptions could not be collected, and that a considerable part of that actually paid was sunk in liquidating the debts of the College, so that in 1857 when Dr. McLean resigned, the Trustees found themselves in the old and somewhat chronic condition of extreme pecuniary embarrassment. It was at first resolved as a matter of economy not to make any appointment to the Presidency, but for a time at least, to divide the executive duties among the existing members of the Faculty.

PRESIDENT McPHAIL.

The Rev. G. Wilson McPhail, D. D.,* a man of rare scholarly ability was at this time pastor of the Brainerd Church in Easton, and it was proposed to him to preside at the Commencement, and to give for a mere nominal consideration such time to the affairs of the College as he could spare from his pastoral duties. This proposition he generously accepted; but it soon became evident that the

* Rev. George Wilson McPhail, D. D., was born in Norfolk, Va., in 1816. He spent two years at Hampden Sidney College, Va., then entered Yale and graduated in 1835. He pursued his theological studies at Hampden Sidney. His first charge was in Cumberland county, Va., from which place he removed to Fredricksburg, where, in addition to his pastoral duties, he conducted very successfully a female seminary. In 1854 he was called to Easton as the first pastor of the Brainerd Church. In October, 1857, he was elected President of Lafayette College, which place he occupied till 1863, when he resigned, and became connected with Professor Saunder's Seminary, Philadelphia. At the close of the war he returned to Norfolk, Va., and soon after, accepted the Presidency of Davidson College, N. C., where he remained until his death, which was very sudden, occurring on commencement day, June 28th, 1871. The honorary degree of Doctor of Divinity was conferred on him by Jefferson College, in 1857. He was a true scholar, an able preacher, and a warm-hearted, Christian gentleman.

College absolutely needed an Executive, and that Dr. McPhail possessed eminent qualifications for the place, so that he ultimately resigned the pastoral care of the Brainerd Church, and gave his whole time and strength to the College, where as a profound scholar, and successful teacher, his memory is still cherished. He was formally inaugurated President of the College in 1858.

But notwithstanding the renewed efforts of its friends and the practice of the most rigid economy, the financial condition and the general prospects of the College grew worse until at the breaking out of the civil war in 1861, new and greater difficulties were encountered. We shall not soon forget the patriotism and self-sacrificing spirit with which men of all classes in the universal uprising of 1861, went forth to bear the hardships of the camp, and brave the perils of battle. Among those who so nobly responded to this call, the graduates and under-graduates of our colleges, as statistics shows, were represented in larger proportion than any other class. In this Lafayette bore her full share.*

In 1862, after the battle of Antietam, the students enlisted in considerable numbers. In 1863, when Lee invaded Pennsylvania, the rush to arms was so general that the College was almost without students. There was no Commencement in '63, the seniors who should have graduated that year taking their degrees the year following.

Besides the enlistment of students, the depression of the times in the progress of the war tended to diminish the number, and the public attention and interest seemed to be completely diverted into other channels.

---

*The roll of honor shows the names of *two hundred and eighteen* graduates, non-graduates and under-graduates who served in the military and naval service of the United States during the war. Of those in the army, six were General officers, seven Colonels, five Lieutenant-Colonels, nine Majors, twenty-nine Assistant Surgeons, fifteen Chaplains, twenty-three Captains, twenty-three Lieutenants, twenty-five non-commissioned officers, and seventy-seven Privates. And in the navy, one Lieutenant Commander, one Professor of Mathematics, one Paymaster, two Assistant Surgeons, and one Volunteer Lieutenant.

Of the regular graduates living at the time and not yet beyond the military age, over twenty-six per cent. entered the service. The average percentage of the New England colleges is about twenty three per cent., Yale leading them with twenty-five.

The above facts are gathered from the Commemorative Address delivered by Prof. Henry T. Lee, (Major 4th N. Y. Artillery,) July 24th, 1866.

Under these trying difficulties in August, 1863, President McPhail resigned. The condition of the College became so alarming, and its friends so generally disheartened, that a special meeting of the Board of Trustees was called in Philadelphia, to "take into consideration the propriety of suspending operations under increasing embarrassments." As one of the results of this meeting, a committee was appointed to confer with Professors Coffin, March and Coleman with reference to the possibility of keeping the College in operation the following year. This conference had respect mainly to the compensation of these Professors; and it is worthy of record here, that these self-sacrificing men, to whom Lafayette owes so much, both in the efficiency of her daily work, and in her renown abroad, did not desert her in her extremity. The committee reported favorably to the Board. The College was to go on at least for another year. In other words, the Professors would keep it in operation at all hazards and take what the Board could give them in compensation.

PRESIDENT CATTELL.

It was at this critical juncture in the history that we find the Board turning their attention to one who had been a Professor in the institution, Rev. William C. Cattell, to whom they gave a hearty call to return to Lafayette and fill the vacant Presidency. Dr. Cattell was at that time pastor of the Second Presbyterian Church at Harrisburg. His pastorate of three years was one of marked success and usefulness; an able and devoted preacher, a man of warm and sympathetic heart, he had won the love of all his people, who when he accepted the proffered Presidency, consented to his separation from them with the utmost reluctance, and only under the conviction that he was called to a higher work. This indeed has proved to be the case; but it was a work beset with great difficulties. Dr. Cattell was not ignorant of these, nor was he disheartened by them. He came to his new and enlarged sphere of labor, with a strong faith in the ultimate success of the enterprise.

To his earnest zeal in the cause of education he added a knowledge of the ground, and a keen insight, which enabled him to see the wants of the age in the matter of the higher education. He knew that Lafayette College had a future before her, and a work to do, from which those to whom her interests were intrusted must by no means shrink. His efforts at the very outset were characterized

by that energy, prudence and tact which always master difficulties, and which for him secured at once the hearty co-operation and confidence of the friends of the College.

President Cattell was inaugurated in the College Chapel, Tuesday afternoon, July 26th, 1864, in the presence of the Trustees, the Faculty and the students, a number of the members of Synod, Alumni, citizens of Easton, and other friends of the Institution. The occasion was one on which Lafayette felt a thrill of returning hope. Governor Pollock, President of the Board of Trustees, touched its key-note in his admirable introductory address when he said:

"But the hour of darkness and gloom has passed; and to-day, within her walls all is harmony and peace; and at this hour, and in analogy with nature now robed in sunshine and smiling after the storm, the light of a genial sun now pouring down upon us through the riven and scattered clouds, Lafayette College stands revealed in the light of returning prosperity, and all without betokens favor, success and triumph!

"We have met to-day to witness the inauguration of one well-known and appreciated by you all; and who has been honored by a most happy, cordial and unanimous election by the Synod and Board of Trustees. We present him to you as the scholar and the man—the highest style of man—the Christian gentleman, and one who combines in a remarkable degree, the quiet dignity of the Christian minister, the accomplishments of the scholar, and the no less important qualifications of an administrative officer."

A new vitality was at once infused, and new vigor characterized the work of the College, both in its inner life and in the more remote points of contact with the patronage and public. Nor was the new era inaugurated without more special indications of the divine favor. A work of grace among the students took place in 1864, which was perhaps the most remarkable of the great revivals that have characterized the recent history.* It seemed like the seal of God set anew upon the Institution.

Doubtless the time has not yet come for the full treatment of this portion of the history in its personal aspects. President Cattell is still with us, still in the vigor of middle life, and with full heart

*Scarcely a year has passed during the present administration without a religious awakening in the College, more or less wide-spread and powerful. Those of 1867, 1870, and 1873 were especially remarkable for the profound interest manifested by all the students, and the large numbers who made profession of a change of heart. During the past college year the Christian life of the College has been quickened in an unusual degree; many of the students have professed conversion, but of the full results of the awakening it is too soon to speak.

and strong arm, with a strength indeed that grows with growing opportunities, is pushing the important work that lies before him. The world will read in the work itself the fittest praise of the energy and ability of the man whose best work after all will not be recorded in the history of great buildings, of swelling endowments and new courses of study, but in the hearts and lives of the hundreds of young men whose characters are moulded under his personal influence. These will never forget the kind-hearted President, endeared to them alike as a faithful friend, a wise counselor and an eminent example of a life devoted with Christian fidelity to a great and good work.

Under this administration Lafayette has risen to her present commanding eminence, embracing departments of instruction, widely different in specific scope and aim, yet brought into stimulating contact and so into the unity of a harmonious progress.

The external features of this growth may be briefly exhibited.

STUDENTS.

As to the number of students, the surest test of substantial progress, there has been a steady and rapid advance. The successive annual reports of the Faculty for the past thirteen years, show the following numbers in attendance upon the regular College Classes. The College has no preparatory department.

In 1863, 39.	1870, 188.
1864, 46.	1871, 233.
1865, 51.	1872, 222.
1866, 65.	1873, 243.
1867, 101.	1874, 280.
1868, 128.	1875, 319.
1869, 145.	

THE FACULTY.*

In 1863–64 the Faculty consisted of *nine* members. The addition of new departments of study, and the large increase of students have made it necessary to secure a much larger corps of instructors.

---

*Some mention has already been made of the notable eminent men who were identified with the Faculty in the earlier times. It should also be added that the friends of the College feel a just pride in the fidelity and talent of those who now compose it. We who, as students, have enjoyed the advantages of their faithful instruction, would gladly accord them much more than this mere passing

In 1865–66 the number was *sixteen;* in 1870 it was *twenty*, and at the present time it is *twenty-eight;* as follows:

William C. Cattell, D. D., President, and Professor of Mental and Moral Philosophy.

Traill Green, M. D., LL.D., Dean of the Pardee Scientific Department and Professor of General Chemistry.

Francis Andrew March, LL.D., Librarian, and Professor of the English Language and Comparative Philology.

John Leaman, A. M., M. D., Professor (Emeritus) of Human Physiology.

Lyman Coleman, D. D., Professor of Latin and Biblical Geography.

Thomas C. Porter, D. D., Professor of Botany and Zoology.

Robert B. Youngman, A. M., Clerk of the Faculty, and Professor of the Greek Language and Literature.

Augustus A. Bloomberg, Ph. D., Professor of Modern Languages.

Frederick Prime, Jr., A. M., Professor of Metallurgy and Mineralogy.

E. H. Barlow, A. M., Professor of Rhetoric and Elocution.

Rossiter W. Raymond, Ph. D., Lecturer on Mining Geology.

Selden Jennings Coffin, A. M., Professor of Mathematics and Astronomy.

J. W. Moore, A. M., M. D., Professor of Mechanics and Physics.

J. M. Silliman, M. E., Markle Prof. of Mining Engineering, and Graphics.

Joseph G. Fox., C. E., Professor of Civil Engineering.

Thomas M. Drown, M. D., Adamson Professor of Analytical Chemistry.

A. Ballard, D. D., Douglass Professor of Christian Greek and Latin.

A. L. Baker, C. E., Adjunct Professor of Civil Engineering.

Joseph Johnson Hardy, A. M., Adjunct Professor of Mathematics.

David Bennett King, A. M., Adjunct Professor of Ancient Languages.

William Baxter Owen, A. M., Adjunct Professor of Ancient Languages.

John Meigs, A. M., Adjunct Professor of Modern Languages.

A. H. Caughey, A. M., Adjunct Professor of Ancient Languages.

William S. Sweeny, A. M., Tutor in General Chemistry.

J. G. Diefenderfer, C. E., Tutor in Mathematics.

William H. Schuyler, A. B., Tutor in Modern Languages.

Joseph R Shimer, M. E., Tutor in Metallurgy.

Edward Hart, B. S., Tutor in Analytical Chemistry.

---

notice. Dr. Lyman Coleman, our venerable Professor of Latin, the friend of Neander, the ripe Biblical and classical scholar, whose books are known and used alike in this country and in England; Dr. Traill Green, by whose efficient labors, extending through forty years, the department of Chemistry has reached its present renown; Dr. Francis A. March, ranked among the leading philologists of the age, and Dr. Thomas C. Porter, recognized as authority along with the leading naturalists of our time; these are well known: nor should it be forgotten that among the younger professors, there are not a few who, already eminent as instructors, are winning their way to scholarly distinction in their several departments.

RECITATIONS AND LECTURES.

There has been a corresponding increase in the amount of actual class-room work. From 1859 to 1865 there were given annually in the four classes 2070 recitations and lectures. In 1865–'66, when the Scientific Department was added, more than half the exercises of the new course were coincident with those of the old, 913 were not so, making the total for that year 2983. The annual number of recitations and lectures at the present time, not including the working sections, or the post-graduate courses, is 9263.

This large increase has been caused partly by additions to the curriculum, but mainly by the division and sub-division of large classes. The policy of hearing classes in sections so small that each student shall be sure of daily drill is strictly adhered to, and will account in some measure for the exact and thorough character of the work done at this College. The Freshman class, for example, in Mathematics recites this term in five sections. The classical Freshmen recite in three sections, each in Greek and Latin, and the scientific Freshmen in three, each in French and German. The advantage of thus dividing into sections of from twelve to twenty men, is well known to all thorough teachers; besides the benefit of the actual recitation, the student has the incitement of knowing beforehand that he will be called upon to recite at every exercise, and the instructor is better able to ascertain the progress and the particular needs of each member of the division.

THE COLLEGE GROUNDS.

The College grounds have been enlarged by successive purchases, to include about thirty-three acres, most of which has been greatly improved within the past few years. The work, carried on according to the plans of Mr. Donald G. Mitchell ("Ik Marvel"), and under the supervision of Mr. S. L. Fisler, A.M. (class of 1861), has consisted of grading, terracing, ornamental planting, and the laying out and construction of walks, drives, etc., and is so far completed that the campus already presents a picture of rare beauty. This is not, of course, a work of mere aimless adornment, but is carried on under the deliberate recognition of the educational influences of art. The authorities regard it as a matter of great importance that the surroundings of young men, while in the process of edu-

cation, should be such as to engage the mind, not only with the most pleasing aspects of nature, but also with the finer forms of beauty into which nature may be wrought by the skillful touch of man. The students are thus brought under the refining influences of a constant æsthetic culture.

Attention has already been called to the natural advantages of the location in this respect, and it is the design to complete the artistic improvements that have already made College Hill the admiration of all beholders.

THE NEW BUILDINGS.

The most noticeable feature of the external growth, however, is seen in the buildings. Twelve years ago, the original edifice and the small building to the west of it, built by Dr. Junkin for the Model School, were the only structures. Since that time these have been thoroughly renovated and others added. The old college (now SOUTH COLLEGE) has been so completely transformed as to appear scarcely the same building. The old hip-roof has been replaced by a neat Mansard, and the east and west wings added.

The EAST WING contains Eastonian Hall, which is fitted up as a reading-room, and is supplied with the best newspapers and periodicals of America, England, France and Germany. Dictionaries, Cyclopædias and other works of reference belonging to the Library, are also placed in this room. It occupies the first floor and the second story in galleries, making a spacious, light and airy hall. It is adorned with literary treasures and portraits of honored benefactors and officers of the College. Among these collections is a Papyrus Scroll five feet long, from a mummy at Thebes, with a hieratic inscription pronounced by Seyffarth the finest he has seen, presented by Hon. John W. Garrett, of Baltimore. There is also a full-length portrait of Lafayette, painted by Healy at the Chateau La Grange from Ary Sheffer's famous painting, and presented by Dr. Thomas W. Evans, of Paris. Above are the President's room and three lecture halls. This wing is 35 by 66½ feet, and is connected with the main building by a bell tower 80 feet in height. The entire cost was $23,400.

The WEST WING is 44 by 84 feet in size, and like the east wing is of brick, rough-cast, trimmed with brown stone quoins and water table. The new chapel occupies the first floor, a double story, 26 feet in height, above which are Dr. Porter's lecture-room, the College

Herbarium, the Botanical Laboratories, and the Museum of Natural History. The clock tower, surmounted by a spire, is 125 feet in height, and forms the connection between this wing and the main building. The whole cost was $33,800.

The Model School Building (afterwards known as West College) has also been refitted, the first floor as the Treasurer's offices and the College Archives, and the second floor as the lecture-room for Prof. March, with adjoining room as a private study

A short distance south-east of South College stands JENKS PHYSICAL HALL. It is a T shaped structure of blue limestone, two stories with Mansard roof, sixty-four feet front and seventy-five in depth. It was originally designed for the Chemical Department, and was fitted up with laboratories, lecture-room and cabinet. It has been recently transferred, however, to the department of Physics, and remodeled for this purpose. The first floor contains a recitation-room and small laboratories for sections; the second floor, a large lecture-room and apartments for apparatus and professors' study; and the third, the large Physical Laboratory, Microscopic-room, and the hall of the Society of Physics and Engineering. It was erected at a cost of $22,000.

The ASTRONOMICAL OBSERVATORY, north of Jenks Hall, and of the same material, is the gift of Dr. Traill Green, and was erected at a cost of $15,000. It consists of a Tower and two Transit-rooms, with lecture-room attached. It is fitted up with a revolving dome and telescope, a transit instrument, and other apparatus for the observation of astronomical facts, and for the thorough study of Astronomy.

By far the finest structure, however, on the grounds is PARDEE HALL. This magnificent building stands on the central plateau of the campus, and was erected and equipped for the uses of the Scientific Department by its munificent founder, Mr. Pardee, at a cost of nearly $300,000.

The building, begun in 1871, was completed in 1873, and on the 21st of October of that year, was formerly handed over with its scientific equipment to the Trustees, in the presence of His Excellency, Governor Hartranft; the State Superintendent of Educa-

tion, Hon. J. P. Wickersham, LL.D.; the Synod of Philadelphia, and a great assemblage.*

It consists of one centre building five stories in height, fifty-three feet front, and eighty-three feet deep, and two lateral wings, one on each side of the centre building, measuring sixty-one feet in length and thirty-one in width; four stories in height, including a Mansard roof, the whole terminating in two cross wings, forty-two feet front and eighty-four feet deep, and four stories in height. The entire length of front, in a straight line, is two hundred and fifty-six feet. The material is the Trenton brown stone, with trimming of the light Ohio sand stone. It is heated throughout by steam and lighted by gas.

---

* The dedication of Pardee Hall was a signal event, not only in the history of the College, but in that of the whole surrounding region. The day was observed as a general holiday in Easton, South Easton and Phillipsburg, and thousands of the people participated in the festivities of the occasion.

Professor R. W. Raymond, Ph. D., a member of the College Faculty, United States Commissioner of Mining Statistics, and President of the American Institute of Mining Engineers, delivered the oration of the morning in the auditorium, after which a collation was served in the building. In the afternoon the authorities of the borough and of the adjoining towns, together with the various civic and military organizations of the valley, the schools, the fire departments and many citizens, formed an imposing procession, and after parading the streets, visited the College grounds. At two o'clock P. M., in the presence of this vast throng of nearly ten thousand people, Mr. Pardee, in a modest address, formally handed over the keys to President Cattell, who responded in a few fitting words. Dr. Coleman then invoked the blessing of God, after which the whole assembly united in singing the Doxology, "Praise God from whom all blessings flow." Then followed several short and enthusiastic addresses; Governor Hartranft, Edward H. Green, President of the borough council of Easton, Major A. B. Howell, Chief Burgess of Easton, Edward F. Stewart, President of the Easton School Board, and Ex-Gov. Pollock, President of the Board of Trustees, were among the speakers.

Later, the exercises were resumed in the auditorium, where addresses were delivered by J. P. Wickersham, LL.D., Rev. Dr. John Harris Jones, President of Trevica College, South Wales, Rev. Dr. Robert Knox, of Belfast, Ireland, Hon. B. G. Northrup, Secretary of the Connecticut Board of Education, Hon. Heister Clymer, of Reading, Pa., Ashbel Welsh, of New Jersey, Rev. Dr. Charles S. Robinson, of New York, Dr. A. J. Woeikof, of the Imperial Geographical Society of Russia, and others. Many congratulatory letters and telegrams were also read from colleges and universities all over the land. The exercises of the day were closed by an informal reception in the evening, when the grounds and buildings were again thronged by an enthusiastic multitude.

The first floor is mainly devoted to the study of mining and metallurgy; the second contains the geological and mineralogical cabinets, a spacious auditorium, and smaller lecture-rooms, reading-rooms, and professors' studies. The third floor is devoted to the engineers. The right wing is occupied by the mining engineers. A large drawing-room occupies the lateral wing, while the cross wing embraces rooms for models and various professional purposes. The left wing is occupied by the civil engineers. The lateral wing comprises a drawing-room, and the cross wing is divided into rooms for lectures, working models, collections and the like. On the fourth floor, the same ample provision has been made for the chemist. The centre building contains Professors' and Assistants' rooms, Technical Collections, Stock-rooms, etc. The lateral wings are intended for qualitative and quantitative analysis. The cross wing at the extremity of the building is occupied by additional laboratories, lecture-rooms, and professors' studies. The fifth floor of the centre building is occupied by the laboratories for general chemistry.

In determining what rooms were needed and the best arrangement of them, similar buildings in Europe, as well as in this country, were carefully studied, and liberal provision has been made in all the departments of instruction for every aid which has been devised for the most thorough and attractive teaching, and also for the prosecution of original researches.

Provision has been made in part for the accommodation of the large number of students by the erection of "STUDENTS' HOMES." Six of these occupy the north campus, five of them bearing the names of those by whose liberality the College was enabled to provide them. They are in their order from west to east, BLAIR HALL, NEWKIRK HALL, MCKEEN HALL, MARTIEN HALL, POWEL HALL, and EAST HALL. Except McKeen Hall, which has brown stone quoins and window trimmings, with porch, ornamental cornice, and a balustrade around the entire roof, they are plain brick buildings, fitted up in suites of rooms for the occupancy of students, and for the residence of a family with whom the students may board, if they so desire.

There have also been erected on the College grounds, nine houses designed for the residence of Professors, and those previously built have been improved and enlarged.

THE FUNDS OF THE COLLEGE.

The citizens of Easton at their first meeting in 1824, to take some definite steps towards the establishment of the College, appointed a Committee to draft a Memorial to the Legislature for aid, but the account I have already given shows that their expectations from this quarter were not fully realized, and the College from the start was mainly dependent upon the contributions of its friends. These sums were generally small. In the first published list of contributors (1834), the sums range from several contributions of fifty cents to one of five hundred dollars. Seventy were below five dollars. The aggregate amounts to $5,103, of which the citizens of Easton furnished more than two-thirds. The most generous donors to the College in its early history were Col. Thomas McKeen and James M. Porter of Easton, and James Lenox of New York City.

The appeals made to the Legislature were based mainly upon the necessity for the State making some provision for the education of teachers, and all the aid the College ever received from this source seems to have been due to this part of its work, in which, as I have already observed (see page 15), Lafayette College anticipated the present system of State Normal Schools To prepare the student for "teaching as his ultimate employment for life," was an object the Trustees had much at heart, and their report in 1834 asks the significant question, "Will the day never come when the profession of teachers will be both honorable and profitable, and this class in our Colleges be filled with the first men in our land?" The minutes of the Board, however, mention but one appropriation received from the State. This is at their meeting April 4th, 1834, where they acknowledged the warrant of "Gov. Wolf for the sum of $4,000." The report for that year refers to an additional grant promised by the Legislature for "$2,000 a year for four years," but whether these amounts were paid, the Treasurer's books, which are incomplete for these years, do not inform us.

It is a remarkable fact that Lafayette College in all its history has never received a dollar by a direct bequest. In 1871, it received a residuary or reversionary bequest of $1,716 from the estate of John Beveridge, one of the Trustees. The College was also made the residuary legatee by one of the Alumni, H. T. D. Kerr (class of 1856), but the estate was exhausted before the specific bequests were paid, so that during the last fifty years, a period fruitful in bequests to our

higher institutions of learning, Lafayette College has received only the above-mentioned sum, less than eighteen hundred dollars!

As a part of the financial history of the College, the following summary of the Treasurer's books, from 1850 to 1864, prepared with great labor by Prof. Coffin, and embracing the period from the time the College became connected with the Synod until the close of President McPhail's administration,* will be not without interest to the friends of the College.

RECEIPTS.

Cash in the Treasury, October 20, 1850,	$67 22
Whole amount received from subscriptions for Scholarships,	71,322 04
Whole amount received from Students, viz.—Session bills, Matriculation and Graduation fees, Catalogues and Laws,	23,927 15
Balance of Interest and Dividends,	15,583 55
Donations for general purposes,	7,374 40
Donations for building a College Chapel,	317 50
Received from George Walters, April 1, 1856 (not ascertained on what account),	10 00
Balance of rents of houses and grounds,	1,793 71
Balance due Inspector of College buildings,	3 09
Temporary loans to the College,	3,000 00
	$123,398 66

EXPENDITURES.

For securing Endowment,	$6,146 03
Payment of debts contracted before October 20, 1850,	9,007 63
Purchase of grounds about West College (lease having expired),	1,439 63
Building Professors' houses,	11,352 21
Repairs and improvements on College buildings and premises,	3,574 52
Investments:—Bonds and Mortgages, $24,466.67; Loans, $1,908.83,	26,375 50
Professors' salaries, including house-rent,	52,096 36
Amount lost by pick-pocket (July 19, 1855),	150 00
Amount lost by counterfeit and uncurrent money,	47 34
Treasurer's salary, clerk hire and legal fees,	1,511 50
Incidental expenses and Insurance,	8,516 77
Library, apparatus and Chemicals,	2,315 63
Discrepancies in accounts, and errors,	218 65
Cash in Treasury, January 20, 1864,	646 89
	$123,398 66

*Dr. McLean, the first President of the College nominated by the Synod, was elected October 18th, 1850; Dr. McPhail, October 27th, 1857; and Dr. Cattell, October 27th, 1863, entering upon his duties in January, 1864.

According to estimates submitted by President McPhail, at his resignation in the fall of 1863, the total value of the College property, including grounds, buildings, libraries, apparatus, invested funds and outstanding subscriptions, was $88,666, and the income from all sources was less than $4,000.

According to the Treasurer's statement, submitted at the last meeting of the Board of Trustees, the total value of the College property is now $817,414.75, distributed as follows:

I.—Non-productive Investments.

1. Buildings and grounds,	$431,413 87
2. Apparatus,	87,754 67
3. Libraries and Scientific Collections,	40,266 83
Total,	$559,435 37

II.—Productive Investments.

1. Dormitories and Students' Homes,	$67,726 37
2. Houses for Professors,	69,049 29
3. Amount of other investments, at their par value, (after deducting the entire indebtedness of the College,)	121,203 72
Total,	$257,979 38

It will be seen by this statement that the College possesses its magnificent buildings and grounds, its extensive and valuable libraries, apparatus, scientific collections, etc., clear of all incumbrances, and that it has in addition over $250,000 of productive funds, yielding an annual income of about $13,000.*

*It should, however, be known to all the friends of the College that this sum, added to the fees from the students, is very far from being sufficient to meet the current expenses of the College. The great and rapid increase in the resources of the Institution has created a very general impression that Lafayette College is immensely rich. It is rich, perhaps beyond the fondest expectations of its founders and early friends; but in the great and wide field it now occupies, the expenditures, even upon the most economical basis, are far beyond even its large income. The various departments of instruction at Lafayette, with the Post-Graduate, Special and Elective Courses of Study, and the necessity, on account of the large number of students, for sub-dividing the classes in sections small enough to insure thorough drill in the daily recitations, render a large body of professors an absolute necessity. Last year the Faculty, exclusive of the Law Department, consisted of twenty-eight instructors. It has been the policy of the Board of Trustees to maintain in all the departments a complete and effective corps of instructors, notwithstanding the large annual deficit which has existed

In the history of this remarkable progress we find conspicuous examples of most wise and far-seeing munificence. Among those who have nobly aided in this work may be mentioned the following gentleman, who, besides minor benefactions, have endowed professorships in the sum of $30,000, William Adamson, of Philadelphia, Thomas Beaver, of Danville, George B. Markle, of Philadelphia, and John Welles Hollenback, of Wilkesbarre. Mr. Benjamin Douglass, of New York City, has endowed for a term of years the

---

for some years past, and which has been made up annually by special contributions from the friends of the College, mainly from the Trustees themselves. This annual deficit, however, is regarded as a serious hindrance to the further development of the College. It cannot be reduced by diminishing the number of Professors without seriously crippling the thoroughness and efficiency of the instruction; nor can the salaries of the professors be lowered, as they are already upon a scale of extreme economy, the salary of the senior professors being (in addition to house rent) only $1,600. Moreover, it is certain that the deficit will increase with the increasing number of students, as the tuition fees in all Colleges are below the cost of the instruction. The Trustees have therefore resolved to pursue the only course left for them, and appeal to the friends of the College for a large increase of the permanent endowment. The noble benefactions already made to the College have established it upon so firm and broad a basis that those to whom God has given wealth, and who feel an interest in Christian education, have here an inviting field for investments that are sure to yield great and growing results in the good cause. The Trustees at their last meeting adopted the following minute, and it is hoped that the College may share liberally in the large gifts annually made by wealthy people to the cause of education, and thus relieved from the necessity of providing year by year for a large deficit, may be free to expand in certain directions where improvements are still needed:

"1st. The Board of Trustees gratefully recognize the increasing prosperity of the College. They witness with pleasure the large number of students upon its rolls, and the evidences of marked efficiency, not only in the departments of instruction, but in the administration of all its affairs.

"2d. In view of the large expenditures which have been necessary to bring the College to its present eminent position among the leading institutions of the land, it is essential that there should be careful economy in all its disbursements, and that the work of instruction sholud be divided among the members of the Faculty in such equable manner that the number of professors be reduced to the lowest point consistent with the proper working of the several departments; but the Trustees, after a full examination of all the resources and the necessary expenditures, are also of the opinion that, to maintain the College in its present efficiency, an addition to its present endowment of at least five hundred thousand dollars in productive funds, is absolutely necessary.

"3d. The Trustees of the College, therefore, recognizing the great labors and success of President Cattell in securing funds for the endowment, as well as his distinguished and successful administration of the affairs of the College, entitling him to the thanks of all friends of Christian education, would respectfully request him to undertake this great additional work, pledging to him their fullest confidence and sympathy, and every aid which it may be in their power to bestow."

chairs for teaching the Latin and Greek in the elective course of Christian authors (see page 50), with abundant provision for prizes, for the publication of text-books and for the increase of the library in this special department. The citizens of Easton contributed, in 1872, $22,624, to complete the east wing of South College, and in 1872, $4,700, towards the new chapel, to which also Mrs. W. C. Ferriday and Mrs. Ellen J. Welles (Wyalusing, Pa.) contributed each $5,000;* Dr. Traill Green erected and furnished the astronomical observatory. The Treasurer's books, among other contributions to the funds of the College, show the following: John A. Brown, $20,000; John I. Blair, 17,000; William E. Dodge and Joseph H. Scranton, each $15,000; Barton H. Jenks, Thomas L. McKeen and Mrs. William C. Cattell, each $10,000; Selden T. Scranton, $7,500; Alfred Martien and Benjamin G. Clarke, each $6,000; Morris Patterson, Rev. Matthew Newkirk, John Taylor Johnston, Alexander Whilldin, Thomas Dickson, G. Dawson Coleman and Matthew Baird, each $5,000.

But it remains to mention the most munificent benefactor of the College, one, in fact, to whose gifts and wise counsels the College really owes so largely, not only its present efficieney, but its very existence. In 1865, when the College was again struggling for its life, Mr. Ario Pardee, of Hazelton, Pennsylvania, gave President Cattell his cheek for $20,000! At the time this donation was made, it was the largest sum given by any one man to any educational institution in Pennsylvania. This, however, was but the beginning of his noble benefactions, which, by successive dona-

*The efforts made by the Synod of Philadelphia to raise funds for the College chapel by collections throughout the churches within its bounds, were not attended with much success. In his speech before the Synod in 1870 (previously referred to), President Cattell says:

"When the Synod met at Easton, four years ago, the committee to whom this subject was referred made an earnest appeal that 'some scheme be devised by which the entire Synod will unite in erecting among the new buildings now crowning College Hill a MEMORIAL CHAPEL;' and upon their report, it was resolved unanimously, 'that on the day of prayer for schools and colleges, or the week following, a collection be taken up in all the churches within our bounds for the purpose of commencing a fund for the building of a College Chapel.' At the meeting next year in Lancaster, it was found that this effort had resulted in securing the sum of $360.21. That year, still stronger resolutions were passed, and a special committee of one minister from each Presbytery was appointed to carry out the plan. The second and last effort, after deducting the expenses, resulted in the additional sum of $320.60!"

tions as the needs of the College enlarged, have amounted to half a million of dollars! Such princely gifts to the cause of education by one actively engaged in business life, have been rare indeed, and Mr. Pardee's name is not only enshrined in the hearts of all the sons of the College, and of all the friends of education, but it must ever be honored by all men who can appreciate such noble and unselfish use of wealth. It was well said by Dr. Raymond, at the dedication of Pardee Hall, "Nothing is more beautiful than the spectacle of wealth wielded with the strong hand and generous heart; of skill and sagacity brought to bear upon the question how to benefit society. Such wealth breeds no danger to the community, and ought never to rouse the faintest sigh of envy. Every poor man in Pennsylvania has reason to be glad and give thanks to-day that Ario Pardee is rich."

LIBRARY.

The library was founded in 1832, by contributions of books from the friends of the College, and it grew slowly by gifts and small purchases. In 1865, the whole number of volumes reported was only 2,645. A fee of $1.00 a term for the increase of the library, and afterwards of $2.00 a term for the reading-room and library has since been paid by each student, and the fees for matriculation and graduation have also in part been appropriated to the same object. The income from these sources is now somewhat more than $2,000 a year. The librarian last year reported the addition of 989 volumes, of which 797 were bought for $2,007.16.

This income has been expended almost wholly in books immediately connected with the studies of the course, with a view to buying all the working books needed for original investigation in the special direction in which each professor has wished to push his work. It does not, therefore, add rapidly to the number of volumes, but in certain specialties it has served to accumulate one of the best working libraries in the country. The departments in which it is best are,

Anglo-Saxon, Early French, Early and Dialectic English.
Christian Greek and Latin.
American History.
Natural History.
Chemistry and Mining.

Large donations of books have been received, among which may

be mentioned those from Rev. David Bishop, at the founding of the library; from Hon. T. G. Clemson, a set of the Annales des Mines and French works of science; from Edwin Miller and Ferdinand de Lesseps, engineering works; from Dr. John Curwen, works in Natural History and Classical Antiquities. The class of 1871, established a fund for the purchase of Early English Texts. The heirs of C. L. Ward, Esq., presented to the College his well-known library of about ten thousand choice volumes of general literature, his law library and all the books and pamphlets of his American historical collection, with his extensive collections of autographs, engravings and curiosities. The Hon. Joseph Casey has presented valuable series of American Annals and State Papers, and of Legal and Congressional Reports. Mr. Benjamin Douglass has made a donation for the department of Christian Greek and Latin, from which about one thousand dollars have been expended in the purchase of the best working editions of such authors and of critical apparatus for this study. Messrs. R. L. and A. Stuart have also made valuable gifts to this department.

About 6,000 volumes, consisting of the Dictionaries, Cyclopædias, Historical and Scientific Serials and other works of reference or frequent use, belonging to the library, are displayed in cases in the reading-room of the College. These books are kept accessible to all members of College daily, Sundays excepted, for consultation during study hours and general reading out of study hours.

Adequate provision has not yet been made for the proper display and use of the rest of the books. The whole number of volumes is now about 16,000, scattered through different College buildings, and a new building for the library is one of the most pressing needs of the College.

The Washington and Franklin Literary Societies have, in addition, well selected libraries aggregating about 6,000 volumes.

THE CURRICULUM.

The historical development of the curriculum shows important changes in the old classical course arising mainly from the introduction of the Modern Languages and Natural Sciences.*

The records do not furnish the material for as complete an analysis with respect to the proportional distribution of studies as might be

*For an account of the Pardee Scientific and Technical Departments, established 1866, see pp. 46, 47, and 52–55.

desired. The following summaries, however, will show the number of recitations allotted to each of the main departments of study at different periods. The results are also expressed in percentages of the whole time.

FROM 1842 TO 1844.

	Recitations.	Per cent.
Mathematics, including Astronomy and Physics,	705	.35
Ancient Languages,	1,008	.50
Mental and Moral Science, Political Economy, Rhetoric, Evidences of Christianity, Belles Lettres, etc.,	307	.15

FROM 1844 TO 1851.

Mathematics, (as before),	692	.345
Ancient Languages,	938	.464
Mental and Moral Science, etc., (as before),	350	.172
Chemistry and Natural History,	40	.02

FROM 1851 TO 1853.

Mathematics, (as before),	660	.326
Ancient Languages,	786	.39
Mental and Moral Science, etc., (as before),	388	.192
Chemistry and Natural History,	40	.02
Biblical,	146	.072

The Biblical studies consisted of History and Antiquities, Sacred Geography, the Greek Testament, Butler's Analogy and the Standards of the Church. It was during this period that the College became connected with the Synod of Philadelphia; previously the religious studies had been carried on by means of Sabbath Bible-classes and lectures.

FROM 1853 TO 1857.

	Recitations.	Per cent.
Mathematics, (as before),	608	.306
Ancient Languages,	786	.396
Mental and Moral Science, etc., (as before),	364	.188
Chemistry and Natural History,	76	.038
Biblical,	146	.072

FROM 1857 TO 1859.

Mathematics, (as before),	585	.292
Ancient Languages,	756	.38
Mental and Moral Science, etc., (as before),	431	.215
Chemistry and Natural History,	39	.02
Biblical,	138	.069
Modern Languages,	48	.024

During this period, in 1857–'58, the College year was divided into *three terms*. In 1856–'57, Trench on the Study of Words was introduced; in 1857–'58, Fowler's English Language, Anglo-Saxon

and Milton's Paradise Lost. Here begins the philological study of English. It is not distinguished, however, in the above table nor in the following one from the General English Studies. French and German were also introduced this year. In 1858–'59, Shakespeare (Julius Cæsar) was first studied, in the third term junior class.

FROM 1859 TO 1865.

	Recitations.	Per cent.
Mathematics, (as before),	587	.283
Ancient Languages,	737	.356
Mental and Moral Science, etc., (as before),	439	.215
Chemistry and Natural History,	63	.03
Biblical,	138	.066
Modern Languages,	96	.05

At the present time the distribution is as follows:

	Recitations.	Per cent.
Mathematics, including Astronomy and Mechanics,	588	.235
Ancient Languages,	857	.342
Biblical,	156	.062
Modern Languages, { English and Anglo-Saxon,	180	.073
Modern Languages, { German and French,	158	.063
Mental and Moral Science,	108	.043
Political Economy and Constitution,	66	.027
Outlines of History,	12	.005
Rhetoric and Logic,	33	.013
Elocution,	154	.062
Chemistry,	36	.014
Geology,	70	.028
Botany and Zoology,	32	.012
Natural Philosophy,	32	.012
Mineralogy,	22	.009

Hebrew, Blackstone, Archæology of Literature and Chemistry are elective in the senior year, with other studies, and in the case of students who elect them, modify the above results in Mathematics, Greek and Modern Languages.

In addition to the Outlines of History, particular periods in Grecian, Roman, English and American history are worked up along with the reading of representative authors, as Livy, Tacitus, Demosthenes, Shakespeare, etc. More than *three hundred* recitations of the course are thus available as a means of special instruction in history.

Classical Geography, Greek and Latin Composition and Grecian and Roman Antiquities come in as "side studies," and are referred in the above analysis to those branches to which they are most akin.

SCIENTIFIC COLLECTIONS.

These are extensive and valuable, and are rapidly increasing from year to year by gifts from societies and individual donors, and by special appropriations in addition to the fees for registration and matriculation.

Among the most valuable of the collections may be mentioned the extensive HERBARIUM, collected mainly by Prof. Porter and his assistants during thirty years of enthusiastic labor; it is specially rich in MOSSES, and is believed to contain the most complete FLORA OF PENNSYLVANIA in existence; the series of Ward's celebrated casts, illustrating GEOLOGY and PALÆONTOLOGY, together with the specimens purchased for the College by Prof. Hitchcock in Europe; the valuable collection of COAL FOSSILS presented by the Scientific Association of Pottsville, and the MODELS of the coal region made and presented to the College by P. W. Shaefer, Esq.; the splendid MINERALOGICAL collections of Rev. Dr. E. R. Beadle of Philadelphia, and of Dr. Joseph K. Swift of Easton; also the Janeway collection; the collection of NORTHERN ANTIQUITIES, purchased by Dr. Beadle in Denmark; and the complete collection of Swedish IRON ORES, with the products of their reduction, presented by the Jern Kontaret of Sweden.

The apparatus in the Departments of Physics and Applied Mechanics, the instruments used in the Departments of Astronomy and Engineering, and the scientific equipment of the numerous and extensive laboratories, fairly meet the demands of advanced instruction in these Departments; a special feature, however, is the series of one thousand three hundred and twenty-two Wall Charts, executed at the College by Mr. G. Garnier, under the the direction of the Professors in the Departments of Astronomy, Chemistry, Physics and Applied Mechanics, Metallurgy, Engineering, and Natural History. In addition to Schroeder's Models in Descriptive Geometry, there are valuable models in Machine Drawing, Stone Cutting, Crystallography and Architecture.

THE PRESENT ORGANIZATION

AND

COURSES OF STUDY.

The old standard curriculum of under-graduate studies has been adhered to throughout with a judicious regard for the interests of classical culture. Changes have occurred, it is true, and important additions have been made to this course, but only such as have seemed necessary in view of the just demands of changing times.

In her recent remarkable growth, however, Lafayette has far exceeded the limits of this single course, and has indeed, by her various Schools or Departments of Instruction, advanced to the rank of a University. The schedules now offer seven distinct courses of study, leading to degrees, as follows:

I.—THE CLASSICAL COURSE.

The graduates in this course receive the usual degree of *Bachelor of Arts*.

The main characteristics of this course may be seen by reference to the historical outline of it in the foregoing pages. In its present relation to the other departments, it is kept in its integrity, and left free to its own development. It is, however, regarded as embodying the standard means of liberal training, and is therefore the course to which the others conform, so far as is consistent with their specific aim, in their general spirit and design. It is fully equal in organization and thoroughness to the under-graduate course of our best Colleges, and affords the amplest facilities for the study of the Ancient Languages.

II.—THE GENERAL SCIENTIFIC COURSE.*

Graduates receive the degree of *Bachelor of Science;* or, for those taking the elective course in Latin, *Bachelor of Philosophy*.

This course is parallel with the Classical Course of the College, except that the Philological Study of the English and other Modern Languages takes the place of the Ancient Languages. It is de-

*This and the three courses which follow are endowed by Mr. Pardee, and constitute the Pardee Scientific Department of Lafayette College.

signed, therefore, for those who wish to study the Natural Sciences, Mathematics, Modern Languages and Literature, History, Mental and Moral Philosophy, Rhetoric and Logic, as a substantial basis of knowledge and scholarly culture, and who would be glad to enjoy the cultivation and learned habits and associations of College life, but who will not study Greek and Latin.*

III.—THE COURSE IN CIVIL ENGINEERING.

Graduates receive the degree of *Civil Engineer*.

This course is designed to give professional preparation for the location, construction and superintendence of railways, canals and other public works; the trigonometrical and topographical surveys of States, counties, etc.; the surveys of rivers, lakes, harbors, etc.; and the direction of their improvement; the design, construction and use of steam engines and other motors, and of mechanics in general; and the construction of geometrical, topographical and machine drawings.

IV.—THE COURSE IN MINING AND METALLURGY.

Graduates receive the degree of *Mining Engineer*.

This course offers the means of special preparation for exploring undeveloped mineral resources, and for taking charge of mining and metallurgical works. It includes instruction in Engineering as connected with the survey and construction of mines, with the construction and adjustment of machines, and with machine drawings; also, instruction in Chemistry and Assaying as applied to the manipulation of ores and other minerals.

V.—THE COURSE IN CHEMISTRY.

Graduates receive the degree of *Analytical Chemist*.

This course includes text-book study, lectures and laboratory practice, every facility for which is found in the extensive laboratories of Pardee Hall. Particular attention is given to the Chemistry of Agriculture, Medicine, Metallurgy and the Manufacturing Processes.

VI.—POST-GRADUATE COURSES.

Designed for graduates of Colleges or Scientific Schools, and others having suitable preparation. Such persons may pursue ad-

*For further remarks upon this course, see page 52.

vanced studies in any Department, under the direction and instruction of the Professor in that Department, and may have use of the laboratories, apparatus, collections and libraries of the College while prosecuting their researches. Those who complete a three years' course in these post-graduate studies receive the degree of *Doctor of Philosophy*.

VII.—THE DEPARTMENT OF LAW.

Graduates receive the degree of *Bachelor of Laws*.*

This department is designed to furnish a thorough, liberal and practical system of legal education. The plan embraces the various branches of the common law, equity, constitutional and public law. Particular attention is also given to the civil law, medical jurisprudence, and such historical and philosophical subjects as are closely related and necessary to a thorough and scientific legal training.

The courses of instruction in these several schools, together with the methods of teaching, the facilities, text-books, and other particulars, are given in the annual catalogue, to which the reader is

---

*It appears from the records that a Law School in connection with the College was a feature of the plan, cherished by the authorities even from the first; and so early as 1841, and for several years thereafter, the name of Hon. James M. Porter appears in the catalogues as "Professor of Jurisprudence." In the enumeration of students also during that period, several are set down from year to year as "Law Students." Several years later, about 1850, Hon. Washington McCartney, who was also connected with the College, carried on a Law School in Easton for several years with much success.

In recent years the Alumni and friends of the College have more and more felt the need of such a department, and last year the authorities established the Law Course. It was formally opened in the auditorium of Pardee Hall, October 6th, 1875, at which time an inaugural address was delivered by the Dean of the Faculty, Hon. W. S. Kirkpatrick, formerly President Judge of the Third Judicial District of Pennsylvania. The following members constitute the Faculty:

Rev. WILLIAM C. CATTELL, D. D., President.

Hon. W. S. KIRKPATRICK, A. M., Dean of the Law Department, and Professor of Elementary Law and History of Jurisprudence.

M. H. JONES, A. M., Professor of Municipal Law.

TRAILL GREEN, M. D., LL.D., Professor of Medical Jurisprudence.

FRANCIS A. MARCH, LL.D., Lecturer on Constitutional and Public Law and the Roman Law.

E. S. BARRICK, A. M., LL.B., Instructor in Municipal Law.

referred for further details. I shall now speak only of a few topics in which Lafayette College presents distinctive features: and first with reference to

BIBLICAL INSTRUCTION.

The systematic and thorough study of the Holy Scriptures throughout the courses at Lafayette, is a fact that has frequently been noted with pleasure by the friends of sound learning. Any attempt to trace this feature of the curriculum to its origin, takes us back to the very beginning. The College was founded and fostered, as we have seen, by men of eminent piety, who had a profound sense of the worth of the Bible, not only as a book of moral guidance, but as one whose study was admirably adapted for the purposes of liberal culture. With such reverence for the book, and such views of its educational value, they were not likely to neglect its claim to become an important feature of the curriculum. Later in its history, the College came under the care of the Synod, and important changes were made, mainly, however, in the direction of systemizing the Biblical studies.

That these early traditions have not been forgotten in the recent growth of the College, may be seen at once from the present schedule of studies. Indeed, President Cattell's inaugural address in 1864 was mainly devoted to this very subject. From this masterly plea for the introduction of the Bible as a text-book in a course of liberal studies, I may be permitted to quote here a single sentence: "Whatever may be the value of other books, we contend that the Bible surpasses them all, and that the course of study in every Christian College should be so arranged, that, while its general contents should engage the attention of all candidates for the first degree, certain portions of it, in the original tongues, should be studied with at least as much thoroughness as is given to any classic writer, and that this special study of THE BOOK should be an addition to such collateral instruction as may be given in the other departments, especially Mental and Political Philosophy, Ethics, Archæology and History."

The scheme of Biblical instruction at present will be seen from the following paragraphs, which I take from the catalogue:

The New Testament is used as a text-book for the regular daily recitations in Greek during the two terms of the Classical course. The Gospel according to Mark is the study of one term, and a Greek harmony of all the Gospels of a

second term. The life and words of Christ are thus made the centre of Biblical study.

On Monday morning, throughout the year, each of the classes has a Biblical exercise. In these the Assembly's Catechism is studied. In the Freshman year, a general view of the contents of the Bible, and of each book, is given, with special attention to Chronology, History and Geography. The Bible in English, and Coleman's Geography of the Bible, are used as text-books. In the Sophomore year, the Acts of the Apostles are read in the original Greek, and special study given to the lives and labors of the Apostles, and to the origin and antiquities of the Christian Church. In the Junior year, the Epistle to the Romans is studied in the original Greek, both as to language and doctrine, with much care and iteration. In the Senior year, a daily recitation, for one term, is devoted to the critical study of the language of the Gospels, both the original Greek and the English of our standard version. In this year are also studied the Old Testament in the original Hebrew (an elective study); the history of translations of the Bible, especially the history of the English Bible, its merits and influence; the evidences of Christianity, with Butler's Analogy and the Rule of Faith.

Throughout the course, the language of the English version is constantly examined and referred to as standard English. In Political Philosophy, reference is made to he Hebrew Commonwealth. The truths taught in the Bible in relation to the character, powers and duties of man, are inculcated as fundamental in Mental and Moral Philosophy, and the Philosophy of History is identified with the History of Redemption.

It is designed to make the Bible the central object of study in the whole College course.

The students of all the under-graduate courses engage in the Monday morning exercises throughout; those of the Scientific Department, however, studying the Acts of the Apostles in English and the Epistle to the Romans in German.

THE DOUGLASS COURSE IN THE CHRISTIAN CLASSICS.

Another feature kindred to the one above noted is seen in the recent enlargement of the Classical Department, by the addition of an elective course known as the Douglass Course. In 1872, Benjamin Douglass, Esq., a gentleman of wealth and learning, a warm friend and patron of the College, proposed to the Board to endow, for a term of years, a course in the Christian Classics, that students for the ministry and others who desired might enjoy the full advantages of philological training in the noble languages of antiquity, and pursue the Christian instead of the Pagan literature. The offer was accepted, and the course accordingly established. Instructors were provided and classes organized in 1872.

Arrangements were at once made for the issue of suitable text-

books to answer the need created by the new course. The work was undertaken by Prof. March, who still has it in charge. Under his editorship, four volumes* of the series have already been issued, and others are in preparation. The following is taken from the publisher's notice:

"It is remarkable that no place has been given in the schools and colleges of England and America to the writings of the early Christians. For many centuries, and down to what is called the Pagan Renaissance, they were the common linguistic study of educated Christians. The stern piety of those times thought it wrong to dally with the sensual frivolities of heathen poets, and never imagined it possible that the best years of youth should be spent in mastering the refinements of a mythology and life which at first they feared and loathed, and which at last became as remote and unreal to them as the Veda is to us. Classical Philology, however, took its ideal of beauty from pagan Greece, and it has filled our schools with those books which are its best representatives.

"The modern Science of Language has again changed the point of view. It gives the first place to truth: it seeks to know man, his thoughts, his growth; it looks on the literature of an age as a daguerreotype of the age; it values books according to their historical significance. The writings of the early Christians embody the history of the most important events known to man in language not unworthy of the events, and the study of Latin and Greek as vehicles of Christian thought should be the most fruitful study known to philology, and have its place of honor in the University Course."

And the following from the address of Prof. March, President of the American Philological Association, delivered at Hartford, July 14th, 1874:

"If these standards be well set, if truth is more beautiful than beauty, if power is more graceful than grace, if those books are the most valuable records which phototype the most valuable events in the history of man, if those books are the highest educational powers which contain the noblest delineations of the noblest characters, there would seem to be one class of authors who have not been used to the full. I mean the early Christian writers in Greek and Latin. It is the great fact of history that the sensualism of Rome and Greece, the best side of which Horace has so well sung, gave place to self-abnegation, to heroism, to a virtue which rejoiced in pain and suffering for love of truth. To read the expression of this new character, when that expression was action, and a man put his life and death on each word, is high reading.

"The Latin hymns, too, have the right ring. There is no original poetry in the heathen Latin verses. The cultivation of the so-called classic age was but superficial. The meters were imported from Greece, and rehearsed to please the Greeklings. The repetition of these Greek prettinesses never roused the Roman.

---

*Latin Hymns, with English Notes; The Ecclesiastical History of Eusebius, the first Book and Selections; Tertullian, Select Works; and Athenagoras.

His character was stern, hard and fierce. His mind was bent on empire. Death did not daunt him. To suffer and die with rejoicing for truth suited men of the blood of Regulus and Curtius, and aroused their faculties at last to the height of song. The love of Christ melted them. They burst the shackles of the Greek meters, and shook off the stiffness of the Latin syntax, and sang the early Christian hymns It is strange that our children should spend years on the faint Homeric echoes of Virgil, and commit to memory the graceful epicureanism of Horace, and never see the *Dies Iræ*. There is no ode of Horace, or any other ode of a heathen Roman, that on the ground of its power, its harmony, its influence, its fame, has a hundredth part of the claim to the careful study of our scholars."

The instruction in the classics of this course is the same in its main disciplinary and philological features as in the old course, and the classical students elect whether they will study Greek and Latin in the Christian or pagan writings.

THE GENERAL SCIENTIFIC COURSE.

I would also call special attention to the General Scientific Course, as offering a system of thorough liberal culture based upon the study of the Natural Sciences, Modern Languages and Mathematics.

The munificent endowment of Mr. Pardee enabled the authorities to establish this course in 1866.

Its design, as already indicated, was to furnish a system of instruction that should be fully equivalent in general information and scholarly culture to the classical course, but without the ancient languages. Anglo-Saxon, English, German and French are therefore substituted for Latin and Greek. These languages are pursued in the light of Modern Philology, with the systematic thoroughness which we are accustomed to associate with classical studies.

That there is a large class who prefer such lines of study, is evident from the success of the course at Lafayette, and at other institutions of our own and sister States where similar courses have since been established.

The education heretofore afforded by our Colleges, deriving its main elements from the ancient languages, seems to many to have too little contact with the living present. Recent statistics* show that, notwithstanding the largely increased number of Colleges in

*See President Cattell's Address before the Synod of Philadelphia, 1870, where he refers to President Barnard's tables.

our country, the number of students in proportion to the population has been steadily decreasing for the last thirty years; while the number of young men who could afford an education, as well as the general interest in educational subjects, has been on the increase for the same period. And not alone with young men who should throng our college halls, but with a large class of scholars, there is a growing indifference to the language and literature of antiquity. Ancient thought is so remote from us, and belongs to conditions of civilization so different from our own, that classical education, it is thought, is encumbered with a great deal that is only in the most indirect manner, if at all, pertinent to modern life. Of course, there is much to be said the other way. The advocates of classical study may indeed urge this very remoteness as one of the main reasons why the products of ancient genius in the noble languages which enshrine them should ever remain the basis of a broad and thorough liberal culture. But the fact remains of a decided and growing preference on the part especially of those who, in the formation of their minds, have come under the influence of modern science, for those lines of study that have a modern outlook. "Our oldest and best colleges have made large concessions to this demand, in some cases abridging the Latin and Greek, in others providing elective studies in the upper classes. It seemed best to the authorities of Lafayette to squarely meet this demand, and thus leave the old classical culture unrestricted in its own development. They therefore added a new course, pure and simple, with no Latin* and Greek at all, but with an adequate amount of philological study, having for its basis Modern Languages, and especially the English." (President Cattell's address before the Synod.)

Great care has been taken that the new course shall not be removed from the old landmarks. Coincident recitations and lectures, and in every way as many points of contact as possible, have been secured, and the old approved methods of instruction kept up throughout. The course has been carried on with earnestness and vigor, and has more than realized the expectations of the founders in its gratifying success.

I have noted from the present schedule the proportional distribution of studies in this course. It is as follows:

---

*By a feature of the course just announced, students may hereafter substitute Latin for French or German.

	Recitations.	Per cent.
Mathematics, Astronomy, Mechanics and Physics,	649	.249
Drawing,	110	.042
Modern Languages, English and Anglo-Saxon,	394	.152
Modern Languages, French,	275	.106
Modern Languages, German,	237	.091
Biblical,	156	.06
Mental and Moral Philosophy,	108	.041
Political Economy, Constitution of the United States, and Outlines of History,	78	.029
Rhetoric, Logic and Elocution,	189	.072
Natural Science, Chemistry,	154	.059
Natural Science, Botany and Zoology,	140	.054
Natural Science, Geology,	70	.027
Natural Science, Mineralogy,	46	.018

The following table presents the GENERAL SCIENTIFIC COURSE for the year 1875–6, taken from the current catalogue:

FRESHMAN YEAR.

FIRST TERM.

Algebra, Loomis's (continued); Stereotomy; Elementary Drawing; French or Latin; English, March's Method; English Composition; Chemistry with Laboratory Practice; Lectures on Health; Old Testament; Coleman's Biblical Geography.

SECOND TERM.

Geometry, Loomis's (continued); Drawing, Plain Problems; French, German or Latin; Chemistry with Laboratory Practice; English Composition; Old Testament; Coleman's Biblical Geography.

THIRD TERM.

Algebra (completed); Geometry (completed); Geometrical Drawing; Modern Languages or Latin; Mineralogy; English Composition; New Testament; Coleman's Biblical Geography.

Throughout the Year.—Declamations, and written Translations into English from French and German (by the candidates for the degree of B. S.) or from Latin (by the candidates for the degree of B. Ph.)

SOPHOMORE YEAR.

FIRST TERM.

Trigonometry, Plane and Spherical; Mensuration, Loomis's; Geometrical Drawing; French, German or Latin; Study of Words, Trench; English, Bunyan; Chemistry (optional); Acts of the Apostles.

SECOND TERM.

Conic Sections (Coffin's); Topographical Drawing (optional); German or Latin; Botany; Zoology; Rhetoric; English, Spenser; Chemistry, (optional); Acts of the Apostles.

THIRD TERM.

Analytical Geometry; Differential and Integral Calculus; Navigation and Surveying; Botany; Zoology; English, Chaucer; French; German; Chemistry (optional); Acts of the Apostles.

Throughout the Year.—Declamations and Themes.

JUNIOR YEAR.

FIRST TERM.

Mechanics; French or German; English, Bacon; Chemistry (optional); Zoology; Botany; New Testament Epistles.

SECOND TERM.

Physics (begun); Zoology; Botany; Anglo-Saxon, March's Grammar and Reader; English, Milton; Constitution of the United States; Political Philosophy; New Testament Epistles.

THIRD TERM.

Physics (completed); Modern Languages or Latin; Anglo-Saxon (continued); English, Shakespeare; New Testament Epistles.

Throughout the Year.—Declamations, Themes, and Written Debates.

SENIOR YEAR.

FIRST TERM.

Mental Philosophy (begun); Astronomy (begun); English Literature; Modern Languages or Latin; Modern Literature; Anatomy and Physiology; Rule of Faith.

SECOND TERM.

Mental Philosophy (completed); Political Economy; Rhetoric; Logic; Moral Philosophy; Geology; Mineralogy; Modern Languages, Astronomy, Chemistry, Blackstone, *Elective;* Evidences of Christianity.

THIRD TERM.

Geology; History; Architecture; Philosophy of Mathematics, Archæology of Literature, *Elective;* Comparative Philology; Chemistry, Blackstone, Modern Languages, *Elective;* Butler's Analogy.

Throughout the Year.—Themes and Extemporaneous Speaking.

THE LINGUISTIC STUDY OF ENGLISH.

Another important distinctive feature, and the last to which I shall now call attention, is the study of our own tongue. It will be observed that we do not mean by this the ordinary exercises of classes in English, as grammar, parsing and the rhetorical and literary criticism of authors merely, but the thorough and systematic philological study of the language. A separate Professorship in this department was established, and the English classics introduced into the curriculum in 1857, Lafayette being the first American College to thus recognize the claims of our own language and literature. The English language is here associated with Comparative Philology, and thus made the centre of linguistic study.

The method pursued in this department, which has received the most favorable notice from eminent educators everywhere,* may be best presented in a general way by an extract from the catalogue: "The English language is studied in the same way as the Latin and Greek. An English classic is taken up. The text is minutely analyzed, the idioms explored, and synonyms weighed; the mythology, biography, history, metaphysics, theology, geography, are all looked up. The rhetorical laws of English composition, and the principles of epic and dramatic art are applied to Milton, Shakespeare and other English classics, line by line. The character of the author, and his life and times, are studied, and an attempt is made to comprehend these great representative works in their relations to the English literature and the English race. The text is also made the foundation of more general study of language; the origin and history of recurring words, the laws by which words grow up from their roots in our language, the laws by which changes from one language to another are governed, are stamped on the mind by con-

---

The following extract will show the general tone of comment by learned men so early as 1870, upon the English course at Lafayette. It is taken from an article in the British Quarterly for October of that year, entitled, "The Higher Education of the United States:"

"A distinctive feature worth mentioning is seen in the curriculum of Lafayette College, at Easton, in Pennsylvania. This is not one of the largest institutions of the kind, but it is eminently distinguished by the intelligence and zeal which pervade its arrangements, and make themselves felt in the success of the teaching. For some years past, under the able direction of Professor March, the English language has been made a prominent feature in the programme. The Professor treats the English author chosen for study—Milton, for instance—as a competent classical teacher does Homer or Virgil. The text is minutely analyzed, the mythological, historical and metaphysical allusions carefully investigated and appreciated, parallel passages from English authors of different periods adduced, and the rules of composition in poetry or prose illustrated. As to the language itself, independently of the thought conveyed by it, investigations are conducted into the origin, value and chronological history of the words, their formation, etc.; and, in short, into everything which belongs to the domain of comparative philology. Nowhere else is the subject treated with equal competence and success."

To which may be added, among the more recent notices of the course, one from the London Athæneum:

"The studies of a philological character carried on at Lafayette College, are not surpassed in thoroughness by those which we are accustomed to associate with German universities."

tinual iteration; and an attempt is made to ground all these facts and laws in laws of mind, and of the organs of speech."

All the students take up the studies of this department, but most of all those of the General Scientific Course, where they are regarded to a considerable extent as a substitute for the culture derived from the study of Latin and Greek as it is usually pursued in our Colleges. An outline of the actual work done in this course, therefore, will better exhibit the plan in some of its details.

In the Freshman class, there is first of all a thorough drill in analysis, parsing and the syntax of sentences. This is the basis of the future work, and a complete mastery of the general principles of syntax, and skill in the solution of familiar idioms is brought constantly into requisition. Then before the more advanced work in philology is undertaken, other languages are studied. French and German (in the Classical course Latin and Greek) come in as parts of the organized scheme of linguistic study, and are so pursued as to become a means of special culture in English.

In the Sophomore year, they take up in the first term Trench on the Study of Words; also Bunyan's Pilgrim's Progress, in connection with which Fowler's English Grammar is studied. The grammar subjects for this term are Syntax, Grammatical Equivalents, Rhetorical Forms and Historical Elements, on which daily recitations are heard, and the lessons learned are constantly illustrated by the text under review. The whole story of the Pilgrim's Progress is read, the allegorical meaning called for part by part, and salient doctrinal points noticed.

The staple of daily drill, however, is found in connection with the minute and careful treatment of selected passages. These are studied clause by clause and word by word. The syntax is first made clear, then words are taken up; synonyms and phrases grammatically equivalent brought into comparison and the student taught to feel an intelligent preference for one or another form of expression as it may promote perspicuity, liveliness or other traits of a clear and vigorous style. In the treatment of single words also the German and French are called for, and as far as practicable in the Scientific Course, the Latin; the laws of change, the derivation, the root, the radical idea, kindred words, the primary meaning, changes in the meaning with the connection of thought, together with such other lines of inquiry as are suggested by Trench, as, indications of history, character, moral suggestions and the like; poetical

forms of frequent occurrence are also specially noted, and the collocation of words discussed, both with respect to syntax and the rhythmical cadences of speech.

In connection with this daily drill, the life and times of Bunyan are discussed in writing by each member of the class, and his diction compared with that of other standard works and especially with the Bible. In this part of the work students are judiciously directed by questions and references, but are expected to look up information everywhere.

This system of daily drill on the best passages, and weekly essays on topics growing out of the discussion of the life and times of the author is found to lead the student on by sure and rapid steps to an intelligent appreciation of the author's works, his place in literature, and on the whole to the best mastery of his genius.

The same general plan is pursued progressively throughout the course, with changes from term to term, in the topics embraced in the drill.

The Sophomores (second term) read Spenser's Faery Queen, with the same concentration upon representative passages; the special drill topics being Derivation, Romance of Chivalry and Spenserian Stanza. In the third term, Chaucer (Canterbury Tales) is the basis of work. Several of the tales are read and discussed, but the famous Prologue is the special subject of study and philological drill. All the results of previous work are kept constantly in review. This is an emphatic feature of the method. "A line of questions once begun is always kept up." The special drill topics this term are Phonetic Elements, Orthographic Elements, a review of Historical Elements and Criticism of uncertain Text.

The Juniors (first term) read Bacon's Essays with the same care and iteration. During the second term they study Anglo-Saxon, in which subject the classes have, since 1870, used Prof. March's Grammar and Reader. They also read Milton's Paradise Lost. The Classical and General Scientific students here recite together (as they do in all the subsequent Anglo-Saxon and English studies of the courses). The special objective points are Punctuation, Poetical Forms and Epic Art. There is, however, the same round of daily drill, with increased attention to Comparative Philology, the courses giving mutual aid in supplying the materials for the research. In the third term, Anglo-Saxon is continued, and Shakespeare's play of Julius Cæsar is read, with special attention to the Etymology

of Pronouns, Pronominal Elements, Instinctive Forms, Dramatic Art and Creative Power in Language.

In the Senior year the first term is given to a more rapid and general survey of English literature by means of a Compendium and class discussions and conversations. In the second term a representative work of a representative author, selected by the Professor, is studied with a view to more extended researches in philology and criticism, and one elaborate essay by each member of the class, to be handed in at the close of the term. What is known as the Fowler Prize is awarded on the basis of this term's work. During the third term, Senior year, Prof. Whitney's Lectures on Language are studied. The work of the entire course in Comparative Philology is reviewed and co-ordinated, and advanced work pursued by means of lectures and class discussions.

Such in brief outline is the plan of the course in English; but the wisdom, skill and success with which it is pursued and realized can be but imperfectly represented to those who have not observed the method in its actual workings. Prof. March, to whom we are indebted for the rise of Anglo-Saxon studies, and this admirable method of pursuing the English classics, is known as a plain man of plain words, who drives right at his point and seldom misses it. As an educator he is earnest, thorough and vigorous, and his work is characterized by a straightforward energy which secures the interest of students, and stimulates the dullest as well as the brightest to vigorous exertion. It is perhaps not too much to say, that in no class in any College is better work done by the young men than in his, nor with a more genuine scholarly enthusiasm. He will take the little speech of Flavius that opens the play of Julius Cæsar, and engage the class for an hour upon it, during which time, though it may seem all too short to them, they will have gleaned with him far and near, and brought in rich burdens from many fields. It is a matter of surprise to the student how many sources of knowledge are compassed in these rapid excursions. The classic page itself is but the starting point; from it they go forth in every direction; to Rome, and the early times of the empire; to the court of Elizabeth, and the history of her reign; to Shakespeare's masterly development of human character; to dramatic art, its aims, rules and devices; and upon the manifold lines of linguistic investigation; the author's diction, the influences that determine it, the adaptation to character; the forms and relations of sentences; the growth, history,

uses and relations of words; and so to the psychology and physiology of speech.

These topics, many of which, as ordinarily discussed, might seem abstruse and unintelligible, are opened up and illustrated by easy and natural questions growing out of the passage; so that a knowledge of the most important principles of art and linguistic science is grounded in and associated with the forms of our daily speech.

One is forcibly reminded of the words of Arnold: "What a treat it would be to teach Shakespeare to a good class of young Greeks in regenerate Athens; to dwell upon him, line by line and word by word; and so to get all his pictures and thoughts leisurely into one's mind, till I verily think one would, after a time, almost give out light in the dark, after having been steeped, as it were, in such an atmosphere of brilliance."

Treated in this manner, the English not only offers a good field for a most thorough grammatical, rhetorical and literary discipline, but also as the centre of linguistic studies, and pursued co-ordinately with Anglo-Saxon, Latin, Greek, French and German, is a great aid in that larger field of learning which modern philology enables us to embrace by the study of languages.

THE ALUMNI ASSOCIATION.

This Society, founded September, 1845, is composed of graduates of the College, and such of their classmates (who left College before graduation, and in good standing) as may have been elected. The objects of the association are to continue the relations of friendly and cordial intimacy which exist among students of the same institution, and to keep alive their interest in *Alma Mater*. Local sections are formed from time to time at remote points where a number of alumni are gathered. The annual meeting is held on Tuesday preceding commencement, when an oration is delivered, and the business of the society is transacted. The following is a list of the orators, as far as can be ascertained:

1843—Rev. James W. Wood,	Class of	1837
1846—Rev. J. H. Brakeley, Ph. D.,	" "	1839
1847—Hon. Wm. E. Barber,	" "	1840
1848—Rev. Prof. Chas. Elliott, D. D.,	" "	1840
1853—Rev. Prof. Wm. Henry Green, D. D.,	" "	1840
1854—Edward F. Stewart, Esq.,	" "	1839
1855—Rev. Prof. Chas. Elliott, D. D.,	" "	1840

1856—Nathaniel Newkirk, M. D.,	Class of	1840
1858—Rev. Charles J. Jones,	" "	1846
1859—Rev. James W. Wood,	" "	1837
1866—H. T. Lee, Esq. (Commemorative address),	" "	1860
1869—James P. Boyd, Esq. (Poem),	" "	1859
1870—Rev. John C. Wilhelm (Poem),	" "	1857
1871—Rev. J. E. Nassau (Oration),	" "	1846
" —Rev. N. S. McFetridge (Poem),	" "	1864
1872—Rev. S. A. Gayley,	" "	1847
1874—James P. Boyd, Esq.,	" "	1859
1875—Hon. Robert P. Allen,	" "	1855

The officers of the Association for the year 1875–6 are:

President—Rev. Geo. C. Heckman, D D., class of 1845, President of Hanover College, Indiana.

Vice-President—J. W. Wood, A. M., class of 1864.

Treasurer—Samuel L. Fisler, A. M., class of 1861.

Secretary—Prof. Selden J. Coffin, Ph. D., class of 1858.

Clerk, Oscar J. Harvey, Esq., class of 1871.

THE WASHINGTON AND FRANKLIN LITERARY SOCIETIES.

Of these I have already made brief historical mention (see pages 12–13). Their weekly meetings are held on Wednesday evenings, and the usual opportunities are afforded for literary and forensic culture, and for acquiring a familiarity with the parliamentary rules common to deliberative bodies. To afford an opportunity to prepare for the duties required by these societies, the members are excused on Wednesday afternoons from College exercises.

On the day preceding Commencement the Literary Societies hold reunion meetings in the forenoon, and an oration is delivered before them in the evening, the societies alternating in the choice of the orator.*

THE BRAINERD MISSIONARY SOCIETY.

To this I have also briefly alluded (see page 13). Its primary object was to foster a missionary spirit and disseminate among the students a knowledge of missionary work. It was, however, for years the only religious organization of the College, and its influence

* For list of the Annual Orators, see page 65.

was felt among the students and in the vicinity through many forms of Christian work.

Its anniversary is held on the Sabbath afternoon preceding Commencement, in the old chapel (now called Brainerd Hall), and consists of an address by the President of the Society, a report from the Secretary, giving an abstract of the proceedings for the year, and addresses by returned missionaries and graduates of the Society. In the evening a sermon is delivered before this Society and (since 1874) the Society of the Christian Brotherhood.*

Among the members of the Brainerd Society who have been actively engaged in the Foreign Missionary work may be mentioned: James B. Ramsey, class of '36, among the Choctaws; James G. Junkin, '38, Mexico; A. J. Collyrus, '43, Greece; John Bemo, (Nephew of Osceola), '43, among the Seminoles; Washington McDonogh, '43, Africa; John F. Wilson, '43, Africa; T. H. Newton, '46, West Indies; John S. Woodside, '46, India; G. W. Simpson, '46, Africa; Victor Herschell, '47, Jamaica; Ishwari Das (Adam), '48, India; Isidor Lowenthal, '48, India; R. H. Nassau, '49, Africa; Samuel R. Gayley, '53, China; C. R. Mills, '53, China; John Menaul, '65, Africa; L. W. Eckard, '66, China; R. Arthur, '68, Oscar J. Hardin, '68, Siam; Jas. T. Houston, '71, Brazil.

THE CHRISTIAN BROTHERHOOD.

In late years, and particularly at the time of the great revivals in 1871 and 1873, large additions have been made to the number of professing Christians in the College, and there has been a felt need in this growing Christian community for a religious organization which should in some measure supply the place of a church as well as a Young Men's Christian Association. The Christian Brotherhood was organized in September, 1874, with this object in view. The following are the articles adopted at its organization:

1. The Christian Brotherhood of Lafayette College hereby established under the authority of the Board of Trustees, is composed of members of the College who are in good and regular standing in any Evangelical church, and who signify their willingness to join the organization by subscribing to the covenant.

2. The Brotherhood has no authority to administer the sacraments, or to exercise discipline over its members. Its design is *first*, to promote the higher Christian life among its members by a mutual watch and care, by praying with and for each other, and by living together in Christian love: and *secondly*, to

* For the list of Annual Preachers, see page 65.

advance the kingdom of Christ in the hearts of others in every way that may be indicated by God's Providence.

3. The details of the management are left to the President of the Faculty, and to a Board of Counselors, consisting of three students from each class, who shall be elected by the several classes the first Thursday evening of each session after Divine service.

The daily prayer-meeting in Brainerd Hall, together with the various Sunday-schools and religious meetings in the vicinity, which were formerly carried on by the Missionary Society, now come more directly under the auspices of the Brotherhood.

THE NATURAL HISTORY SOCIETY.

The Natural History Society of Lafayette College was organized by Professor Porter, April 6th, 1863. Its general aim is to encourage and advance the study of nature in the College; its particular aim, to explore the vicinity (a district comprised in a circle with a radius of twenty miles, having Pardee Hall as its centre), to collect specimens for a museum which shall present as full an exhibit as possible of the natural history of the district, to make maps for illustration, and to gather Indian relics. Acquisitions from abroad are also received.

The meetings are held on alternate Friday evenings during term time, at which papers are read, topics discussed, lectures delivered, and donations for the library or collections received. Brief reports of these proceeding are published in the Lafayette College Journal. Its library already contains a number of valuable scientific works, and its large and rapidly increasing collections are most valuable as a further means of instruction.

The Society is constituted of *active* members elected by ballot from the professors, students and residents in the neighborhood who have at any former time been connected with the College; and *correspondents*, consisting of old members who have removed to a distance, and others chosen by an honorary vote. The Professor of Botany and Zoology is President of the Society *ex-officio*.

THE CHEMICAL SOCETY.

The Lafayette Chemical Society was organized by Professor T. M. Drown in February, 1875. Its membership comprises the instructors in the chemical department, and the students of the

College interested in the study of chemistry. Its object is to supplement the regular work of College instruction and study in this department, by encouraging and aiding students in independent original research. The professor in charge of the laboratories aids the advanced students in conducting their investigations, and regular weekly meetings are held, at which the results are presented to the Society in the form of papers, and the subjects connected with them discussed by the members. Reports of these meetings are published in the Lafayette College Journal. During the College year 1875–'76, fifteen such original papers were read by the students and assistants in the department, besides minor communications of interest. The funds of the Society are expended solely for the purchase of books and periodicals. A valuable library of books of reference is thus rapidly accumulating.

THE SOCIETY OF PHYSICS AND ENGINEERING.

This Society has recently been organized by Prof. Moore. Its object is the discussion of subjects relating to these departments, but which cannot be fully discussed in the regular lectures and recitations of the classes. As soon as the enlargement of Jenks' Hall is completed, the Society will have a suitable hall for its meeting and extensive laboratories for original investigations in Physics, Applied Mechanics, etc.

In addition to these Societies, there exists, among the students, a number of organizations; some for physical exercise, as the boating, base and foot-ball clubs, others for the cultivation of music, as the glee and quartette clubs, the College orchestra, and others of a mingled social and literary character, as the Greek Letter Societies with affiliated branches in other colleges.
